To whom it may concern,
I intend to comment on the lessening of points attributed to felons in custody or on probation.
At a time when violent crime is rampant in the metro area..with many of the criminals being repeat offenders I find this suggestion too "lower the bar" disgusting and definitely not in the best interests of the tax paying residents who tend to be the innocent victims of these crimes.

Re: Keep All Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Dan Haley

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Cheryl Brown

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Jessica Benson

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Katahryn Leukuma

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Mark Grimme

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
kari abbott

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Mary Hauser

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Nancy Lovestrand

In a time when police numbers have been reduced, existing police must respond to daily calls and search again for the criminals they have already found, essentially forcing police to search twice for the same people. This is inefficient and unsustainable for police and for Minnesota's taxpayers and residents, and irresponsible on the part of lawmakers who enacted this folly.

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Lynn Blair

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Janell Wuollet

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Marc DeVarennes

To Whom It May Concern:

I wish to strongly voice my deep concerns for the proposed guidelines to reduce sentences for repeat criminals.

I am vehemently opposed to any consideration to let repeat criminals off the hook. Our state has never seen such an increase in crime as we are seeing now and this is NOT the time to give any criminal a pass.

A crime is a crime no matter when it happens. It does not matter whether the person was in custody, on probation or supervised released, the bottom line is, A CRIME IS A CRIME and they should be held accountable for their actions.

I and other citizens of Minnesota are appalled by the apparent turning a blind eye to the recent uptick in crimes. Please do NOT allow a further degradation to our quality of life and a direct assault on law abiding citizens right to feel safe in their own homes and cities.

Sincerely,

Elizabeth Olson

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Jeanne Cafourek

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Connie Overlie

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous. I'm a felon and I think it would be a bad idea to e lol eliminate this. I really wish you would make stronger sentences. I personally know criminals who are laughing at the guidelines as they stand because they know they can come to Minnesota and get the lightest sentences any where in the country. Please do something to protect the people in this state. Thanks Nick Kraskey

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Timothy Bass

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
barbara dorset

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Kim lundquist

We are both opposed to the lenient sentencing of criminals in our state of Minnesota! Crime is increasing under Democrat leadership. Why do the Democrats think lenient sentencing is a good idea?

Minnesota has become not only a haven for criminals but also leans heavily towards Socialism!

Democrats are power hungry but power grabs are not winning them any fans.

I pray the Democrats realize their evil ways and will go back to giving more control to the people with common sense!

Mr. and Mrs. Donald Talbot

To the commission,

I do not support any reduction in sentencing guidelines in MN. If anything, guidelines should be increased. One only needs to review the story of America Thayer brutally beheaded in Shakopee this past July. She among many innocent Minnesotans have just as much of a right to a safe and secure MN.
Enforce the laws as written and as designed.

Eric Jokinen

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Christina Huson

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Richard Hansen

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Richard Johnson

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders. Doing something like this in normal times is ludicrous, but doing it now during the crime wave the state is enduring is criminal. If this passes are you willing to take responsibility for the crimes that are committed by those freed by these new guidelines? You will be responsible.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Janet Flagg

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Sherry Nelson

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
John Gillard

MN SECOND CHANCE COALITION

RE: Written testimony to MN Sentencing Guidelines Commission

December 15, 2021

The Minnesota Second Chance Coalition is a statewide organization with hundreds of grassroots members, including incarceration survivors, survivors of violence, their loved ones, and system professionals. We advocate for a dignified criminal legal system that promotes healing, repair, accountability, and belonging for individuals, families, and communities.

We write today in support of removing any custody status "points" from a person's criminal history score which serve to increase the sentencing guidelines range that would apply to that person upon a conviction. The current policy of increasing punishment liability for people based solely on whether they are already under correctional control at the time of the behavior is overly punitive and in opposition to safety.

The custody status points are overly punitive. First, someone who is harmed by an offense suffers either way - they are not *more* harmed because the responsible party was on probation or under other control. Therefore, it is overly punitive to make a responsible party subject to *more* punishment liability. Additionally, a person's current correctional control status has nothing to do with their history, only their present. Next, if someone makes a mistake while under correctional supervision, we see this to be as much a failure of the system to advance rehabilitation as a failure of an individual who made a mistake. It makes no sense to double down on a system that didn't work in pursuit of something that might. Finally, information from the MN Sentencing Guidelines Commission shows that the majority of people impacted by the use of custody status points are convicted for lower level drug and property crimes.[1] We do not believe people who commit low-level offenses should be more harshly punished. This data also bolsters our belief that an offense while under correctional control points to a system failure. In practice, these custody status points accrue to people who appear to be both under correctional control and still struggling with addiction or to meet their economic needs – issues that corrections systems should be addressing.

The custody status point is in opposition to safety. Research proves what the community knows: we cannot cage our way to safety. There is *universal* research consensus that, in comparison to noncustodial

[1] Minnesota Sentencing Guidelines Commission presentation. 11 Nov 2021. Available online at: https://www.youtube.com/watch?v=1P0q3Bigycw

sanctions, caging either does nothing to reduce reoffending or *increases* the risk that someone will reoffend.[2] More jail or prison means less safety than the alternatives. This means that any mechanism that increases jail or prison time is one that decreases safety. The custody status point scheme is one such mechanism. To increase safety, custody status points should be removed.

Thank you for your time, and your work to improve justice for all Minnesotans.

WRITTEN TESTIMONY

December 15, 2021

Nathaniel J. Reitz
Executive Director
Minnesota Sentencing Commission
658 Cedar Street, Suite G-58
St. Paul, MN 55155

Dear Mr. Reitz and Commission Members:

We write to express our strong support for the proposed policy change to the Minnesota Sentencing Commission Guidelines to eliminate custody status from the criminal history score. As professors at the University of Minnesota whose expertise is in the criminal justice system, we see this proposal as an important first step in reducing racial disparities and overly punitive sentencing in Minnesota.

The proposed policy change would remove custody status from the criminal history score calculation, instead relying on the remaining three factors: prior felony convictions; prior misdemeanor and gross misdemeanor convictions, and prior juvenile adjudication. As is clear from this description, criminal history would still play an important role in sentencing. But under the new change, whether or not a person was on probation, parole, supervised release, conditional release, or currently serving a sentence in jail or prison would not independently influence the criminal history total.

The proposed change would stop the unfair practice of doubly punishing people for their records--first through conviction and second through custody status. Custody status is not a meaningful measure of criminal history and there is no research to date that suggests custody status itself is a meaningful predictor of recidivism.[1] By punishing twice for previous convictions, current rules exacerbate racial and economic disparities in police stops and convictions, especially for lower-level misdemeanor offenses. As a state with some of the highest Black-white racial disparities in incarceration, this is a critical priority.

Second, by reducing criminal history scores among people in custody, the state can reduce the number of people sent to prison and the months they are sentenced to serve. An overwhelming body of research demonstrates that high rates of incarceration in the U.S. do more harm than good, burdening already vulnerable communities by cycling adults in and out of prison. A prison sentence comes with a tremendous set of consequences, including strained family relationships and more tenuous connections to employment and housing, all of which can increase crime.[2] Thus, by reducing the number of people sent to prison we can strengthen public safety.

In short, the proposed change represents a substantial positive step forward. The change will reduce imprisonment and racial disparities, bringing both safety and justice to Minnesota.

Respectfully,

Michelle S. Phelps, Associate Professor of Sociology and Law, University of Minnesota

Joshua Page, Associate Professor of Sociology and Law, University of Minnesota

Joe Soss, Cowles Professor for the Study of Public Service, Humphrey School of Public Affairs, University of Minnesota

Michael L. Walker, Beverly and Richard Fink Professor in Liberal Arts and Assistant Professor of Sociology, University of Minnesota

Joachim J. Savelsberg, Professor of Sociology and Law, Arsham and Charlotte Ohanessian Chair, University of Minnesota

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Joseph Lampe

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
James Melcher

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Kathie Pedersen

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Elizabeth Bolton

I am a citizen of the United States and have lived in the state of Minnesota all of my life. I cannot believe that reducing sentences for repeat criminals is even being considered. This idea is absurd. These criminals need to be locked up and should be made to pay for their crimes. The more crime they commit the longer they are separated out from society and the more severe the penalties. They keep committing crimes because the punishment isn't hard enough. It should be so hard that the criminals will think hard and long about doing the crimes again. To lower sentences for repeat offenders will only increase crimes. We need to protect law abiding citizens!!! Not protect criminals!!! When someone breaks the law they loose their rights as citizens. It doesn't mean that they loose their rights to be treated humanely but they loose their rights to freedom. They pay the price. I have had to work all my life for everything I have. It's not easy. But no one is guaranteed an easy life. I get up every day and work a job I hate, so I can pay my bills and have a place to live. I obey the laws. I know what the consequences are, as an adult and even as a juvenile I have been given the rules and know right from wrong. Why should someone who does not want to follow the rules and breaks them continuously not have consequences for it? Consequences that increase for them repeatedly breaking the law. This government has so many free handouts for people that there is really no reason for people to break laws continually in order to live. If they want more than just to survive then they need to get up and go to work, earn those things, not commit crimes to get them!!! I pay taxes and obey laws and I want to be protected and I want my voice heard, I should have more say as to how my tax dollars are being spent then those who break laws and don't follow rules. We need rules to live together and work together.

To Who It May Concern:

It has come to my attention that a proposal to reduce sentences for offenders who are on felony probation or parole when they commit a new felony is being proposed at the December 2021 meeting.

We are strongly against this policy change, as it is impossible to believe that a repeat offender doesn't understand their actions have consequences and that those consequences should increase based on their chosen actions. We can only imagine how frustrating this must be for our police force to arrest offenders over and over again, as the sentencing isn t making enough of an impact to deter them from committing additional felonies.

I implore you not to reduce the current sentencing guidelines in this situation. Thank you for your consideration.

Sincerely
Alisa Farland

In regards to the hearing tomorrow, it is appalling that lighter sentencing for felons is even being considered. The current rules of the law should stand "as is". Our state has so much crime going on right now with car jackings, smash-and-grab crimes, domestic abuse, pedophilia, etc., with the ciminals only getting a slap on the wrist. Now with the open borders we have people and drugs coming across crossing the border at an unbelievable high rate and things are only going to get worse. We are losing our once "safe cities" to crime because there is already too light of punishment and it's disgusting. It's very sad that we now have to fear for our safety just going to the grocery store. For those consdering making the sentencing lighter, will it take someone in their family to be affected by these criminals to open their eyes?

Thank you for giving me the opportunity to voice my concern.

Dear Kelly Lyn Mitchell,

I urge you to support the elimination of custody status from the criminal history score. For too long our criminal justice system has been driven by policies that are overly punitive and do nothing to actually protect public safety. This has resulted in prisons that are disproportionately filled with Black, Indigenous and Hispanic people. Overly punitive policies harm not only those who have committed offenses, but their families and communities.

Prior offenses are already calculated in the criminal history score. There is no valid purpose to add extra points for their current custody status. Research shows that custody status is not a significant predictor of recidivism. Minnesota needs to move beyond its shameful status of having the worst racial disparities in the nation, and this is an important step in the right direction. Please support this important reform.

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Jade Ostman

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
GRETCHEN PAULSON

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Bruce Daniel

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Tom Thurstin

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
John Marden

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Randy Penrod

To whom it may concern:

It has come to my attention according to the Pioneer Press, "judges would no longer be able to take into consideration whether the offender committed the crime while in custody, on probation or on supervised release." This would make very bad policy! When a 'wrong-doer' engages in yet ANOTHER wrong doing while still involved in resolution of a previous wrong doing how does that behavior justify consideration of leniency? The FACT that the individual gave no indication that they were remorseful or had learned acceptable behavior why would one reward them by 'pretending' the violation of the first offense has no baring? Please stop this proposed line of irrational justification.

Thank you for your attention,

G.L. Selseth

Dear Kelly Lyn Mitchell,

I urge you to support the elimination of custody status from the criminal history score. I feel that we should take whatever steps we can to reform our criminal justice system, which has resulted in prisons that are disproportionately filled with Black, Indigenous and Hispanic people. Overly punitive policies harm not only those who have committed offenses, but their families and communities as well. For too long our criminal justice system has been driven by policies that are overly punitive and do nothing to actually protect public safety.

Prior offenses are already calculated in the criminal history score. There is no valid purpose to add extra points for their current custody status. Research shows that custody status is not a significant predictor of recidivism. Minnesota needs to move beyond its shameful status of having the worst racial disparities in the nation, and this is an important step in the right direction. Please support this important reform.

Looking through this issue as a person of faith, among the ways in which I measure the morality, justness and validity of a law is by whether the law has equal or disparate impact, was enacted or voted on by those impacted by the law, or whether the law uplifts or oppresses. Custody Status Points thoroughly fail in these areas, and I urge you to eliminate it.

Dear Kelly Lyn Mitchell,

I have spent some time working with the sentencing guidelines and understand the history of it being an attempt to make sentencing more fair. But, as the Minnesota Supreme Court Racial Bias Task Force Report stated way back in the 90s there is cumulative effect at work I the justice system. This issue is a good example of that. More people of color get stopped, and more people of color are arrested, and more people of color are refused bail, etc. so you have more people of color who receive the "custody points." It seems clear that this doesn't add to public safety, and it perpetuates unfairness. The MSGC folks take their work seriously and are the obvious experts on this. I urge you to do what you can to eliminate the custody status from the criminal history score and follow the advice of the experts.

Dear Kelly Lyn Mitchell,

I urge you to support the elimination of custody status from the criminal history score. For too long our criminal justice system has been driven by policies that are overly punitive and do nothing to actually protect public safety. This has resulted in prisons that are disproportionately filled with Black, Indigenous and Hispanic people. Overly punitive policies harm not only those who have committed offenses, but their families and communities.

Prior offenses are already calculated in the criminal history score. There is no valid purpose to add extra points for their current custody status. Research shows that custody status is not a significant predictor of recidivism. Minnesota needs to move beyond its status of having the worst racial disparities in the nation, and this is an important step in the right direction. Please support this important reform.

Sincerely,
Barbara Swan
Saint Paul, MN 55123

Dear Kelly Lyn Mitchell,

I urge you to support the elimination of custody status from the criminal history score. For many years our criminal justice system has been driven by policies that are unjustly punitive and do nothing to really protect public safety. These policies have resulted in prisons that are disproportionately filled with Black, Indigenous and Hispanic people. Overly punitive policies harm not only those who have committed offenses, but their families and communities as well.

This matter is urgent because prior offenses are already calculated in the criminal history score. There is no valid purpose in adding extra points for their current custody status. In fact, solid research shows that custody status is not a significant predictor of recidivism.

Minnesota needs to move beyond its shameful status of having the worst racial disparities in the nation, and this is an important step in the right direction. Please support this important reform.

Sincerely,
Michael Burwell

Dear Kelly Lyn Mitchell,

Thank you for your service to our state through the work of the MSGC. I urge you to support the elimination of custody status from the criminal history score. For too long our criminal justice system has been driven by policies that are overly punitive and do nothing to actually protect public safety. This has resulted in prisons that are disproportionately filled with Black, Indigenous and Hispanic people. Overly punitive policies harm not only those who have committed offenses, but their families and communities.

As a retired chaplain in corrections (Hennepin Country Juvenile Detention Center), I can attest to the disproportionate numbers of Black, Indigenous, immigrant, and Hispanic people in our county facilities. Reform of our criminal justice system, to address the worst racial disparities in the nation, takes place step by step, policy by policy, guideline by guideline. There are many steps to take in this reform; eliminating custody status from the criminal history score is one important step.

Prior offenses are already calculated in the criminal history score. There is no valid purpose to add extra points for their current custody status. Research shows that custody status is not a significant predictor of recidivism. Minnesota needs to move beyond its shameful status of having the worst racial disparities in the nation, and this is an important step in the right direction. Please support this important reform.

Sincerely,
Paula Nordhem

If a great deal of the monies spent keeping non-violent offenders in jail or prison or back in jail or prison were spent instead at the time of the initial imprisonment in counseling and therapeutic practices designed to help them as individuals get to the root of their problem you would find fewer back in "your" custody.

Sincerely,

Dear Kelly Lyn Mitchell,

I urge you to support the elimination of custody status from the criminal history score. For too long our criminal justice system has been driven by policies that are overly punitive and do nothing to actually protect public safety. This has resulted in prisons that are disproportionately filled with Black, Indigenous and Hispanic people. Overly punitive policies harm not only those who have committed offenses, but their families and communities.

Prior offenses are already calculated in the criminal history score. There is no valid purpose to add extra points for their current custody status. Research shows that custody status is not a significant predictor of recidivism. Minnesota needs to move beyond its shameful status of having the worst racial disparities in the nation, and this is an important step in the right direction. Please support this important reform.

Sincerely,
barb prindle
Minneapolis, MN 55422

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Jean Schulz

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Carole Lewis

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Margaret Smith

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Connie Hergenrader

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
David abrahamson

Dear Kelly Lyn Mitchell,

I carry a strong belief that we should removing towards a system that is oriented around redemption and restoration rather than punishment. Yet, for too long our criminal justice system has been driven by policies that are overly punitive and do nothing to actually protect public safety. This has resulted in prisons that are disproportionately filled with Black, Indigenous and Hispanic people. Overly punitive policies harm not only those who have committed offenses, but their families and communities.

I urge you to support the elimination of custody status from the criminal history score. Prior offenses are already calculated in the criminal history score. There is no valid purpose to add extra points for their current custody status. Research shows that custody status is not a significant predictor of recidivism. Minnesota needs to move beyond its shameful status of having the worst racial disparities in the nation, and this is an important step in the right direction. Please support this important reform.

Sincerely,
Vivian Ihekoronye

Dear Kelly Lyn Mitchell,

I am a law-abiding Minnesotan from Northfield.

I ask that you support elimination of current custody status from the criminal history score. This appears to me to constitute double jeopardy for those in some kind of current custody. This proposed elimination would add a measure of fairness to those currently in custody, since previous offenses are already figured in to the criminal history score . In addition, research shows that custody status is not a significant predictor of recidivism. Consequently I can find no reasonable justification for this enhancement of the score.

Since a disproportionate numbers in custody are people of color, the enhancement of criminal history score would most affect members of minority groups, who already suffer many disadvantages in our state. This is a step in the wrong direction!

Therefore, please support removing current custody status to the criminal history score.

Thank you.

Sincerely,
Joel Weisberg

Dear Kelly Lyn Mitchell,

I urge you to support the elimination of custody status from the criminal history score. It is my understanding from federal department of justice research that longer prison sentences are not an effective deterrent to crime. Unnecessarily long prison sentences cost tax payer money and make it harder for a person to rehabilitate themselves when they get out of prison. Public information as reported by the press also shows that people of color are disproportionately sentenced to longer prison terms for the same offence. Policies that are overly punitive do nothing to uphold public safety and harm the families and communities of people convicted of crime.

Please support the elimination of custody status from the criminal history score to make our criminal sentencing system more just and effective.

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Imagine if the victims happen to be your wife, children, parents any of your loved ones. Would you allow the crimes happen to them?

Sincerely,
Brian Mei

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Tammy Hilstrom

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

The fact this is even under consideration is lunacy at it finest. Loosening punitive actions on criminals sends the absolute wrong message, and encourages and rewards crime.

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Laura Cady

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
DeAnne Robertson

Re: Keep Minnesotans Safe - Opposition to Eliminate Custody Status Points for Felony Sentences

Dear Minnesota Sentencing Guidelines Commission,

Dear Sentencing Guidelines Commission:

I write to oppose the proposal to eliminate custody status points from consideration for felony sentences. This change will lower sentences across the board for convicted felons, especially sex offenders.

As the state deals with an unprecedented crime wave, the last thing we should be doing is letting violent offenders out of prison earlier. This proposal is contrary to the core mission of the Sentencing Guidelines Commission, protecting public safety.

The fact that someone is on probation or parole (or even escaped) when they commit another crime certainly should factor into their sentence. It's only common sense. Please reject this one-size-fits-all solution that will make our state more dangerous.

Sincerely,
Gail Linsk
