Board Member

Describe your interest on being on the Hiawatha Transmission Project ATF:

I am representing the Midtown Phillips Neighborhood Association, Inc. which has taken a position requesting that several approaches be used instead of above-ground lines for this expansion of Xcel Energy's service to this area of south Minneapolis. We wish to explore conservation efforts and under-ground installation. The proposed lines immediately affect Midtown Phillips since about 40% of the route runs directly through the Midtown Phillips neighborhood and we are representing our residents and businesses who have attended many meetings and workshops held by Xcel Energy, the Midtown Greenway Coalition, and ourselves since last fall to learn more about this issue and to present our case to the PUC. We acknowledge the need for increased service to this area of Minneapolis.

Dear Mr. Rasmuson,

Greetings. I am writing to request your assistance with an Advisory Task Force (ATF) for the proposed Hiawatha Transmission Line. On April 24, 2009, Xcel Energy submitted a high voltage transmission line (HVTL) Route Permit application to the Minnesota Public Utilities Commission (Commission) for the proposed Hiawatha Transmission project. The application was accepted as complete on May 21, 2009.

As part of the decision accepting the Hiawatha HVTL Route Permit application as substantially complete, the Commission authorized the Office of Energy Security (OES) to establish an advisory task force.

The Advisory Task Force members will assist the OES Energy Facility Permitting (EFP) staff in developing the scope of environmental review for the EIS being prepared for the Hiawatha 115 kV Transmission line project currently before the Commission (PUC Docket E002/TL-09-38).

Tasks relating to development of the scope of the environmental review will include:

1. Familiarize the membership of the ATF with the proposed project by reviewing the HVTL Route Permit application;
2. Review the Draft Scoping Document produced by the OES EFP staff;
3. Develop potential route or route segment alternatives, and
4. Determine specific impacts and issues of local concern that should be assessed in the EIS by adding detail to the Draft Scoping Document.

The ATF will meet three times, Wednesday, June 24, 2009, Wednesday, July 15, 2009, and Wednesday, August 5, 2009. The meetings will be held in the Midtown Globe Market from 6:00 pm to 9:30 pm. The ATF will, through a facilitated process, discuss and make recommendations to the Director of the OES in accordance with its charge.

The ATF will expire upon completing the above charge or upon designation by the Director of the OES of Scoping Decision, whichever occurs first.

The advisory task force members will be solicited from the following:

- A. Local units of government:
 - Hennepin County
 - The City of Minneapolis
- B. Political Subdivision
 - Regional Railroad Authority

Midtown Greenway Coalition
Minneapolis Ward 9
Minneapolis Ward 6
