

# Weekly Construction Update

Jan 5 - 9, 2014

## Minnesota State Capitol Restoration Project

Architectural Integrity. Building  
Functionality. Life Safety.

## Welcome to 2015 Session!

Ambassadors will be present at the beginning of session to help visitors navigate through the building.

### What to expect inside the Capitol building

- Although the House and Senate chambers are open, two-thirds of the building is within a closed construction zone including the Rotunda, East Wing, Great Hall (and most restrooms).
- Large public access floor maps are on every floor to help direct people throughout the building.
- Expect longer lead times to your destination as elevators and corridors will be more congested.
- There will be construction workers and machinery nearby, and noise and vibration coming from behind temporary walls.

- All public rallies on the Capitol Complex grounds will be held outside.
