Comment:
I own the most power line Right of way in Lake of the Woods County. I presently have 50 wood bison on my Property, 1420 acres Are high fenced. In Canada it has been proven that the Power-line CAN CAUSE their estrous Cycles to be anything exept NORMAL. for instance usually All Calfes Are born in MAY-June, I had one born in November Last year. If this is going to be A problem I would like it addressed. the wood-bison is AND ENDANGERED specie. I have the only herd in the U.S. PLEASE comment.
