View Allocation and Grant Agreement Status

1. Brief Description

This use case provides a way to view fund allocation, Grant agreement status activities for EAP and WAP.

2. Actors

Service Provider User

3. Activity Diagram

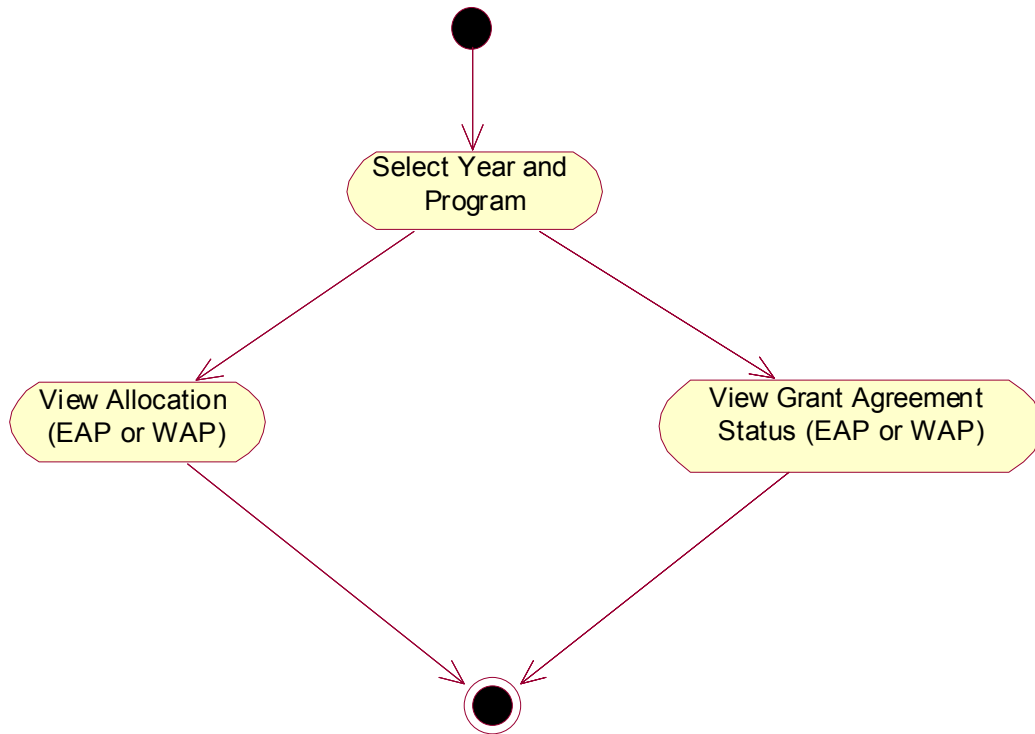

Figure 1 View Allocation and Grant Agreement Status Activity Diagram

4 Flow of Events

4.1 Basic Flow

4.1.1 Start of the Use Case

This use case starts when the user clicks on “Fiscal Services” Menu

4.1.2 View Allocation

1. The System displays program and year as a drop-down list.
2. The drop-down list for Year will display the current program year and three previous program years
3. The user selects a program, year and clicks on the “View Allocation” button.
4. The system displays the Fund Allocation screen for EAP or WAP depending upon the program chosen. The screen will be view-only for Service Provider users

4.1.3 Use Case Ends

This use case ends with the display of the screen.

4.2 Alternate Flow

4.2.1 View Grant Agreement Status

1. This use case starts when the user clicks on “Fiscal Services” Menu
2. The System displays program and year as a drop-down list.
3. The drop-down list for Year will display the current program year and three previous program years
4. The user selects a program, year and clicks on the “View Grant Agreement Status” button.
5. The system displays the “Grant Agreement Status” screen for EAP or WAP depending upon the program chosen. The screen will be view-only for Service Provider users.
6. This alternative flow ends here.
