I don't think the wind farm should be put up here because of several issues, we have very good soil here for farming. Why put the wind mills here. Also I belong to the Lake Henry fire & rescue. With the wind mills here like link will not be able land. On rescue call ~~seconds~~ seconds count. Also with the town how are we going to expand the town when the wind mills are so close. No one will want to move to this town when the wind mills are here. They are a eye soar. Why should we have to live with them when we do not get any benefits from them.
