Ingrid Bjorklund, State Permit Manager  
Office of Energy Security  
Energy Facility Permitting  
85 7th Place East, Suite 500  
St. Paul, MN 55101-2198

RE: PUC Docket #: IP-6650/WS-07-1073

To Whom It May Concern:

We are strongly opposed to any amendments to the site permit of the Glacial Ridge Wind Project, Glacial Ridge Wind, LLC. They have had ample time to obtain a commitment for sale and commence construction. The project is obviously ill-conceived, poorly planned, and badly managed.

Pope County does not need a large wind energy conversion system to pollute the landscape and obliterate the skyline.

Sincerely,

RE: PUC Docket #: IP-6650/WS-07-1073

TO WHO IT MAY CONCERN:

We are strongly opposed to any amendments to the site permit of the Glacial Ridge Wind Project, Glacial Ridge Wind, LLC.

We hike and cross country ski on our trails in our woods, in Gilchrist Township, Pope County.

Gilchrist township doesn't need a large wind energy conversion system to obliterate the skyline.

Sincerely,  
James & Fran Syverson

---

I would like to voice my opposition to the siting of the Glacial ridge Wind, LLC Wind Energy System in Pope County. These towers would be too close to many home situated in a beautiful rural setting as of this time. they would ruin our property values, with no compensation for us. The same people who are getting most of these towers already have smelly hog and cattle feedlots and now want to ruin our line of vision in every direction. They also would be very noisy for those of us living near them. Thank you.
