ATTACHMENT #3:
AFFIRMATIONS OF COMPLIANCE

The applicant submitting this application affirms, to the best of their knowledge and belief, that if selected for a conditional subaward, applicant will comply with:

A. **National Environmental Policy Act:** All Applicants conditionally recommended for subawards will be required to submit an environmental questionnaire (NETL Form 451.1-1/3) for each work location proposed in the application following notification of conditional subaward recommendations. A NEPA representative will review these documents and any other pertinent information to determine the likely level of NEPA documentation, which may include Historic Preservation documentation, required for qualified projects.

B. **Build America, Buy America Act:** The Build America, Buy America Act requires that in federally assisted projects which involve infrastructure work, all iron, steel, and manufactured products are produced in the United States, and all construction materials are manufactured in the United States.

C. **Davis-Bacon Act:** All Applicants conditionally recommended for subawards will be required to confirm they will pay all of the laborers and mechanics performing construction, alteration, or repair work in excess of $2,000 on projects funded directly by or assisted in whole or in part by and through funding under the award, wages at rates not less than those prevailing on projects of a character similar in the locality as determined by subchapter IV of Chapter 1 of Title 40, United State Code commonly referred to as the "Davis-Bacon Act" (DBA).

D. Receipt and Use of General Obligation Capital Bonds for the Project
The Grantee or Applicant must inform the Department if they have received, and are using, general obligation capital bonds (GO bonds) toward the costs associated with this project (for grant contract agreements exceeding $100,000). If the grantee is using GO bonds, pursuant to Minn. Stat. 263A.36, then a Workforce Certification must be obtained from the Minnesota Department of Human Rights before the grant contract agreement can be fully executed.

By signing this form, the applicant acknowledges and affirms compliance with all applicable requirements in the RFP, by the U.S. Department of Energy and the State of Minnesota, in their proposal, and as indicated above.
