Highlights

Highlights

- As a whole, the Asian community has improved in the areas of educational attainment, employment and poverty in the past 3 decades.
- Asians have a diverse population, but there is also intra-ethnic diversity
- Many Southeast Asians are working in low skilled occupations and facing challenges in the areas of educational attainment and poverty.
- A large portion of the South Asian ancestry group are foreign-born population.
- The East Asian ancestry group is doing relatively well in the areas of educational attainment, employment and poverty.

Breakout Session

Breakout groups

1. Initial reactions: What in the presentation is interesting - or even surprising – to you?
2. In viewing the presentation, how does it relate to your work or interests in working with the Asian Pacific community in Minnesota?
3. What are some priority areas and issues that you hope that this new US Census data can help inform?
4. Where are some needed solutions to address those areas and issues?

Thank you
