I'm Robert H Johnson 16312 470th st Clearbrook Mn 56634. First I'm worried about wild [lost] electric coming from this line as my home is about 200ft north of line. Will I have to move? Second My brother Vernon Johnson and I asked why the line route couldn't fallow county #74 to county #73 then north to Embridge Land. Instead of taking crop land out of production. If Minnkota is looking at short routes then why no fallow Pipe Line right of way? As I told David per phone call I'm not against the project just think theirs more to look at. Thanks for your time Robert.
