Email: briannrice@centurytel.net

Comment: My comment of the proposed Transmission line is to stay off or away from ag land. I feel there is a better route to the north along the border, down the border along the boundry line. It is all woods & brush and would not effect people driving under or along this line everyday many times a day going back and forth to the south. Crossing the border at Hwy 310 & go east along boarder. would not effect as many people.

On the EIS I will need scientific information on the effect of this line on people & animals. I need to know this is safe with ~~to~~ no health effects.
