Dear Mr. Birkholz,

Please find attached my Public Comment Form for the Fargo to St. Coud 345 kV transmission line project

Also, please note that we have a 3 MW community wind project underway that will need site locations for the wind turbines in Sections 13, 23, 24, 25, and 26 of Hudson township.. A metreological tower has been installed and National Wind Assessment is doing a wind study over a 6 month period, starting October of 2009, to determine the best locations for the installation of the wind turbines.

Thank you,
Craig & Kathy Damstrom
