When Mr. Parker came to our Parkers Prairie land to settle, he thought it was so great to see all this open land with few trees. Then came Hough, Hall, the Hagens, then Lindalls, Erksons, Grams, Nelsons, now they want to put up all these windmill, Roan an County with these eyesores. They only ones that will gain is the factories that make these towers. Just like the lobbist in the capitol, lobbied to get freon for freezer & refeldator & air conditio, there is no proof it was harmful to health, but the Company got to sell the product and it's not as good as the real stuff. Just listen to the people.

At Conquest, Minn. They sold shares to build there windmill for $50.00 a share, my sister and husband bought two share and it never was built, its a sham.
