Public Utilities Commission

(PUC) Docket Number: E-015/CN-12-1163

I am writing to express my concern regarding the proposed Great Northern High Voltage Transmission Line Project from Manitoba, Canada traveling through Minnesota to Grand Rapids, Minnesota. As a Minnesota land owner I strongly object to the placement of this power line on my property as it will devalue the property for all of perpetuity and no amount of compensation could change that fact. Besides the loss of property value there are environmental, health, and aesthetic reasons for not wanting this power line on my property or near it.

I am expressing my strong disapproval of the power line on or near my property and I hope the commission will listen to the concerns of landowners in our area and not attempt to route the power line through our property against our wishes.

Sincerely,

Edward E Efta
