RE: PUC Docket Number E-015/CN-12-1163
Great Northern Transmission Line Project
Environmental Report: Environmental Affects: Noise

Dear Mr. Storm:

Thank you for talking with me, in Bemidji, at the February 19th Public Information and Scoping Meeting, and again last week over the phone, regarding the Great Northern Transmission Line Project. Your information both times has been quite helpful.

For the record, my interest is in the quality, dispersal, and intensity of the sound waves and EMFs produced by the proposed transmission line. Effects on health and wellbeing are the basis of my interest. I look forward to reading your report, especially regarding these matters, when it becomes public.

Again, my thanks.

Sincerely,

A handwritten signature in blue ink that reads "Beverly Meadows".
