R.E: The Chisago County / Polk County, Wis.
Transmission and sub-station Project.

Gentlemen:

Because of our land ownership interests in this project, we attended the hearing at Lindstrom on FEB. 27, 2007.

We were impressed with the knowledgable representatives and their efforts to please the people and answer their questions.

The problem we have to address: ① We would like to avoid the diagonal cross on our land we own in Taylors Falls. Couldn't this be run along # 37 over east to Rieke Road and just follow north (or even further east)? Larry Dahlberg also believes that crossing to be undesirable. We don't care to have our Maple Grove disrupted when there can be an alternative.

② Also, the old line should really be torn out and restored to original appearance.

Respectfully, Charles, Gloria and Bob Wilberg
