Dear Bill,

I want you to please look at an alignment modification that moves the anticipated alignment approximately 1000 feet west from the intersection of the alignment with highway 8 on the north to the intersection to the Potlatch property to the south.

Rational 1. It would move the line off private property to tax forfeited property to the west.

2. It would move the line from developed property to undeveloped property.

An alternative route segment which shifts the whole route approximately 1500 feet to the west would allow Minnesota Power to have an alignment that would move from private developed property to undeveloped tax forfeited property.

Thank you Bill for your time and consideration in this matter on our behalf.

Sincerely, Roger and Mary Jo Weber
