Subject: Enbridge pipeline project
Date: Thursday, May 26, 2016 9:32:31 AM

I am writing on behalf of Kittson County in support of the proposed Enbridge pipeline upgrade project. We have always valued the partnership we have with Enbridge and recognize the importance of the tax revenue generated by their pipeline. We also understand the impact their project will have on our local economy. But more importantly, we understand that oil and gas pipeline projects like this will reduce the amount of product shipped by other means such as rail. This has become a concern in our county as we have seen a significant increase in oil trains through our county over the last few years.

We encourage the state to approve this project.

Eric Christensen
Kittson County Administrator
