**STATE OF MINNESOTA  
AFFIDAVIT OF NONCOLLUSION**

I swear (or affirm) under the penalty of perjury:

1. That I am the Responder (if the Responder is an individual), a partner in the company (if the Responder is a partnership), or an officer or employee of the responding corporation having authority to sign on its behalf (if the Responder is a corporation);
2. That the attached proposal submitted in response to the Testing & Inspection Request for Proposals has been arrived at by the Responder independently and has been submitted without collusion with and without any agreement, understanding or planned common course of action with, any other Responder of materials, supplies, equipment or services described in the Request for Proposal, designed to limit fair and open competition;
3. That the contents of the proposal have not been communicated by the Responder or its employees or agents to any person not an employee or agent of the Responder and will not be communicated to any such persons prior to the official opening of the proposals; and
4. That I am fully informed regarding the accuracy of the statements made in this affidavit.

Date: 11/25/09

Subscribed and sworn to me this 25 day of November

Notary Public Mary M. Krieps

My commission expires: 12-11-11

## State Of Minnesota – Affirmative Action Certification

If your response to this solicitation is or could be in excess of \$100,000, complete the information requested below to determine whether you are subject to the Minnesota Human Rights Act (Minnesota Statutes 363A.36) certification requirement, and to provide documentation of compliance if necessary. **It is your sole responsibility to provide this information and—if required—to apply for Human Rights certification prior to the due date and time of the bid or proposal and to obtain Human Rights certification prior to the execution of the contract. The State of Minnesota is under no obligation to delay proceeding with a contract until a company receives Human Rights certification.**

**BOX A – For companies which have employed more than 40 full-time employees within Minnesota on any single working day during the previous 12 months. All other companies proceed to **BOX B**.**

Your response will be rejected unless your business:

has a current Certificate of Compliance issued by the Minnesota Department of Human Rights (MDHR)  
—or—

has submitted an affirmative action plan to the MDHR, which the Department received prior to the date and time the responses are due.

Check one of the following statements if you have employed more than 40 full-time employees in Minnesota on any single working day during the previous 12 months:

- We have a current Certificate of Compliance issued by the MDHR. **Proceed to **BOX C**. Include a copy of your certificate with your response.**
- We do not have a current Certificate of Compliance. However, we submitted an Affirmative Action Plan to the MDHR for approval, which the Department received on \_\_\_\_\_ (date). [If the date is the same as the response due date, indicate the time your plan was received: \_\_\_\_\_ (time). **Proceed to **BOX C**.**
- We do not have a Certificate of Compliance, nor has the MDHR received an Affirmative Action Plan from our company. **We acknowledge that our response will be rejected. Proceed to **BOX C**. Contact the Minnesota Department of Human Rights for assistance.** (See below for contact information.)

**Please note:** Certificates of Compliance must be issued by the Minnesota Department of Human Rights. Affirmative Action Plans approved by the Federal government, a county, or a municipality must still be received, reviewed, and approved by the Minnesota Department of Human Rights before a certificate can be issued.

**BOX B – For those companies not described in **BOX A****

Check below.

- We have not employed more than 40 full-time employees on any single working day in Minnesota within the previous 12 months. **Proceed to **BOX C**.**

**BOX C – For all companies**

By signing this statement, you certify that the information provided is accurate and that you are authorized to sign on behalf of the responder. You also certify that you are in compliance with federal affirmative action requirements that may apply to your company. (These requirements are generally triggered only by participating as a prime or subcontractor on federal projects or contracts. Contractors are alerted to these requirements by the federal government.)

**STATE OF MINNESOTA  
LOCATION OF SERVICE DISCLOSURE AND CERTIFICATION**

**LOCATION OF SERVICE DISCLOSURE**

Check all that apply:

- The services to be performed under the anticipated contract as specified in our proposal will be performed ENTIRELY within the State of Minnesota.
- The services to be performed under the anticipated contract as specified in our proposal entail work ENTIRELY within another state within the United States.
- The services to be performed under the anticipated contract as specified in our proposal will be performed in part within Minnesota and in part within another state within the United States.
- The services to be performed under the anticipated contract as specified in our proposal DO involve work outside the United States. Below (or attached) is a description of
  - (1) the identity of the company (identify if subcontractor) performing services outside the United States;
  - (2) the location where services under the contract will be performed; and
  - (3) the percentage of work (in dollars) as compared to the whole that will be conducted in each identified foreign location.

**CERTIFICATION**

By signing this statement, I certify that the information provided above is accurate and that the location where services have been indicated to be performed will not change during the course of the contract without prior, written approval from the State of Minnesota.

## State of Minnesota — Immigration Status Certification

By order of the Governor's Executive Order 08-01, vendors and subcontractors MUST certify compliance with the Immigration Reform and Control Act of 1986 (8 U.S.C. 1101 et seq.) and certify use of the *E-Verify* system established by the Department of Homeland Security.

*E-Verify* program information can be found at <http://www.dhs.gov/ximqtn/programs>.

If any response to a solicitation is or could be in excess of \$50,000, vendors and subcontractors must certify compliance with items 1 and 2 below. In addition, prior to the delivery of the product or initiation of services, vendors MUST obtain this certification from all subcontractors who will participate in the performance of the contract. All subcontractor certifications must be kept on file with the contract vendor and made available to the state upon request.

1. The company shown below is in compliance with the Immigration Reform and Control Act of 1986 in relation to all employees performing work in the United States and does not knowingly employ persons in violation of the United States immigration laws. The company shown below will obtain this certification from all subcontractors who will participate in the performance of this contract and maintain subcontractor certifications for inspection by the state if such inspection is requested; and

2. By the date of the delivery of the product and/or performance of services, the company shown below will have implemented or will be in the process of implementing the *E-Verify* program for all newly hired employees in the United States who will perform work on behalf of the State of Minnesota.

**I certify that the company shown below is in compliance with items 1 and 2 above and that I am authorized to sign on its behalf.**

Authorized Signature: Chris Wiberg

Telephone Number: 715-392-7114

Printed Name: Chris Wiberg

Title: COO

If the contract vendor and/or the subcontractors are not in compliance with the Immigration Reform and Control Act, or knowingly employ persons in violation of the United States immigration laws, or have not begun or implemented the *E-Verify* program for all newly hired employees in support of the contract, the state reserves the right to determine what action it may take. This action could include, but would not be limited to cancellation of the contract, and/or suspending or debaring the contract vendor from state purchasing.

**For assistance with the *E-Verify* Program**

Contact the National Customer Service Center (NCSC) at 1-800-375-5283 (TTY 1-800-767-1833).

**CERTIFICATION REGARDING LOBBYING**  
For State of Minnesota Contracts and Grants over \$100,000

The undersigned certifies, to the best of his or her knowledge and belief that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, A Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, Disclosure Form to Report Lobbying in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. 1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

# CONSTRUCTION TESTING AND INSPECTION SERVICES RFP- EXHIBIT A

Name of Firm Twin Ports Testing, Inc. Proposal  
Dated November 23-2009

Responder shall indicate the categories of tests and inspections for which the firm is qualified:

## Geotechnical Services

- Pre-construction Soil Exploration and Testing
- Percolation Tests, Recommendations for Septic Systems
- Foundation and Pavement Design Recommendations
- Observation and Testing of Existing Soils during Excavation and Grading
- Laboratory Testing of Proposed Fill Material
- Observation and Testing of Fill and Backfill for Moisture, Compaction
- Other ROCK CORING, Deep & Intermediate FOUNDATION MONITORING

## Concrete Testing and Inspection Services

- Concrete, Grout Mix Design
- Observe and Document Formwork Construction
- Observe and Document Placement of Reinforcing Steel
- Slump, Temperature, and Air Entrainment Tests of Fresh Concrete
- Cast, Cure and Test Concrete Cylinders for Compressive Strength
- Other ASTM C 803, 805, 42, 78

## Masonry Testing and Inspection Services

- Mortar, Masonry Fill Mix Design
- Laboratory Tests on Masonry Prisms
- Laboratory Test of Mortar and Core-fill for Compressive Strength and Bond Strength
- Special Inspection of Structural Masonry Construction (Continuous X / Periodic X)
- Other \_\_\_\_\_

## Structural Steel Testing and Inspection

- Strength Testing of Embedded Bolts
- Observe and Test Welded and Bolted Connections during Structural Steel and Precast Concrete Erection
- Observe and Test Welding and Screw Fastening during Metal Deck Installation
- Other \_\_\_\_\_

## Pavement Testing and Inspection

- Observe and Test Rolling Operations on Subgrade Soils
- Field and Laboratory Tests on Aggregate Base
- Field and Laboratory Tests during Bituminous Paving (Continuous X / Periodic X)
- Other \_\_\_\_\_

**Fireproofing / Firestopping Testing and Inspection**

- Test Installed Spray-on Fireproofing for Thickness, Density, Adhesion
- Observe and Document Installation of Fire-Resistive Joint Systems
- Other \_\_\_\_\_

**Phase I Archaeological Resources Investigation**

- Determine whether cultural resources are present within the project area, and whether these resources are potentially eligible for the National Register of Historic Places (NRHP).
- All field methods and reporting of the Phase I Archaeological Resources Investigation will comply with the Minnesota State Historic Preservation Office guidelines as well as federal guidelines, and will meet the requirements of the Secretary of the Interior's Standards.
- If an archaeological site is found, wash, analyze, and catalogue all recovered artifacts. Laboratory and curation procedures will follow appropriate standard guidelines
- Curate the artifacts at the Minnesota Historical Society under Contractor's curation agreement. Contractor's lab director will ensure that the cataloging and curation meet the requirements of Minnesota's repository guidelines.
- Other \_\_\_\_\_

**Phase II Archaeological Resources Investigation**

- Excavate and document designated features in accordance with Minnesota State Historic Preservation Office guidelines as well as federal guidelines, and will meet the requirements of the Secretary of the Interior's Standards.
- Record excavation data on standardized forms and in the log book of the principal investigator including location and methods of testing; the numbers, types, and locations of recovered cultural materials; the depth and thickness of excavated soil layers; soil textures and inclusions; and soil color according to Munsell color charts.
- Take up to 5 radiocarbon samples if suitable materials are encountered and complete standard radiometric analysis.
- Clean, catalogue, label and bag all recovered artifacts in accordance with professional standards and submit recovered materials to the Minnesota Historical Society for curation.
- Other \_\_\_\_\_

**Phase I Environmental Investigation**

- Complete a Phase I Environmental Site Assessment in a manner consistent with the American Society of Testing and Materials standard for a Phase I ESA and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance Document #8.
- Conduct a visual (existing structures) assessment for typical suspect asbestos containing materials (ACM).
- Assess the presence of PCBs at the subject site.
- Collect and evaluate available historical information to determine if evidence exists indicating an existing release, a past release, or a material threat of a release of hazardous substances, hazardous materials or petroleum products to the Property.
- Other \_\_\_\_\_

**Phase II Environmental Investigation**

- Prepare a workplan the Phase II Investigation in a manner consistent with the American Society of Testing and Materials standard for a Phase I ESA and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance Document #11 to determine if potential sources of contamination identified during the

Phase I Investigation are causing a release or threatened release of hazardous substances, contaminants or pollutants to the soil, surface water and ground water on the property in question.

- Prepare a site safety and contingency plan in a manner consistent with the American Society of Testing and Materials standard for a Phase I ESA and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance Document #10.
- Conduct Phase II Environmental Investigation in accordance with approved work plan and in a manner consistent with the American Society of Testing and Materials standard for a Phase I ESA and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance Documents.

Other \_\_\_\_\_

**Remediation Services**

- Prepare and, upon approval, implement the Response Action Plan (RAP) and in a manner consistent with the American Society of Testing and Materials standard for a Phase I ESA and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance Documents.
- Following completion of the RAP, prepare an Implementation Report for submission to the MPCA for review and approval in a manner consistent with the American Society of Testing and Materials standard for a Phase I ESA and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance Documents.
- Other \_\_\_\_\_

Comments:

## Typical Projects List

Project Title: United States Customs and Border Patrol Complex

Dates: July 2008 to August 2009

Client: Archway Development LLC

6161 E. Syracuse way, Suite 330

Greenwood Village, CO. 80111

Mr. Mark Aukamp, owner

303-721-9400

Scope of service: Twin Ports Testing, Inc. provided geotechnical drilling and geotechnical engineering evaluation report as it pertained to three (3) building foundations and the design of parking lots and access roads.

At the start of construction TPT provided special inspections related to excavation observations, laboratory testing of soils, density testing of engineered fill, concrete reinforcement inspection, plastic and hardened concrete testing and related inspections, periodic masonry inspections including but not limited to reinforcement, mortar, corefill, prism testing and general inspection, bituminous testing of mix properties and density, structural steel inspection of welds and shear bolt connections.

Project Title: Black Bear Hotel and Casino

Dates: February 2006 to July 2008

Client: Fond Du Lac Reservation

1720 Big Lake Road

Cloquet, Minnesota 55720

Mr. Mike Murray, Construction Projects Manager

218-878-2423 phone

218-878-2687 fax

Scope of service: Twin Ports Testing, Inc. provided geotechnical drilling and geotechnical engineering evaluation reports as it pertained to the construction of a 4 story precast parking structure on caissons, 12 story curtain wall and post tension floor slab hotel, conference hall on spread footings, and gaming hall with similar foundation. TPT also provided geotechnical services for the relocation of site utility construction.

During construction services were provided as pertains to caisson inspection, soils corrections for spread footing areas, tilt-up (pre-cast) construction monitoring/documenting, reinforcement inspection, cast in place plastic and hardened concrete testing of footings, caissons, post-tension testing of single strand PT cables for location and elongation calculations. Periodic inspection of masonry construction consisting of, reinforcement, mortar, corefill, and prisms. Structural steel inspections were performed on bolted connections, welder qualifications and welds for super structure, elevated decking and precast connections. Documentation of built-up roofing construction and spray applied fireproofing for thickness, density and adhesion/cohesion. Parking lots and access roads had aggregate base testing (proof roll) and density tests along with bituminous mix properties and density.

Project Title: University of Minnesota – Duluth  
Malosky Stadium Press Box

Dates: May 2008 to September 2008

Client: University of Minnesota – Duluth

UMD Facilities Management-Construction Administration  
241 DAdB  
1049 University Drive  
Duluth, Minnesota 55812  
Mr. Greg Ewald, Construction Manager  
218-726-8274 phone  
218-726-6231 fax

Scope of service: Twin Ports Testing, Inc. provided geotechnical drilling and a geotechnical engineering evaluation report as it pertained to the construction of a four story press box addition on the existing home field bleacher seating. The project soils were problematic and required a composite foundation system which included an intermediate (GeoPier®) foundation, helical pile and conventional spread footings. Construction special inspection consisted of monitoring the installation of the intermediate (GeoPier®) and helical foundation systems, excavation observation, testing of the engineered fill soils, reinforcement inspection, plastic and hardened concrete testing, Precast construction observation and documentation, masonry testing and inspection of mortar, corefill, and prisms. Structural welding, bolt testing and inspection were also performed. Bituminous tests were performed with regards to mix properties and density.

Project Title: St. Louis County Highway Maintenance Facility

Dates: May 2009 to October 2009

Client: St. Louis County

Property Management  
100 North 5<sup>th</sup> Avenue West #2  
Duluth, Minnesota 55802  
Mr. Tony Mancuso, Facilities Manager  
218-725-5085 phone  
218-725-5086 fax

Scope of service: Construction materials testing for the demolition of an existing tool house and reconstruction on the same foot print. After demolition the existing soils were mass excavated to approximately 10 feet below grade and engineered fill was imported and placed. Laboratory soils tests were performed on the proposed fill materials and subsequent field densities were taken as the site was filled. Concrete reinforcement was inspected as per the contract documents for size, placement, splice lengths, proper clearances etc. The cast in place footings and column pads were tested as per the contract documents. The typical plastic tests were air entrainment, consistency (slump), temperature, and casting of cylinders. The hardened tests were concrete cylinder compressive strength tests. Masonry testing consisted of mortar, corefill, and general

compliance with installation of reinforcing steel at lintel areas, embedments for window and door frames etc. The exterior walls were comprised of precast concrete tilt-up panels and the observations of those panels were noted along with the grout placed in the keyways. The roof joist, and metal decking welds were inspected along with the precast plate welds. There were a small amount of structural steel columns that were also observed. There were no bituminous driveways or parking lots, these areas consisted of aggregate base.

Project Title: Wisconsin National Guard  
Motor Vehicle Storage Building  
Dates: May 2009 to October 2009  
Client: Wisconsin Department of Administration  
Division of State Facilities  
718 West Clairemont Avenue Room 150  
Eau Claire, Wisconsin 54701  
Mr. Fred Kawell, Project Manager  
715-577-7871 phone

Scope of service: Construction materials testing of a 5 bay motor vehicle storage facility. Excavation observation of footing bearing soils along with laboratory and field density testing of engineered fill. The building consisted of a frost spread footing foundation with cast in place foundation walls and a brick veneer structural masonry building. Masonry inspection/testing consisted of mortar testing, corefill high and low lift operations, reinforcement placement verticals and lintel along with cleanout inspection. Plastic and hardened concrete testing of footings, special heavy floor slab construction with a special bay where dry iron shake was used to enhanced slab wear. Roof joists and roof decking was inspected for welds and bolted embedment's within the structural masonry walls. Proof rolling of the apron area was observed prior to the concrete paving apron at the front of the building.

## Typical Projects List: Phase I Environmental Investigation

Project Title: Phase I Environmental Investigation

Dates: June 2009

Client: New Perspective Senior Living

5449 Scenic Drive

West Bend, WI 53905

Mr. Nicholas Novaczyk 952-241-8225

Scope of Service: Twin Ports Testing, Inc. completed a Phase I Environmental Investigation in a manner consistent with the American Society of Testing and Materials standard for a Phase I ESA and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance. The investigation was conducted for an undeveloped 7.6 acre parcel of property located in the City of Superior, WI that bordered an active railroad right-of-way. The investigation included performing a site visit, researching current and historical documents, regulatory records, aerial photographs, and collecting data from current and past property owners. This information was used to determine if evidence exists indicating a current or historical release of hazardous material that may impact the property.

Project Title: Phase I Environmental Investigation

Dates: December 2008

Client: Lakehead Outdoor Advertising, Inc.

910 Hammond Avenue

Superior, WI 54880

Mr. Mark Vieau 715-394-5799

Scope of Service: Twin Ports Testing, Inc. completed a Phase I Environmental Investigation in a manner consistent with the American Society of Testing and Materials standard for a Phase I ESA and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance. The investigation was conducted for a developed 1.3 acre parcel of property located in the City of Superior, WI that bordered an active railroad right-of-way and formerly contained a petroleum underground storage tank. The investigation included performing a site visit, researching current and historical documents, regulatory records, aerial photographs, and collecting data from current and past property owners. The buildings on the property were visually assessed for the presence of typical asbestos containing materials and the property was assessed for the possible presence of PCBs. This information was used to determine if evidence exists indicating a current or historical release of hazardous material that may impact the property.

Project Title: Phase I Environmental Investigation

Dates: December 2008

Client: National Bank of Commerce

1127 Tower Avenue  
Superior, WI 54880  
Ms. Joye Bedard 715-395-2586

Scope of Service: Twin Ports Testing, Inc. completed a Phase I Environmental Investigation in a manner consistent with the American Society of Testing and Materials standard for a Phase I ESA and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance. The investigation was conducted for a developed 0.5 acre parcel of property located in the City of Superior, WI that was formerly a welding facility. The investigation included performing a site visit, researching current and historical documents, regulatory records, aerial photographs, and collecting data from current and past property owners. The building on the property was visually assessed for the presence of typical asbestos containing materials and the property was assessed for the possible presence of PCBs. This information was used to determine if evidence exists indicating a current or historical release of hazardous material that may impact the property.

Project Title: Phase I Environmental Investigation  
Dates: December 2009  
Client: O'Day Equipment  
4981 Lightning Drive  
Hermantown, MN 55811  
Mr. Rick Labelle 218-729-0757

Scope of Service: Twin Ports Testing, Inc. conducted a Phase I Environmental Investigation in a manner consistent with the American Society of Testing and Materials standard for a Phase I Environmental Site Assessment and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance. The investigation was conducted for a developed 0.8 acre parcel of property located in the City of Hermantown, MN that was formerly a gas station and contained underground storage tanks. The investigation included performing a site visit, researching current and historical documents, regulatory records, aerial photographs, and collecting data from current and past property owners. The property was assessed for the possible presence of PCBs. This information was used to determine if evidence exists indicating a current or historical release of hazardous material that may impact the property.

#### **Typical Projects List: Phase II Environmental Investigation**

Project Title: Phase II Environmental Site Investigation  
Dates: April 2005 through December 2005  
Client: College of St. Scholastica  
1200 Kenwood Avenue  
Duluth, MN 55811  
Mr. Tim Orłowski 218-723-6712

Scope of Service: Twin Ports Testing, Inc. completed a Phase II Environmental Investigation in a manner consistent with the American Society of Testing and Materials standard for a Phase I Environmental Site Assessment and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance. The investigation was conducted for a college campus site that contained a 20,000-gallon fuel oil underground storage tank that released product into the subsurface materials and a nearby building basement foundation. The investigation included gathering all pertinent site information which included soil, vapor and groundwater samples along with free product recovery. TPT provided oversight for the UST excavation and product removal, secured landfill approval for contaminated soil disposal, and followed all guidance documents of the Minnesota Pollution Control Agency's Petroleum Remediation Program which included the completion and submittal of an Excavation Report, Limited Site Investigation Report and yearly Annual Reports.

Project Title: Phase II Environmental Site Investigation

Dates: June 2005 through Present

Client: North Shore Oil and Propane

5114 Highway 61 North

Silver Bay, MN 55614

Mr. Wade LeBlanc 218-226-3241

Scope of Service: Twin Ports Testing, Inc. conducted a Phase II Environmental Investigation in a manner consistent with the American Society of Testing and Materials standard for a Phase I Environmental Site Assessment and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance. The investigation was conducted for an active gas station that contained an underground storage tank that released product into the subsurface materials and an adjacent off-site building basement foundation. The investigation included providing Emergency Response action, gathering all pertinent site information which included soil, vapor and groundwater samples along with free product recovery. TPT installed four groundwater monitoring wells along with a free product recovery well and a free product recovery trench system. TPT provided oversight for the trench construction and free product removal, secured landfill approval for contaminated soil disposal, and followed all guidance documents of the Minnesota Pollution Control Agency's Petroleum Remediation Program which included the completion and submittal of an Excavation Report, Full Remedial Investigation Report and yearly Annual Reports. TPT also designed and installed a vapor recovery remediation system that removes vapors associated with the petroleum release from the adjacent off-site building's basement foundation. TPT also conducts quarterly monitoring of the site's groundwater monitoring wells.

Project Title: Phase II Environmental Site Investigation

Dates: June 2007 through November 2008

Client: Duluth Radisson Hotel  
505 West Superior Street  
Duluth, MN 55802  
Mr. Bryan Curry 312-782-9444

Scope of Service: Twin Ports Testing, Inc. completed a Phase II Environmental Investigation in a manner consistent with the American Society of Testing and Materials standard for a Phase I Environmental Site Assessment and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance. The investigation was conducted for an active downtown hotel that contained an underground storage tank that released product into the subsurface materials and an adjacent hotel building basement foundation. The investigation included gathering all pertinent site information which included soil, vapor and groundwater samples along with free product recovery. TPT installed four groundwater monitoring wells and collected site soil samples using a geoprobe soil sampler. TPT followed all guidance documents of the Minnesota Pollution Control Agency's Petroleum Remediation Program which included the completion and submittal of an Excavation Report, Full Remedial Investigation Report and yearly Annual Reports.

Project Title: Phase II Environmental Site Investigation  
Dates: June 2007 through November 2009  
Client: RZS, LLC  
4900 Highway 160 North, Suite 100  
New Hope, MN 55428  
Mr. Gregg Larson 763-535-4194

Scope of Service: Twin Ports Testing, Inc. conducted a Phase II Environmental Investigation in a manner consistent with the American Society of Testing and Materials standard for a Phase I Environmental Site Assessment and the Minnesota Pollution Control Agency Voluntary Investigation and Cleanup Program Guidance. The Phase I Environmental Site Assessment for this site was also performed by Twin Ports Testing, Inc. The investigation was conducted for a former gas station site that contained an underground storage tank which released product into the subsurface materials. The investigation included gathering all pertinent site information which included soil, vapor and groundwater samples. TPT installed five groundwater monitoring wells and collected site soil samples using a geoprobe soil sampler and hollow stem auger drill rig. TPT followed all guidance documents of the Minnesota Pollution Control Agency's Petroleum Remediation Program which included the completion and submittal of an Excavation Report, Limited Site Investigation Report and yearly Annual Reports.

**Qualifications  
and  
Certifications**

*American Association of  
State Highway and Transportation Officials*

*AASHTO Accreditation Program - Certificate of Accreditation*

This is to signify that

**Twin Ports Testing, Inc.  
Superior, Wisconsin**

has demonstrated proficiency in the tests listed below and has met the minimum requirements in AASHTO R18 set forth by the AASHTO Highway Subcommittee on Materials for the testing of:

**HOT MIX ASPHALT**

T30 T164 T166 T209 T245 T269 - D3566

Jon Hinkel, SR. Environmental Project Manager

Accreditations

- Certified Professional Geologist
- Hydrogeologist
- WI Department of Commerce Registered Site Assessor
- 40 Hour HAZWOPER

Qualifications

- Twenty (20) years of service with Twin Ports Testing
- Twenty (20) years environmental consulting experience

Education

- 1989: Ohio University, Athens, OH – M.S. Environmental Studies
- 1986: University of Minnesota, Duluth, MN – B.S. Geology

Contract related work experience includes:

- MN PETROFUND projects, soil and groundwater sampling, groundwater monitoring, remedial design and implementation, report writing and general project management for numerous Petrofund job sites
- WI PECFA projects, soil and groundwater sampling, groundwater monitoring, report writing and general project management for numerous PECFA job sites
- Phase I Environmental Property Assessments and Phase II Environmental Investigations on numerous separate projects
- Several environmental soil and groundwater investigations which included field sampling, data collection and report writing

Klete Fallowfield, SR. Environmental Project Manager

Accreditations

- Geologist
- Certified Asbestos Inspector
- WI Department of Commerce Registered Site Assessor
- 40 Hour HAZWOPER

Qualifications

- Eight (8) years of service with Twin Ports Testing
- Ten (10) years of environmental consulting experience
- Seven (7) years asbestos consulting/testing experience

Education

- 1998: Indiana University, Bloomington, IN – B.A. Geological

Sciences

Related Experience

- MN PETROFUND projects, soil and groundwater sampling, groundwater monitoring, remedial design and implementation, report writing and general project management for several Petrofund job sites

- WI PECFA projects, soil and groundwater sampling, groundwater monitoring, report writing and general project management for several PECFA job sites
- Phase I Environmental Property Assessments and Phase II Environmental Investigations on numerous separate projects
- Several environmental soil and groundwater investigations which included field sampling, data collection and report writing

Laura Novitzki, Environmental Project Manager

Accreditations

- Certified Asbestos Inspector
- WI Department of Commerce Registered Site Assessor
- 40 Hour HAZWOPER

Qualifications

- Five (5) years of service with Twin Ports Testing
- Five (5) years of environmental consulting experience
- Four (4) years asbestos consulting/testing experience

Education

2003: University of Minnesota, Twin Cities, MN – M.S., Natural Resources Science and Management

2000: University of Minnesota, Duluth, MN – M.I.S., Industrial Safety

1999: University of Minnesota, Duluth, MN – B.A.S., Community Health Education

Contract related work experience includes:

- MN PETROFUND projects, soil and groundwater sampling, groundwater monitoring, remedial design and implementation, report writing and general project management for eight Petrofund job sites
- WI PECFA projects, soil and groundwater sampling, groundwater monitoring, report writing and general project management for two PECFA job sites
- Phase 1 Environmental Property Assessments on nine separate projects
- Several environmental soil and groundwater investigations which included field sampling, data collection and report writing
- Hazardous materials surveys performed in preparation for the demolition of 21 residential buildings for MNDOT District two, Staples, MN
- MNDOT bridge inspections in Grand Rapids and Ely, MN
- Hazardous materials inspection of one residential building performed in preparation for a fire training burn, Carlton, MN
- Lake Manor, asbestos inspection, Duluth, MN
- Lester River Road residence, asbestos sampling, Duluth, MN
- Whole Foods Co-op, hazardous materials inspection, Duluth, MN
- Faith United Methodist church, asbestos sampling, Superior, WI

Holly Johnson, CHMM, Environmental Project Manager

Accreditations

- Certified Asbestos Project Designer
- Certified Asbestos Management Planner
- Certified Asbestos Inspector
- Certified Asbestos Site Supervisor
- NIOSH 582E
- Minnesota Two Day Air Sampling
- 40 Hour HAZWOPER

Qualifications

- Seven (7) years of service with Twin Ports Testing
- Six (6) years asbestos consulting/testing experience

Education

- 2002: University of Wisconsin-Superior, Superior, WI – B.S.

Biology

Contract related work experience includes:

- MN PETROFUND projects, soil and groundwater sampling, groundwater monitoring
- Several environmental soil and groundwater investigations which included field sampling, data collection and report writing
- Minnesota Department of Transportation. Conducted hazardous materials inspections of residential houses and commercial businesses for demolition purposes. Provided project oversight of asbestos abatement projects prior to demolition. Projects include Trinity Rd. expansion in Duluth, MN and TH 10 realignment through Staples, MN.
- Minnesota Department of Transportation. Conducted asbestos and regulated waste assessments of 30+ bridges throughout MN.
- University of Minnesota, Duluth. Provided project management and asbestos air monitoring services for the duration of asbestos abatement projects.
- Independent School District #709, Duluth, MN. Conducted hazardous materials inspections of 11 residential homes for demolition purposes.
- State of Minnesota, Real Estate and Construction Services. Asbestos abatement oversight and air monitoring at MN Correctional Facilities and the State Administration Building.
- City of Superior. Asbestos inspections of four residential houses for demolition purposes.
- Odyssey Development. Hazardous materials inspections of eight (8) cabins for demolition purposes.

Dear Jon Hinkel:

The Petrofund Board has processed your Consultant registration application.

Your assigned Petrofund registration number is 1117. Please include this number on all Petrofund forms.

Minnesota Statute §115C.11 Subd. 5(h) states that "Registration for Consultants under this section remains in force until the expiration date of the professional liability coverage, including pollution impairment liability, required under paragraph (a), clause (4), or until voluntarily terminated by the registrant, or until suspended or revoked by the Commissioner of Commerce."

To renew your Petrofund Consultant registration you must complete the most recent version of the Consultant registration application (available at [www.commerce.state.mn.us](http://www.commerce.state.mn.us)) and submit it to our office on or before September 01, 2010. You may also request this application by calling 651-297-4203 or 1-800-638-0418.

Please note that Minnesota Statute §115C.11 Subd. 5(f) requires the Consultant to promptly file a corrected application if the information in an application for registration becomes inaccurate or incomplete in any material respect.

If you have any questions or concerns regarding this matter please contact me.

Sincerely,

Ginger Commodore

Minnesota Department of Commerce

| Effective Date:      | July 11, 2009 |
| Renewal Due By:      | July 11, 2010 |

Dear Jon Hinkel:

The Petrofund Board has processed your Contractor registration application. Your company's registration is effective as of July 11, 2009. Please note that you are registered with the Board only to perform the following contractor service(s):

Drilling / Laboratory Analysis /

Your assigned Petrofund registration number is 1117. Please include this number on all Petrofund forms.

Minnesota Statute §115C.11 Subd. 5(h) states that "Registration for Contractors under this section expires each year on the anniversary of the effective date of the Contractor's most recent registration and must be renewed on or before expiration. Prior to its annual expiration, a registration remains in force until voluntarily terminated by the registrant, or until suspended or revoked by the Commissioner of Commerce."

To renew your Petrofund Contractor registration you must complete the most recent version of the Contractor registration application (available at [www.commerce.state.mn.us](http://www.commerce.state.mn.us)) and submit them to our office on or before July 11, 2010. You may also request this application by calling 651-297-4203 or 1-800-638-0418.

Please note that Minnesota Statute §115C.11 Subd. 5(f) requires the Contractor to promptly file a corrected application if any of the information filed becomes inaccurate or incomplete in any material respect.

If you have any questions or concerns regarding this matter please contact me.

Sincerely,
