

FUNDING OPPORTUNITIES
LAST UPDATED ON May 15, 2012

**New Listings =
Yellow**

Title	Description	Web Link	Source	Deadline
Improving Accuracy of Solar Forecasting	Applications requested for improving accuracy of solar forecasting in the short-term (0-6 hours) and day-ahead timeframes.	https://eere-exchange.energy.gov	Department of Energy	5/16/12 (Notice of Intent); 6/19/12 (full application)
Light-Duty Fuel Cell Electric Vehicle Validation Data	New applications for projects seeking to validate light-duty fuel cell electric vehicle performance and durability.	https://eere-exchange.energy.gov/Default.aspx	Department of Energy	5/21/12
Bridging Research Interactions through Collaborative Development Grants in Energy (BRIDGE)	To support the SunShot Initiative by increasing the depth and breadth of expertise being applied to PV and CSP technology challenges.	https://eere-exchange.energy.gov/	Department of Energy	5/21/12
Technology Research, Development, and Tools for Clean Biomass Cookstoves U.S. Department of Energy	To increase deployment of renewable energy technologies and tools that lead to clean and efficient biomass cookstoves.	https://eere-exchange.energy.gov/	Department of Energy	5/23/12
Theoretical Research in Magnetic Fusion Energy Science	Seeking grant applications for theoretical research relevant to the U.S. program in magnetic fusion energy sciences.	http://science.doe.gov/grants/pdf/SC-FOA-0000480.pdf	Department of Energy	5/26/12
Hydrogen Prize Topic Request for Information (RFI)	Ideas for H-Prize topics and criteria for advancements to enable the widespread commercialization of hydrogen and fuel cell technologies.	http://www1.eere.energy.gov/financing/business.html	Department of Energy	5/31/12
Wireless Charging for Electric Vehicles	To research and develop a production feasible wireless charging system	http://www1.eere.energy.gov/financing/business.html	Department of Energy	5/31/12

FUNDING OPPORTUNITIES

Title	Description	Web Link	Source	Deadline
Methane Hydrates Funding Opportunity Announcement	Field programs for deepwater hydrate characterization and response of methane hydrate systems to changing climates.	https://www.fedconnect.net/FedConnect/?doc=DE-FOA-0000668&agency=DOE	Department of Energy	6/1/12
Legacy Grant Program - Mid and Large Size Grants	Projects focused on historic preservation. Past funded projects have included energy efficiency retrofits.	http://legacy.mnhs.org/grants	Minnesota Historical Society	6/1/12 (preapplication deadline)
Fuel Cell Powered Airport Ground Support Equipment Deployment	To demonstrate and deploy fuel cell hybrid ground support equipment (GSE) vehicles at airport and/or air freight distribution center sites.	https://eere-exchange.energy.gov/Default.aspx	Department of Energy	6/11/12
Hydrogen Storage Targets for Early Market Applications Request for Information (RFI)	Seeking input on hydrogen storage subsystems designed for material handling and portable power fuel cell applications.	https://eere-exchange.energy.gov/	Department of Energy	6/15/12
Plug and Play Photovoltaics	To advance the development of a commercial plug-and-play photovoltaic system.	https://eere-exchange.energy.gov/	Department of Energy	6/18/12
Clean Cities - Implementation Initiatives to Advance Alternative Fuel Markets	Address and assist in reducing multiple barriers to alternative fuel vehicle adoption and use.	https://eere-exchange.energy.gov/	Department of Energy	6/18/12
Renewable Energy System and Energy Efficiency Improvement Guaranteed Loans (Rural Energy for America Program)	Applications sought for renewable energy systems and energy efficiency improvement guaranteed loans from agricultural producers and rural small businesses.	http://www.gpo.gov/fdsys/pkg/FR-2012-01-20/pdf/2012-755.pdf	U.S. Department of Agriculture	6/29/12
