PUBLIC COMMENT FORM

Fargo to St. Cloud 345 kV Transmission Line Project
PUC Docket No. E002, ET2/TL-09-1056

Name: Kevin + Leslie Ebnet + Family

Address: 40862 190 Ave

City: Albany State: MN ZIP: 56307

Please share your comments on the potential impacts, mitigation measures and alternative routes to be considered in the scoping document and environmental impact statement to be prepared for the proposed Fargo to St. Cloud 345 Kilovolt High Voltage Transmission Line Project.

Turn this form in today or mail to the address provided on the back (use additional sheets as necessary). You may also email comments to David Birkholz, Project Manager at david.birkholz@state.mn.us with **TL-09-1056** in the subject line. Faxed comments can be sent to 651.297.7891. **Comments must be received no later than 4:30 p.m., Friday, February 11, 2009.**

We do not want the project to go down 190th Ave for many reasons and Concerns. The impact on ones health for all our children on 190th Ave. This is a farming community + our children are working the land with their Familys. Our farm land is being disturbed and dissapearing in this country at a scary rate. Where will ones meal come from if its distroyed by the impact of this, let alone the risk of illness. We also have many marsh areas along our roadsides where birds come every spring to raise their young. We also have a wetland area that was put in on 190th Ave that the birds migrate to every spring to mate + raise their young. Every Evening Geese flock to this area as a Feeding Ground also. And all out other birds + wildlife that make 190th Ave. Home year around. 190th Ave is not the gateway through Minnesota, the interstate is. We chose NOT To Live by the interstate but a quiet farm communit where the land has been farmed since our great Grandparents Settled the area. We ask that you consider the impact on what we will be losing. This project should stay with the area that was developed for progess through the State as I-94 and not disturb the enviroment that should remain pure as possible for all our future generations. Thank You Sir
