

**Contractor Interest
Minnesota Weatherization Assistance Program:
Renewable Energy Equipment Grant Program Pilot Project**

COMM-WAP01-20160104

Entities interested in serving as a contractor or project partner with an eligible SP Responder are encouraged to submit their business name, contact information, and project interest to energy.contracts@state.mn.us by Monday, January 18, 2016. A list of interested project partners received by that date will be forwarded to all eligible SP responders and posted on the Commerce website in an effort to facilitate communication among potential partners. Inclusion on the list of potential project partners/contractors is not an endorsement by the MN Department of Commerce. **Submissions received after the deadline will still be accepted by Commerce** but those that are received after January 18th are not guaranteed to be posted.
