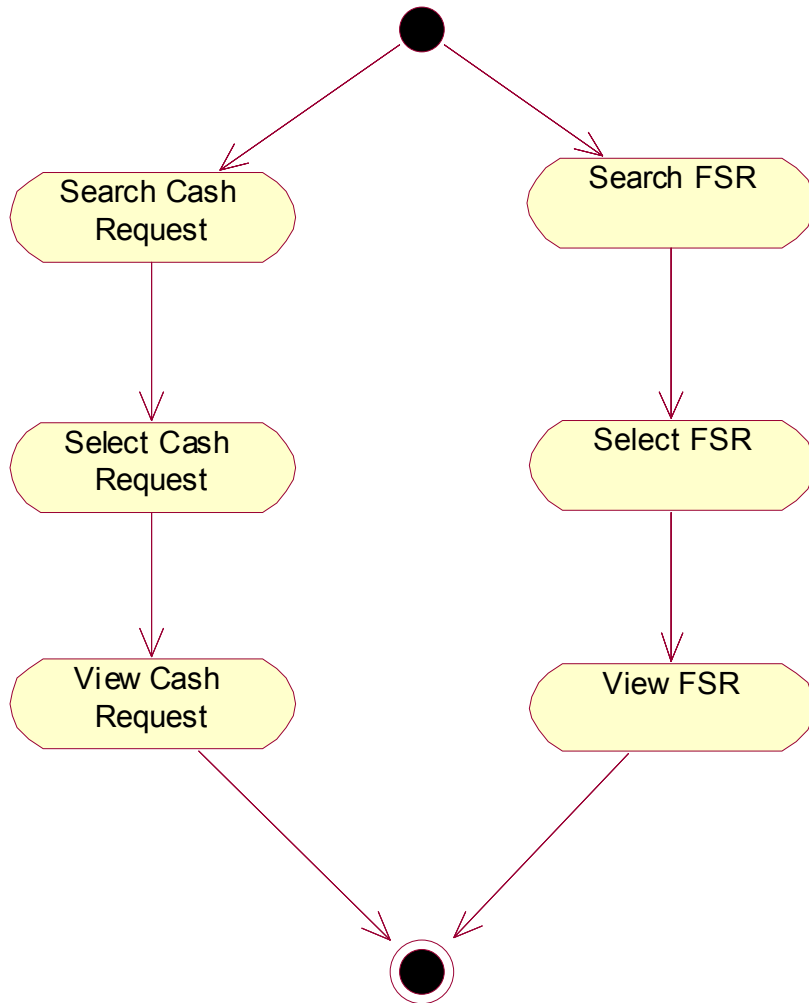

Figure 1 View FSR and View Cash Request Activity Diagram

4 Flow of Events

4.1 Basic Flow

4.1.1 Start of the Use Case

This use case starts when the user clicks on “Fiscal Services” Menu and “Cash Request” tab.

4.1.2 View Cash Request

1. The System displays the “Search Cash Request” screen. The user enters one or more search criteria and clicks on the “Search” Button to initiate a search.
2. The drop-down for Year will display the current program year and three previous program years
3. If records are found the system displays the Search results in a list. If no records are found the system displays a message “No results found. Please select a different search criteria”.
4. The user selects a Cash request from the list and clicks on the “View” button
5. The system displays the Cash request screen as View-only

4.1.3 Use Case Ends

This use case ends with the display of the screen.

4.2 Alternate Flow

4.2.1 View FSR

1. This use case starts when the user clicks on “Fiscal Services” Menu and “FSR” tab.
2. The System displays the “FSR Select / Search” screen. The user enters one or more search criteria and clicks on the “Search” Button to initiate a search.
3. The drop-down for Year will display the current program year and three previous program years
4. If records are found the system displays the Search results in a list. If no records are found the system displays a message “No results found. Please select a different search criteria”.
5. The user selects a FSR from the list and clicks on the “View” button
6. The system displays the FSR screen as View-only.
7. The use case ends here.
