Board enabling statutes were extensively reviewed to determine if FY15 legislative changes were necessary, especially so soon after passage of the Board prescription protocol initiative in FY13.

Discussion took place on why the sale of supplements for profit was prohibited by licensees in the original enabling statutes. The legislative committee will research if many other states have the same prohibition and report back to the Board. After a long discussion the Board decided not to have any new initiatives. Motion by Werner, seconded by Millett; motion carried.
