

**Responses to Questions Posed Related to the Statement of Work for the Project Title:  
State Services for the Blind (SSB) 21<sup>st</sup> Century Media Application and Servers**

**Question 1:**

SCi has the following clarification questions regarding the State Services for the Blind 21<sup>st</sup> Century Media Application and Servers Maintenance and Development Contract:

1. *The SOW gives the project dates as April 18, 2010 through March 31, 2012 however the contractor hours for the project are only listed as 1,150. DEED is only looking for a part-time contractor for this initial project period, is this a correct assumption?*
2. *Is this a new project?*

**Answer:**

- 1) This is a part-time contract to maintain the 21<sup>st</sup> Century Media Application. This includes fixing production problems and bugs. If time permits, implement small enhancements.
- 2) This is not a project to build a new system, but a contact to maintain and enhance an existing system.
