(Mandatory)
Explanation of Instructor Continuing Education Credit

- Not allowed for an internet course author.
- An Instructor cannot claim credit for the same course again in the same license period.
- The course in question must have been pre-approved by MN Department of Commerce (Commerce) for the date taught and the Instructor must have been pre-approved by Commerce for the course.
- If an Instructor speaks for part of a course and then leaves without completing the entire course, they receive no credit as no licensee can receive partial credit for any course.
- If an Instructor is presenting their portion of a course, repeating their own portion multiple times throughout a prescribed timeframe, while other instructors are concurrently presenting their own portions, none of these instructors would qualify for CE credit because they are not attending the instruction portion of all other instructors.
- The Education Provider must upload the regular student roster (CE course credits) for that instructor/student into the Sircon or Pulse database for the regular number of hours the course was approved for.
- The Education Provider must submit a completed “Application for Instructor Extra CE Credit” (Page 1) to Commerce.
- The MN Department of Commerce will manually enter the extra instructor hours into the Sircon or Pulse database if it is determined that the instructor qualifies for the credit.

Example: If the applicant was the only instructor for a 4 hour course, the Education Provider will upload the 4 hours and Commerce will enter 8 hours for a total of 12 full hours of credit.

Example: If the applicant was one of multiple instructors for a course over 2 hours in length and attended the course in its entirety, (for the example use 4 hours for the course with 2 instructors, each teaching for 2 hours) they would receive the full amount of the course time (in this case 4 hours) as a student and then 2 times the amount of time the instructor taught 2HrsX2=4. In this case the instructor would receive a total of 8 hours of credit.

Example: If the applicant was one of multiple instructors for a course of 2 hours or less, and attended the course in its entirety, each instructor will receive credit for the full 2 hour course regardless of how long each instructor spoke. The Education Provider will upload the 2 hours and Commerce will enter 4 hours for a total of 6 full hours of credit.

(Very Important Note: Regardless of the number of hours of course time, if the method of instruction is set up with multiple instructors repeating their own topic multiple times, with the students moving from one instructor to another throughout a specified course time, no instructor can be allowed any CE course credit; not as a student or for extra instructor CE credit. They would not be attending the entire course in its entirety, as they would only be repeating their own topic while the other instructors are concurrently doing the same.)

Important to Note: No more than half of the continuing education hours required for renewal of a license may be earned as a qualified instructor.

45.30 CONTINUING EDUCATION.

(a) Upon completion of approved courses, students must earn one hour of continuing education credit for each hour approved by the commissioner. Continuing education courses must be attended in their entirety in order to receive credit for the number of approved hours.

(b) Qualified instructors will earn three hours of continuing education credit for each classroom hour of approved instruction that they deliver (1) independently, or (2) as part of a team presentation in a course of two hours or less, if they attend the course in its entirety. For licensees other than appraisers, no more than one-half of the continuing education hours required for renewal of a license may be earned as a qualified instructor at the rate of three hours of continuing education credit for each classroom hour of approved instruction. For licensed appraisers, no more than one-half of the continuing education hours required for renewal of a license may be earned as a qualified instructor. No credit will be earned if the licensee has previously obtained credit for the same course as either a student or instructor during the same licensing period.

(c) A licensee must not receive credit for more than eight hours of continuing education in one day.
