SCOPING MEETING
Xcel Energy Hiawatha HVTL Project
PUC Docket Number: E002/TL-09-38

Name: Jessica Friedrichs

Representing: Midtown Exchange Condos on the Greenway

Address: 2900 11th Ave, S, #401
MPLS, MN 55407

Email: friedrichsj@hotmail.com

Comment:

We, at the Midtown Exchange Condos, are new to the area. Our building was built a few years ago on 29th street between 10th and 11th. We are on Xcel's "preferred route" or Route A. It is heartbreaking to think that our building's view could possibly become Xcel's transmission lines. We are all joining together to stop this from happening to our homes. We have been working hard to make this community a better place to live. We will certainly not stop now.

(turn over)

Comments Continued:

If this project is a "go" on 29th (Route A):

1. It must be underground!
   - the cost for "above ground" on Route A is $28.4 million
   - for the underground — we need Allina, Wells Fargo, and the Global Market to come together and raise the cost difference from above ground to underground.
   - if not all of the money can be raised Xcel must help fund the underground project.

2. Please consider those of us living on 29th who take pride in our view and location on the Greenway.

Thank you.

For me (personally) I would be living with a large pole outside my unit blocking my wonderful view of the Greenway. I am directly on the corner of 29th and 17th. I bought my unit knowing that across the street is the on/off ramp to the greenway and nothing would block my view. Xcel's project is changing all that.
