Dear Mr. Storm-

Since I am unable to attend the meetings, I am writing to express my concern of above ground powerlines being installed around the greenway. My husband and I take our 4 children biking frequently on the greenway. We enjoy the beauty and safety of the bike paths. The greenway provides a welcome break from some of the ugliness in our neighborhoods. I would not feel comfortable having my family spend much time around those high voltage lines. Please don't allow this plan to ruin this area. I am fully in favor of underground lines to prevent the expected brown outs.

Sincerely,

Heidi Hoilien
