# Mission & Vision

## Mission

Educators Rising cultivates highly skilled educators by guiding young people on a path to becoming accomplished teachers, beginning in high school and extending through college and into the profession.

## Vision

Every teacher in America has the skills and experience to help all students achieve their potential.

# What is Educators Rising?

- As a national network, Educators Rising supports opportunities for young people to explore teaching as a career. We provide and curate resources, opportunities, and connections to amplify and expand the power of *secondary-based* education pathway programs.
- There are no dues for individual members or chapters to join Educators Rising via the EdRising Virtual Campus.
- Currently, over 14,200 students and teacher leaders are members of Educators Rising. 49% of our student members are students of color.
