June 11, 2013

Dr. Burl W. Haar, Executive Secretary
Minnesota Public Utilities Commission
121 7th Place East, Suite 350
St. Paul, MN 55101-2147

**RE: PUC Docket Number: E002/CN-12-1240
Great River Energy Proposal**

On June 6, 2013 the Commission required that each bidder to this process submit information sufficient to fulfill Minnesota Rule 7849.0310 (if not already provided). Furthermore, the Commission directs each bidder to file a checklist indicating where each content requirement can be found within their application or supplemental filing.

Great River Energy's proposal is for MISO Zone 1 resource credits or capacity only and is based on our current portfolio of fully permitted and accredited generation resources. As a result, there is no environmental data to be supplied relative to new construction. Since no energy is included in our proposal, there is no environmental data to be supplied regarding the operation of existing resources since the operation of these existing resources will not change as a result of our proposal in this proceeding.

If you have any questions about this response feel free to contact me at lrossmccalib@grenergy.com or (763) 445-6103.

Sincerely,

/s/ Laureen Ross McCalib
