Please share your comments on the potential impacts, mitigation measures and alternative routes to be considered in the scoping document and environmental impact statement to be prepared for the proposed Fargo to St. Cloud 345 Kilovolt High Voltage Transmission Line Project.

Turn this form in today or mail to the address provided on the back (use additional sheets as necessary). You may also email comments to David Birkholz, Project Manager at david.birkholz@state.mn.us with **TL-09-1056** in the subject line. Faxed comments can be sent to 651.297.7891. **Comments must be received no later than 4:30 p.m., Friday, February 11, 2009.**

Please consider I-94 as the power line route. There is already a right-of-way their and is the shortest route. The woods and wetlands along the freeway are not any nicer than the proposed or alternate routes. You can use slight deviations around spunk lake and the Avon business park and follow I-94 again. Thanks for your concideration.
