85 - 7th Place East Suite 500
St Paul MN 55101 - 2198

We strongly oppose Xcel Energy's application to the MN Public Utilities Commission for an increase in nuclear power generating capacity & additional dry cask storage of nuclear wastes.

Xcel should encourage Minnesotans to use LESS energy & it should invest a lot more in the development of wind & solar technology.

It is irresponsible to increase use of a dangerous energy source like nuclear power.

Only local gov't should exercise eminent domain power.

Sincerely

Irene V. Boone & Jim Pennino
