The FSMBs' website [www.docinfo.org](http://www.docinfo.org) provides information from all member states regarding physician specialty certification, education, active physician licenses, and disciplinary actions taken. Access to DocInfo is free. Jon V. Thomas, M.D., M.B.A., requested that a link to DocInfo be added to the Board's website.

Dr. Thomas advised Board members interested in participating on any of the FSMBs' workgroups or committees, to contact the FSMB Director of Leadership Services, Pat McCarty. Board staff will provide Ms. McCarty's contact information by e-mail.

Keith H. Berge, M.D., asked how to get on the docket to present an education component at the Federation of State Medical Boards' Annual meeting. Dr. Snyder will contact FSMB Chief Advocacy Officer Lisa Robin on Dr. Berge's behalf.

Dr. Snyder apologized that the slide deck presented did not include FSMB committee members and only included House of Delegate members. The slide deck will be corrected for future presentations.

Agenda Item 4: Minnesota Department of Health Office of Rural Health Demonstration of the Proposed Healthcare Workforce Survey

At a September 8, 2015, meeting of the health licensing board Executive Directors, representatives of the Minnesota Department of Health (MDH) Office of Rural Health presented information on proposed changes to the MDH Healthcare Workforce Survey that is embedded for completion in the Boards' licensure renewal processes. At the September 12, 2015, Board meeting, Executive Director Ruth M. Martinez, M.A., advised the Board of the proposed changes.

Board staff have met with and provided feedback to the MDH Office of Rural Health regarding modifications to the MDH Healthcare Workforce Survey. Some Board members and licensees have also been invited to provide feedback of the proposed changes to the MDH Office of Rural Health. Proposed revisions included modification of and additions to the questions to which licensees/registrants are asked to respond.

Teri Fritsma, Ph.D., Senior Workforce Analyst and Nitika Moibi, MPP, Supervisor from the MDH Office of Rural Health demonstrated the redesigned Healthcare Workforce Survey.

Board discussion included:

- Physician privacy:  
Board members expressed concern about public access to data collected by the MDH Office of Rural Health Healthcare Workforce Survey (Survey). MDH affirmed that data collected is considered public and available by request to the MDH Office of Rural Health. MDH will explore whether and how any of the data collected through the Survey may be reclassified as non-public.
- Calculation of work hours:  
Board members expressed concern about the Survey question, "How many hours do you work in a typical week?" Board members felt the question is burdensome since it is difficult to calculate the exact number of hours worked. Board members suggested using a range of hours, rather than trying to calculate a specific number.
- The paper survey has been discontinued since the response rate to the on-line Survey has reached approximately 97%.
- Dr. Eggen suggested that the Survey should take no longer than 3 minutes to complete. He noted that the Federation of State Medical Boards (FSMB) has an ideal set of questions that are being used nationally and encouraged the MDH Office of Rural Health to align with the FSMBs' questions for consistency and aggregated information at a national level. Dr. Eggen further suggested that MDH refine its Survey to no more than 10 questions and present it back to the Board. Dr. Eggen stated that the Survey should not have more questions than the Board of Medical Practice's renewal application.

Ms. Martinez noted that any calls regarding the Survey will come to the Board of Medical Practice, since the Survey is embedded in the Board's on-line renewal process. Ms. Moibi suggested that MDH and the Board work together to field questions regarding the Survey.

Ms. Moibi suggested that MDH could work to refine some of the questions based on the Board's feedback. Ms. Moibi thanked the Board members for their input and time.

The Board gave MDH a round of applause.

The Board took a five minute break.

Dr. Eggen stated that, during the discussion with the MDH representatives, he misspoke when stating that he was representing physicians. He clarified that, as a Board member and President of the Board, he is representing the protection, health and safety of the public. Dr. Eggen thanked V. John Ella, J.D., for bringing this to his attention during the break.

Dr. Eggen requested to move agenda item 10 before agenda item 5.

#### Agenda Item 10: Federation of State Medical Boards' Annual Meeting

- Call for Resolutions

Dr. Eggen called for any resolutions that Board members would like to submit to the Federation of State Medical Boards' (FSMB) House of Delegates. The call for resolutions will be revisited at the January 9, 2016 Board meeting and submitted to the FSMB by the deadline date of February 26, 2016.

- Committee or Workgroup Interest

Ms. Martinez stated that, if a Board member is interested in serving on one of the FSMBs' committees or workgroups, please contact Director of Leadership Services, Pat McCarty. Ms. Martinez also requested that Board members notify Ms. Johnston of any service on national committees or workgroups so that national service by Board member may be accurately included in public reports.

Some Board members asked if serving on a national committee or workgroup requires Board approval. Ms. Martinez is not aware of such a policy and doesn't want to impede the process by which a Board member may be appointed to a national committee or workgroup.

- Call for Nominations

Former Board member Gregory B. Snyder, M.D., DABR, asked for the Board's endorsement and support of his bid for Chair-elect of the FSMB Board of Directors. A motion was made and unanimously passed to nominate and support Dr. Snyder as a candidate for Chair-elect of the FSMB Board of Directors. Dr. Snyder thanked the Board for its support and for the opportunity to present to the Board today.

Ms. Martinez explained to the Board that there is a three year window of time after Board service during which a former Board member may represent the Board at the FSMB. Dr. Snyder is within that window.

Board President Mark A. Eggen, M.D., asked for the Board's endorsement and support of his bid for a second term on the FSMB Board of Directors. Dr. Eggen's current term expires in April 2016. A motion was made and unanimously passed to nominate and support Dr. Eggen as a candidate for a second term on the FSMB Board of Directors.

Elected offices require endorsement by a member Board. Candidates are also required to complete additional FSMB application materials.

- Minnesota Welcome Reception

Ms. Martinez asked the Board if they'd like to continue sponsoring the Minnesota Welcome Reception. After many years, the reception is listed in the formal program and has been provided with accessible and visible space.

A motion was made and unanimously passed to continue to host the Minnesota Welcome Reception at the FSMB Annual meeting.

Ms. Martinez suggested some Minnesota honey samples as a give-away at the Minnesota Welcome Reception. The 2 or 3 ounce honey samples can travel easily on an airplane and are within the Board's budget. No action was required, but Board members were supportive of the suggestion.

Ms. Johnston will forward the call for resolutions and the call for nominations to all Board members. Any other notices received regarding the Federation of State Medical Boards (FSMB) annual meeting will also be forwarded to Board members.

The date of the FSMB Annual meeting is April 28 -30, 2015. The Minnesota Welcome Reception will be held on the prior evening of Wednesday, April 27, 2015.

The Minnesota Department of Health has and is confidentially monitoring people infected with HIV, HBV, or HCV. Recently, the Minnesota Department of Health discharged an individual to the Board of Medical Practice for confidential monitoring. The Board is obligated to confidentially monitor any individual that the Department of Health declines to monitor.

The Health Professional Service Program (HPSP) is not authorized to monitor HIV, HBV, or HCV infected individuals. The Confidential Monitoring Plans are processed through a Complaint Review Committee. The Executive Director will sign the Confidential Monitoring Plan to fully execute the agreement.

#### Agenda Item 13: Corrective and Other Actions

Corrective and other actions were presented for Board information only.

#### Agenda Item 14: New Business

- Security

Several Board members had concerns about building security for Saturday Board meetings and after hour committee meetings.

Discussion included:

- Hiring of an armed security guard for Board meetings to sit at the entrance of Conference Room A. Hiring a security guard should be done consistently and not intermittently because it may cause bias and affect Board members objectivity toward a respondent.
- Some Board members do not have building security concerns.
- Some Board members would prefer the security guard not be armed.

A motion was made and seconded to explore hiring a security guard, with a friendly amendment that the security guards are armed, at after-hour committee and Saturday Board meeting. Amendment accepted. After Board discussion, the motion was withdrawn.

Discussion continued:

- Hiring a security expert to inform the Board how to secure Board and after hour Committee meetings. Could the health licensing boards hire a security expert to review building security? No, because the cost is a big deterrent and not all health licensing boards have the same security needs. Also, there are other businesses in the building.

After discussion, a motion was made and passed unanimously that a security expert will be engaged by staff to review best practices for securing the space for after hours committee and Saturday Board meetings.

Ms. Martinez will report back to the Board at the January 9, 2015, Board meeting.

Dr. Eggen adjourned the public session of the meeting.
