### Access Quick Links to instantly:

- Apply for a license
- Renew your license
- Print a copy of your license
- Determine where you are licensed

### Insurance Compliance Just Got Personal

Vertafore ProducerEDGE™ is the industry's most powerful, personalized view of insurance compliance, made specifically for adjusters managing their own licensing, education, and renewals. Vertafore ProducerEDGE provides need-to-know information in an easy-to-access, understandable format so you can focus on what you do best—servicing your clients. Best of all, Vertafore ProducerEDGE is FREE.

### Career Critical Information, Available At-A-Glance

Vertafore ProducerEDGE helps you keep track of all of your licenses, renewal dates, CE information, and more, in one convenient, dashboard-style online location. It provides unique, direct access to trusted licensing information, through a direct connection with the National Proucer Database (PDB). This connection ensures that the important information you rely on (like renewal dates) is supplied by the states themselves. Vertafore ProducerEDGE goes the extra mile by providing you convenient email reminders when your licenses approach expiration, and when an

application changes status with the state. These are just a few of the features that will keep you off of HOLD with your Insurance Department, and on the phone with your claimants.

From a single web browser, you can easily perform the administrative tasks necessary to ensure your own compliance.

### Only Vertafore ProducerEDGE

By now you've heard the old adage "garbage in, garbage out," and know that the data you rely on is only as good as the data originally entered. The same is true for your insurance licensing and compliance information. That's why Vertafore ProducerEDGE includes one-click access to the states, so that you can import trusted licensing data quickly and easily.

Vertafore ProducerEDGE is the only personal compliance management service that gives individual adjusters access to their information, straight from the PDB. By providing a link to "Load Your Licenses from the States," you can instantly import your licensing data ensuring fewer processing delays, fewer requests to your department for additional information, and less risk of license lapse.

## My Licenses

My Licenses is a dashboard item that displays license numbers, license types, and expirations from one convenient location. It provides two ways to enter licensing information. You can:

Load your license information directly from the states, by way of connecting directly with the PDB and importing your licensing information with just one click.

Enter your licensing information manually, which gives you a convenient way to track information not supplied by the states, or non-insurance license information.

## My Education

This component tracks individual Continuing Education course completions against requirements.\*

Complete compliance summaries provide at-a-glance status information, immediately informing you on whether you are compliant and able to adjust claims in each state in which you are licensed.

## Quick Links

The Quick Links provide instant access to important compliance services. Accessing licensing services in every state has never been easier.

**For more information, contact your Vertafore Account Executive at 800.444.4813 or visit [vertafore.com](http://vertafore.com).**

From one location, you can apply for and renew their licenses, as well as access letters of certification and print their licenses, where available.

## My Reminders

You can receive automatic renewal reminders and status update notifications. This helps keep you organized and legal to adjust claims with system-generated email reminders indicating when your licenses are approaching expiration and when your license application or renewal status has changed with the state.

\* Continuing education transcripts are available within a ProducerEDGE Subscription for the following states: AZ, CO, CT, GA, ID, IN, MN, MS, NC, NV, PA, SD, TX, UT, VA, VT, WI, WV, and WY.

Vertafore delivers software and services that transform the business of insurance. Unique to the industry, more than 20,000 customers rely on Vertafore to provide integrated technology that connects the entire industry with the most complete source of solutions—agency management, rating and connectivity, content management and workflow, research solutions and producer lifecycle management—so their businesses run better and are more profitable.
