

AFFIDAVIT OF PUBLICATION

I, Lana Birkhofer, do hereby certify that an advertisement of MNA/Enbridge

measuring 6 x 20 inches was published in The Duluth News Tribune as per specifications below:

Date of Issue: July 31, 2015

Heading of Advertisement: Environmental Analysis Scoping meeting

On Page: 5A

Kind of matter surrounding advertisement: other news and advertising

Dated at Duluth, MN on this the 5th day of August 2015

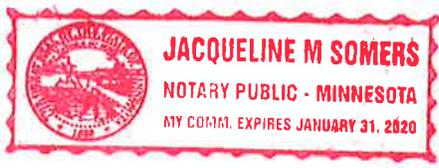

Subscribed and sworn to before me, this

5th day of August 2015

Jacqueline M. Somers
Notary Public, St. Louis County, Minnesota

Lana Birkhofer

My Commission Expires: January 31, 2020

NOTICE

NOTICE OF APPLICATION ACCEPTANCE - PUBLIC INFORMATION AND ENVIRONMENTAL ANALYSIS SCOPING MEETINGS

Issued: July 20, 2015

In the Matter of the Applications of Enbridge Energy, Limited Partnership for a Certificate of Need and a Pipeline Routing Permit for the Line 3 Pipeline Replacement Project in Minnesota from the North Dakota Border to the Wisconsin Border

Daniel P. Wolf, Executive Secretary
Public Utilities Commission

Public Utilities Commission (PUC) Docket Numbers: PL-9/CN-14-916 – Certificate of Need / PL-9/PPL-15-137 – Route Permit

Project Description

- Enbridge Energy, Limited Partnership (Enbridge) proposes to:
- Replace 282 miles of its existing 34-inch diameter Line 3 pipeline with 337 miles of 36-inch diameter pipeline
 - Follow the existing Line 3 from the Minnesota-North Dakota border to Clearbrook
 - Follow the same route proposed for the Sandpiper pipeline (PUC Docket Number 13-474) from Clearbrook to the Minnesota-Wisconsin border
 - Permanently deactivate the existing Line 3 in-place after the replacement pipeline is in service
 - Upgrade pump stations at Clearbrook, Donaldson, Plummer, and Viking
 - Build new pump stations at Backus, Cromwell, Palisade, and Two Inlets

The proposed project is located in Aitkin, Carlton, Cass, Clearwater, Crow Wing, Hubbard, Kittson, Marshall, Pennington, Polk, Red Lake, and Wadena counties.

Enbridge states the project is needed to address safety and integrity issues associated with the existing Line 3 pipeline.

Meeting Information

- Each meeting starts on time.
- Arrive a few minutes early so you have time to sign in, pick up materials, and find a seat.
- State agency staff members run the meetings.
- Public Utilities Commission, Department of Commerce, and Enbridge staff will be available to answer questions about the permitting process and the project.
- You may add verbal comments, written comments, or both into the record.
- The Department of Commerce uses comments received at the meeting and during the comment period to develop the environmental analysis for this project.

DATE AND TIME	MEETING LOCATION
Tuesday, August 11, 2015 11:00am	Hallock City Hall – Upstairs Auditorium 163 3rd Street SE, Hallock MN 56728
Tuesday, August 11, 2015 6:00pm	Newfolden Community Center 145 E. 1st Street, Newfolden MN 56738

Submit Comments, Alternative Routes, Route Segments, Project Alternatives Topics Open for Public Comment:

- Please focus your comments on information that will help answer the following questions.
- In your comments, please state which question(s) you are addressing.
 1. What human and environmental impacts should be studied in the environmental analysis?
 2. Are there any specific methods to address these impacts that should be studied in the environmental analysis?
 3. Are there any alternative routes or route segments that should be considered? (Related to the *Route Permit*)
If proposing an alternative route or route segment, consider the following:
 - o Does the alternative address an unavoidable impact?
 - o Does the alternative offer significant environmental or socioeconomic benefits compared to the proposed project?
 - o Is the alternative feasible and prudent?
 - o Does the alternative meet the described need and purpose for the project?
 4. Are there any alternatives to the project that should be considered? (Related to the *Certificate of Need*)
If proposing an alternative to the project, consider the following:
 - o Project size – can a smaller or larger sized project better meet the decision criteria?
 - o Project type – can a different method (for example, existing pipeline, rail, or truck) meet the need?
 - o Project timing – is the project needed now or in the future?
 - o Is the alternative feasible and prudent?
 - o Does the alternative meet the described need and purpose for the project?

Comment Period: Comments accepted through September 30, 2015
Please include the PUC Docket Numbers (above) in all communications.

Important: Comments will be made available to the public via the Public Utilities Commission's and the Department of Commerce's websites, except in limited circumstances consistent with the Minnesota Government Data Practices Act. Personally identifying information is not edited or deleted from submissions.

Process Information

Before the project can be built, the Public Utilities Commission (Commission) must approve both a certificate of need and a pipeline route permit. The certificate of need process determines the size, type and timing of the proposed pipeline and whether there is a better alternative for meeting Enbridge's stated need. The pipeline route permit process designates the route for the pipeline and associated facilities and conditions for right-of-way preparation, construction, clean-up, and restoration. This process studies alternative routes and route segments for the pipeline. At its July 1, 2015 meeting, the Commission determined Enbridge's certificate of need and pipeline route permit applications are complete. This means the company submitted all the information required to begin the review process. The Commission's decision-making process takes about twelve to fifteen months. Department of Commerce Energy Environmental Review and Analysis staff prepares an environmental analysis for the certificate of need and a comparative environmental analysis for the route permit.

After the environmental review in each proceeding is completed, an Administrative Law Judge (ALJ) holds public hearings. You may speak at the hearings, ask questions, and submit written comments about the project.

After the public hearings, the Commission reviews all the information in the record, including written comments and comments received at the public hearings. The Commission's final decisions on the Line 3 certificate of need and route permit are expected by October 2016.

Eminent Domain: If issued a route permit by the Commission, Enbridge may use the power of eminent domain to take land for this project.

Any new easement or right-of-way agreements reached between Enbridge and landowners before a pipeline route permit is issued will not be considered in the Commission's final decision.

NOTICE

NOTICE OF APPLICATION ACCEPTANCE - PUBLIC INFORMATION AND ENVIRONMENTAL ANALYSIS SCOPING MEETINGS

Issued: July 20, 2015

In the Matter of the Applications of Enbridge Energy, Limited Partnership for a Certificate of Need and a Pipeline Routing Permit for the Line 3 Pipeline Replacement Project in Minnesota from the North Dakota Border to the Wisconsin Border

Daniel P. Wolf, Executive Secretary
Public Utilities Commission

Public Utilities Commission (PUC) Docket Numbers: PL-9/CN-14-916 – Certificate of Need / PL-9/PPL-15-137 – Route Permit

Project Description

- Enbridge Energy, Limited Partnership (Enbridge) proposes to:
- Replace 282 miles of its existing 34-inch diameter Line 3 pipeline with 337 miles of 36-inch diameter pipeline
 - Follow the existing Line 3 from the Minnesota-North Dakota border to Clearbrook
 - Follow the same route proposed for the Sandpiper pipeline (PUC Docket Number 13-474) from Clearbrook to the Minnesota-Wisconsin border
 - Permanently deactivate the existing Line 3 in-place after the replacement pipeline is in service
 - Upgrade pump stations at Clearbrook, Donaldson, Plummer, and Viking
 - Build new pump stations at Backus, Cromwell, Palisade, and Two Inlets

The proposed project is located in Aitkin, Carlton, Cass, Clearwater, Crow Wing, Hubbard, Kittson, Marshall, Pennington, Polk, Red Lake, and Wadena counties.

Enbridge states the project is needed to address safety and integrity issues associated with the existing Line 3 pipeline.

Meeting Information

- Each meeting starts on time.
- Arrive a few minutes early so you have time to sign in, pick up materials, and find a seat.
- State agency staff members run the meetings.
- Public Utilities Commission, Department of Commerce, and Enbridge staff will be available to answer questions about the permitting process and the project.
- You may add verbal comments, written comments, or both into the record.
- The Department of Commerce uses comments received at the meeting and during the comment period to develop the environmental analysis for this project.

Process Information

Before the project can be built, the Public Utilities Commission (Commission) must approve both a certificate of need and a pipeline route permit.

The certificate of need process determines the size, type and timing of the proposed pipeline and whether there is a better alternative for meeting Enbridge's stated need.

The pipeline route permit process designates the route for the pipeline and associated facilities and conditions for right-of-way preparation, construction, clean-up, and restoration. This process studies alternative routes and route segments for the pipeline.

At its July 1, 2015 meeting, the Commission determined Enbridge's certificate of need and pipeline route permit applications are complete. This means the company submitted all the information required to begin the review process. The Commission's decision-making process takes about twelve to fifteen months.

Department of Commerce Energy Environmental Review and Analysis staff prepares an environmental analysis for the certificate of need and a comparative environmental analysis for the route permit.

After the environmental review in each proceeding is completed, an Administrative Law Judge (ALJ) holds public hearings. You may speak at the hearings, ask questions, and submit written comments about the project.

After the public hearings, the Commission reviews all the information in the record, including written comments and comments received at the public hearings. The Commission's final decisions on the Line 3 certificate of need and route permit are expected by October 2016.

Eminent Domain: If issued a route permit by the Commission, Enbridge may use the power of eminent domain to take land for this project.

Any new easement or right-of-way agreements reached between Enbridge and landowners before a pipeline route permit is issued will not be considered in the Commission's final decision.

Revised Affidavit of Publication Form
(Includes Language Required by 2015 Legislation, Chapter 14, Relating to
Mortgage Foreclosure Notices)

AFFIDAVIT OF PUBLICATION
[FORM Rev. 6/15]

STATE OF MINNESOTA)

) ss.
COUNTY OF St. Louis

Marvin Pirila being first duly sworn, on oath states as follows:

1. I am the publisher of the The Floodwood Forum [name of newspaper], or the publisher's designated agent. I have personal knowledge of the facts stated in this Affidavit, which is made pursuant to Minnesota Statutes §331A.07.

2. The newspaper has complied with all of the requirements to constitute a qualified newspaper under Minnesota law, including those requirements found in Minnesota Statutes §331A.02.

3. The dates of the month and the year and day of the week upon which the public notice attached/copied below was published in the newspaper are as follows:
[insert information]

4. The publisher's lowest classified rate paid by commercial users for comparable space, as determined pursuant to § 331A.06, is as follows: 756⁰⁰.

5. [NEW] Mortgage Foreclosure Notices [Effective 7/1/15]. Pursuant to Minnesota Statutes §580.033 relating to the publication of mortgage foreclosure notices: The newspaper's known office of issue is located in St. Louis County. The newspaper complies with the conditions described in §580.033, subd. 1, clause (1) or (2). If the newspaper's known office of issue is located in a county adjoining the county where the mortgaged premises or some part of the mortgaged premises described in the notice are located, a substantial portion of the newspaper's circulation is in the latter county.

FURTHER YOUR AFFIANT SAITH NOT.

NOTICE OF APPLICATION ACCEPTANCE - PUBLIC INFORMATION AND ENVIRONMENTAL ANALYSIS SCOPING MEETINGS

Issued: July 20, 2015

In the Matter of the Applications of Enbridge Energy, Limited Partnership for a Certificate of Need and a Pipeline Routing Permit for the Line 3 Pipeline Replacement Project in Minnesota from the North Dakota Border to the Wisconsin Border

Daniel P. Wolf, Executive Secretary
Public Utilities Commission

Public Utilities Commission (PUC) Docket Numbers: PL-9/CN-14-916 – Certificate of Need / PL-9/PPL-15-137 – Route Permit

Project Description

- Enbridge Energy, Limited Partnership (Enbridge) proposes to:
 - Replace 282 miles of its existing 34-inch diameter Line 3 pipeline with 337 miles of 36-inch diameter pipeline
 - Follow the existing Line 3 from the Minnesota-North Dakota border to Clearbrook
 - Follow the same route proposed for the Sandpiper pipeline (PUC Docket Number 13-474) from Clearbrook to the Minnesota-Wisconsin border
 - Permanently deactivate the existing Line 3 in-place after the replacement pipeline is in service
 - Upgrade pump stations at Clearbrook, Donaldson, Plummer, and Viking
 - Build new pump stations at Backus, Cromwell, Palisade, and Two Inlets

The proposed project is located in Aitkin, Carlton, Cass, Clearwater, Crow Wing, Hubbard, Kittson, Marshall, Pennington, Polk, Red Lake, and Wadena counties.

Enbridge states the project is needed to address safety and integrity issues associated with the existing Line 3 pipeline.

Meeting Information

- Each meeting starts on time.
- Arrive a few minutes early so you have time to sign in, pick up materials, and find a seat.
- State agency staff members run the meetings.
- Public Utilities Commission, Department of Commerce, and Enbridge staff will be available to answer questions about the permitting process and the project.
- You may add verbal comments, written comments, or both into the record.
- The Department of Commerce uses comments received at the meeting and during the comment period to develop the environmental analysis for this project.

DATE AND TIME	MEETING LOCATION
Tuesday, August 11, 2015 11:00am	Hallock City Hall – Upstairs Auditorium 163 3rd Street SE, Hallock MN 56728
Tuesday, August 11, 2015 6:00pm	Newfolden Community Center 145 E 1st Street, Newfolden MN 56738

Submit Comments, Alternative Routes, Route Segments, Project Alternatives Topics Open for Public Comment:

- Please focus your comments on information that will help answer the following questions.
- In your comments, please state which question(s) you are addressing.
 - What human and environmental impacts should be studied in the environmental analysis?
 - Are there any specific methods to address these impacts that should be studied in the environmental analysis?
 - Are there any alternative routes or route segments that should be considered? (Related to the *Route Permit*)
 - If proposing an alternative route or route segment, consider the following:
 - Does the alternative address an unavoidable impact?
 - Does the alternative offer significant environmental or socioeconomic benefits compared to the proposed project?
 - Is the alternative feasible and prudent?
 - Does the alternative meet the described need and purpose for the project?

- Are there any alternatives to the project that should be considered? (Related to the *Certificate of Need*)
 - If proposing an alternative to the project, consider the following:
 - Project size – can a smaller or larger sized project better meet the decision criteria?
 - Project type – can a different method (for example, existing pipeline, rail, or truck) meet the need?
 - Project timing – is the project needed now or in the future?
 - Is the alternative feasible and prudent?
 - Does the alternative meet the described need and purpose for the project?

Comment Period: Comments accepted through September 30, 2015
Please include the PUC Docket Numbers (above) in all communications.

Personally identifying information is not edited or deleted from submissions.

Process Information

Before the project can be built, the Public Utilities Commission (Commission) must approve both a certificate of need and a pipeline route permit.

The certificate of need process determines the size, type and timing of the proposed pipeline and whether there is a better alternative for meeting Enbridge's stated need.

The pipeline route permit process designates the route for the pipeline and associated facilities and conditions for right-of-way preparation, construction, clean-up, and restoration. This process studies alternative routes and route segments for the pipeline.

At its July 1, 2015 meeting, the Commission determined Enbridge's certificate of need and pipeline route permit applications are complete. This means the company submitted all the information required to begin the review process. The Commission's decision-making process takes about twelve to fifteen months.

Department of Commerce Energy Environmental Review and Analysis staff prepares an environmental analysis for the certificate of need and a comparative environmental analysis for the route permit.

After the environmental review in each proceeding is completed, an Administrative Law Judge (ALJ) holds public hearings. You may speak at the hearings, ask questions, and submit written comments about the project.

After the public hearings, the Commission reviews all the information in the record, including written comments and comments received at the public hearings. The Commission's final decisions on the Line 3 certificate of need and route permit are expected by October 2016.

Eminent Domain: If issued a route permit by the Commission, Enbridge may use the power of eminent domain to take land for this project.

Any new easement or right-of-way agreements reached between Enbridge and landowners before a pipeline route permit is issued will not be considered in the Commission's final decision.

NOTICE

NOTICE OF APPLICATION ACCEPTANCE - PUBLIC INFORMATION AND ENVIRONMENTAL ANALYSIS SCOPING MEETINGS

Issued: July 20, 2015

In the Matter of the Applications of Enbridge Energy, Limited Partnership for a Certificate of Need and a Pipeline Routing Permit for the Line 3 Pipeline Replacement Project in Minnesota from the North Dakota Border to the Wisconsin Border

Daniel P. Wolf, Executive Secretary
Public Utilities Commission

Public Utilities Commission (PUC) Docket Numbers: PL-9/CN-14-916 – Certificate of Need / PL-9/PPL-15-137 – Route Permit

Project Description

- Enbridge Energy, Limited Partnership (Enbridge) proposes to:
 - Replace 282 miles of its existing 34-inch diameter Line 3 pipeline with 337 miles of 36-inch diameter pipeline
 - Follow the existing Line 3 from the Minnesota-North Dakota border to Clearbrook
 - Follow the same route proposed for the Sandpiper pipeline (PUC Docket Number 13-474) from Clearbrook to the Minnesota-Wisconsin border
 - Permanently deactivate the existing Line 3 in-place after the replacement pipeline is in service
 - Upgrade pump stations at Clearbrook, Donaldson, Plummer, and Viking
 - Build new pump stations at Backus, Cromwell, Palisade, and Two Inlets

The proposed project is located in Aitkin, Carlton, Cass, Clearwater, Crow Wing, Hubbard, Kittson, Marshall, Pennington, Polk, Red Lake, and Wadena counties.

Enbridge states the project is needed to address safety and integrity issues associated with the existing Line 3 pipeline.

Meeting Information

- Each meeting starts on time.
- Arrive a few minutes early so you have time to sign in, pick up materials, and find a seat.
- State agency staff members run the meetings.
- Public Utilities Commission, Department of Commerce, and Enbridge staff will be available to answer questions about the permitting process and the project.
- You may add verbal comments, written comments, or both into the record.
- The Department of Commerce uses comments received at the meeting and during the comment period to develop the environmental analysis for this project.

Submit Comments, Alternative Routes, Route Segments, Project Alternatives Topics Open for Public Comment:

- Please focus your comments on information that will help answer the following questions.
- In your comments, please state which question(s) you are addressing.
 - What human and environmental impacts should be studied in the environmental analysis?
 - Are there any specific methods to address these impacts that should be studied in the environmental analysis?
 - Are there any alternative routes or route segments that should be considered? (Related to the *Route Permit*)
 - If proposing an alternative route or route segment, consider the following:
 - Does the alternative address an unavoidable impact?
 - Does the alternative offer significant environmental or socioeconomic benefits compared to the proposed project?
 - Is the alternative feasible and prudent?
 - Does the alternative meet the described need and purpose for the project?

- Are there any alternatives to the project that should be considered? (Related to the *Certificate of Need*)
 - If proposing an alternative to the project, consider the following:
 - Project size – can a smaller or larger sized project better meet the decision criteria?
 - Project type – can a different method (for example, existing pipeline, rail, or truck) meet the need?
 - Project timing – is the project needed now or in the future?
 - Is the alternative feasible and prudent?
 - Does the alternative meet the described need and purpose for the project?

Comment Period: Comments accepted through September 30, 2015
Please include the PUC Docket Numbers (above) in all communications.

Important: Comments will be made available to the public via the Public Utilities Commission's and the Department of Commerce's websites, except in limited circumstances consistent with the Minnesota Government Data Practices Act. Personally identifying information is not edited or deleted from submissions.

Process Information

Before the project can be built, the Public Utilities Commission (Commission) must approve both a certificate of need and a pipeline route permit.

The certificate of need process determines the size, type and timing of the proposed pipeline and whether there is a better alternative for meeting Enbridge's stated need.

The pipeline route permit process designates the route for the pipeline and associated facilities and conditions for right-of-way preparation, construction, clean-up, and restoration. This process studies alternative routes and route segments for the pipeline.

At its July 1, 2015 meeting, the Commission determined Enbridge's certificate of need and pipeline route permit applications are complete. This means the company submitted all the information required to begin the review process. The Commission's decision-making process takes about twelve to fifteen months.

Department of Commerce Energy Environmental Review and Analysis staff prepares an environmental analysis for the certificate of need and a comparative environmental analysis for the route permit.

After the environmental review in each proceeding is completed, an Administrative Law Judge (ALJ) holds public hearings. You may speak at the hearings, ask questions, and submit written comments about the project.

After the public hearings, the Commission reviews all the information in the record, including written comments and comments received at the public hearings. The Commission's final decisions on the Line 3 certificate of need and route permit are expected by October 2016.

Eminent Domain: If issued a route permit by the Commission, Enbridge may use the power of eminent domain to take land for this project.

Any new easement or right-of-way agreements reached between Enbridge and landowners before a pipeline route permit is issued will not be considered in the Commission's final decision.

NOTICE

NOTICE OF APPLICATION ACCEPTANCE - PUBLIC INFORMATION AND ENVIRONMENTAL ANALYSIS SCOPING MEETINGS

Issued: July 20, 2015

In the Matter of the Applications of Enbridge Energy, Limited Partnership for a Certificate of Need and a Pipeline Routing Permit for the Line 3 Pipeline Replacement Project in Minnesota from the North Dakota Border to the Wisconsin Border

Daniel P. Wolf, Executive Secretary
Public Utilities Commission

Public Utilities Commission (PUC) Docket Numbers: PL-9/CN-14-916 – Certificate of Need / PL-9/PPL-15-137 – Route Permit

Project Description

- Enbridge Energy, Limited Partnership (Enbridge) proposes to:
- Replace 282 miles of its existing 34-inch diameter Line 3 pipeline with 337 miles of 36-inch diameter pipeline
 - Follow the existing Line 3 from the Minnesota-North Dakota border to Clearbrook
 - Follow the same route proposed for the Sandpiper pipeline (PUC Docket Number 13-474) from Clearbrook to the Minnesota-Wisconsin border
 - Permanently deactivate the existing Line 3 in-place after the replacement pipeline is in service
 - Upgrade pump stations at Clearbrook, Donaldson, Plummer, and Viking
 - Build new pump stations at Backus, Cromwell, Palisade, and Two Inlets

The proposed project is located in Aitkin, Carlton, Cass, Clearwater, Crow Wing, Hubbard, Kittson, Marshall, Pennington, Polk, Red Lake, and Wadena counties.

Enbridge states the project is needed to address safety and integrity issues associated with the existing Line 3 pipeline.

Process Information

Before the project can be built, the Public Utilities Commission (Commission) must approve both a certificate of need and a pipeline route permit.

The certificate of need process determines the size, type and timing of the proposed pipeline and whether there is a better alternative for meeting Enbridge's stated need.

The pipeline route permit process designates the route for the pipeline and associated facilities and conditions for right-of-way preparation, construction, clean-up, and restoration. This process studies alternative routes and route segments for the pipeline.

At its July 1, 2015 meeting, the Commission determined Enbridge's certificate of need and pipeline route permit applications are complete. This means the company submitted all the information required to begin the review process. The Commission's decision-making process takes about twelve to fifteen months.

Department of Commerce Energy Environmental Review and Analysis staff prepares an environmental analysis for the certificate of need and a comparative environmental analysis for the route permit.

After the environmental review in each proceeding is completed, an Administrative Law Judge (ALJ) holds public hearings. You may speak at the hearings, ask questions, and submit written comments about the project.

After the public hearings, the Commission reviews all the information in the record, including written comments and comments received at the public hearings. The Commission's final decisions on the Line 3 certificate of need and route permit are expected by October 2016.

Eminent Domain: If issued a route permit by the Commission, Enbridge may use the power of eminent domain to take land for this project.

Any new easement or right-of-way agreements reached between Enbridge and landowners before a pipeline route permit is issued will not be considered in the Commission's final decision.

C. Mortgage Foreclosure Notices. Pursuant to Minnesota Statutes 580.033 relating to the publication of mortgage foreclosure notices: The newspaper's known office of issue is located in Carlton County. The newspaper complies with the conditions described in 580.033, subd. 1, clause (1) or (2). If the newspaper's known office of issue is located in a county adjoining the county where the mortgaged premises or some part of the mortgaged premises described in the notice are located, a substantial portion of the newspaper's circulation is in the latter county.

NOTICE

NOTICE OF APPLICATION ACCEPTANCE - PUBLIC INFORMATION AND ENVIRONMENTAL ANALYSIS SCOPING MEETINGS

Issued: July 20, 2015

Daniel P. Wolf, Executive Secretary
Public Utilities Commission

In the Matter of the Applications of Enbridge Energy, Limited Partnership for a Certificate of Need and a Pipeline Routing Permit for the Line 3 Pipeline Replacement Project in Minnesota from the North Dakota Border to the Wisconsin Border

Public Utilities Commission (PUC) Docket Numbers: PL-9/CN-14-916 – Certificate of Need / PL-9/PPL-15-137 – Route Permit

Project Description

- Enbridge Energy, Limited Partnership (Enbridge) proposes to:
- Replace 282 miles of its existing 34-inch diameter Line 3 pipeline with 337 miles of 36-inch diameter pipeline
 - Follow the existing Line 3 from the Minnesota-North Dakota border to Clearbrook
 - Follow the same route proposed for the Sandpiper pipeline (PUC Docket Number 13-474) from Clearbrook to the Minnesota-Wisconsin border
 - Permanently deactivate the existing Line 3 in-place after the replacement pipeline is in service
 - Upgrade pump stations at Clearbrook, Donaldson, Plummer, and Viking
 - Build new pump stations at Backus, Cromwell, Palisade, and Two Inlets

The proposed project is located in Aitkin, Carlton, Cass, Clearwater, Crow Wing, Hubbard, Kittson, Marshall, Pennington, Polk, Red Lake, and Wadena counties.

Enbridge states the project is needed to address safety and integrity issues associated with the existing Line 3 pipeline.

Meeting Information

- Each meeting starts on time.
- Arrive a few minutes early so you have time to sign in, pick up materials, and find a seat.
- State agency staff members run the meetings.
- Public Utilities Commission, Department of Commerce, and Enbridge staff will be available to answer questions about the permitting process and the project.
- You may add verbal comments, written comments, or both into the record.
- The Department of Commerce uses comments received at the meeting and during the comment period to develop the environmental analysis for this project.

DATE AND TIME	MEETING LOCATION

Submit Comments, Alternative Routes, Route Segments,

Project Alternatives

Topics Open for Public Comment:

- Focus your comments on information that will help answer the following questions.
- In your comments, please state which question(s) you are addressing.
 1. What human and environmental impacts should be studied in the environmental analysis?
 2. Are there any specific methods to address these impacts that should be studied in the environmental analysis?
 3. Are there any alternative routes or route segments that should be considered? (Related to the *Route Permit*)
 - If proposing an alternative route or route segment, consider the following:
 - o Does the alternative address an unavoidable impact?
 - o Does the alternative offer significant environmental or socioeconomic benefits compared to the proposed project?
 - o Is the alternative feasible and prudent?
 - o Does the alternative meet the described need and purpose for the project?
 4. Are there any alternatives to the project that should be considered? (Related to the *Certificate of Need*)
 - If proposing an alternative to the project, consider the following:
 - o Project size – can a smaller or larger sized project better meet the decision criteria?
 - o Project type – can a different method (for example, existing pipeline, rail, or truck) meet the need?
 - o Project timing – is the project needed now or in the future?
 - o Is the alternative feasible and prudent?
 - o Does the alternative meet the described need and purpose for the project?

Comment Period: Comments accepted through September 30, 2015
Please include the PUC Docket Numbers (above) in all communications.

St. Paul MN 55101

Fax: 651-539-0109

Important: Comments will be made available to the public via the Public Utilities Commission's and the Department of Commerce's websites, except in limited circumstances consistent with the Minnesota Government Data Practices Act. Personally identifying information is not edited or deleted from submissions.

Process Information

Before the project can be built, the Public Utilities Commission (Commission) must approve both a certificate of need and a pipeline route permit.

The certificate of need process determines the size, type and timing of the proposed pipeline and whether there is a better alternative for meeting Enbridge's stated need.

The pipeline route permit process designates the route for the pipeline and associated facilities and conditions for right-of-way preparation, construction, clean-up, and restoration. This process studies alternative routes and route segments for the pipeline.

At its July 1, 2015 meeting, the Commission determined Enbridge's certificate of need and pipeline route permit applications are complete. This means the company submitted all the information required to begin the review process. The Commission's decision-making process takes about twelve to fifteen months.

Department of Commerce Energy Environmental Review and Analysis staff prepares an environmental analysis for the certificate of need and a comparative environmental analysis for the route permit.

After the environmental review in each proceeding is completed, an Administrative Law Judge (ALJ) holds public hearings. You may speak at the hearings, ask questions, and submit written comments about the project.

After the public hearings, the Commission reviews all the information in the record, including written comments and comments received at the public hearings. The Commission's final decisions on the Line 3 certificate of need and route permit are expected by October 2016.

Eminent Domain: If issued a route permit by the Commission, Enbridge may use the power of eminent domain to take land for this project.

Any new easement or right-of-way agreements reached between Enbridge and landowners before a pipeline route permit is issued will not be considered in the Commission's final decision.

In the Matter of the Applications of Enbridge Energy, Limited Partnership for a Certificate of Need and a Pipeline Routing Permit for the Line 3 Pipeline Replacement Project in Minnesota from the North Dakota Border to the Wisconsin Border

Public Utilities Commission (PUC) Docket Numbers: PL-9/CN-14-916 – Certificate of Need / PL-9/PPL-15-137 – Route Permit

Project Description

- Enbridge Energy, Limited Partnership (Enbridge) proposes to:
- Replace 282 miles of its existing 34-inch diameter Line 3 pipeline with 337 miles of 36-inch diameter pipeline
 - Follow the existing Line 3 from the Minnesota-North Dakota border to Clearbrook
 - Follow the same route proposed for the Sandpiper pipeline (PUC Docket Number 13-474) from Clearbrook to the Minnesota-Wisconsin border
 - Permanently deactivate the existing Line 3 in-place after the replacement pipeline is in service
 - Upgrade pump stations at Clearbrook, Donaldson, Plummer, and Viking
 - Build new pump stations at Backus, Cromwell, Palisade, and Two Inlets

The proposed project is located in Aitkin, Carlton, Cass, Clearwater, Crow Wing, Hubbard, Kittson, Marshall, Pennington, Polk, Red Lake, and Wadena counties.

Enbridge states the project is needed to address safety and integrity issues associated with the existing Line 3 pipeline.

Meeting Information

- Meeting starts on time.
- Arrive a few minutes early so you have time to sign in, pick up materials, and find a seat.
- State agency staff members run the meetings.
- Public Utilities Commission, Department of Commerce, and Enbridge staff will be available to answer questions about the permitting process and the project.
- You may add verbal comments, written comments, or both into the record.
- The Department of Commerce uses comments received at the meeting and during the comment period to develop the environmental analysis for this project.

In the Matter of the Applications of Enbridge Energy, Limited Partnership for a Certificate of Need and a Pipeline Routing Permit for the Line 3 Pipeline Replacement Project in Minnesota from the North Dakota Border to the Wisconsin Border

Public Utilities Commission (PUC) Docket Numbers: PL-9/CN-14-916 - Certificate of Need / PL-9/PPL-15-137 - Route Permit

Project Description

Enbridge Energy, Limited Partnership (Enbridge) proposes to:

- Replace 282 miles of its existing 34-inch diameter Line 3 pipeline with 337 miles of 36-inch diameter pipeline
- Follow the existing Line 3 from the Minnesota-North Dakota border to Clearbrook
- Follow the same route proposed for the Sandpiper pipeline (PUC Docket Number 13-474) from Clearbrook to the Minnesota-Wisconsin border
- Permanently deactivate the existing Line 3 in-place after the replacement pipeline is in service
- Upgrade pump stations at Clearbrook, Donaldson, Plummer, and Viking
- Build new pump stations at Backus, Cromwell, Palisade, and Two Inlets

The proposed project is located in Aitkin, Carlton, Cass, Clearwater, Crow Wing, Hubbard, Kittson, Marshall, Pennington, Polk, Red Lake, and Wadena counties.

Enbridge states the project is needed to address safety and integrity issues associated with the existing Line 3 pipeline.

Meeting Information

- Meeting starts on time.
- Arrive a few minutes early so you have time to sign in, pick up materials, and find a seat.
- State agency staff members run the meetings.
- Public Utilities Commission, Department of Commerce, and Enbridge staff will be available to answer questions about the permitting process and the project.
- You may add verbal comments, written comments, or both into the record.
- The Department of Commerce uses comments received at the meeting and during the comment period to develop the environmental analysis for this project.

11:00am Meeting Agenda	
11:00-11:30	Formal presentations - • Public Utilities Commission • Enbridge • Department of Commerce
11:30-12:30	Citizen Comments
12:30-12:45	Break
12:45-2:00	Citizen Comments
2:00	Meeting Adjourns

Bad weather? Find out if a meeting is canceled. Call (toll-free) 1-855-731-6208 or 651-201-2213 or visit mn.gov/puc.

Submit Comments, Alternative Routes, Route Segments, Project Alternatives Topics Open for Public Comment:

- Please focus your comments on information that will help answer the following questions.
- In your comments, please state which question(s) you are addressing.
 1. What human and environmental impacts should be studied in the environmental analysis?
 2. Are there any specific methods to address these impacts that should be studied in the environmental analysis?
 3. Are there any alternative routes or route segments that should be considered? (Related to the *Route Permit*)
If proposing an alternative route or route segment, consider the following:
 - o Does the alternative address an unavoidable impact?
 - o Does the alternative offer significant environmental or socioeconomic benefits compared to the proposed project?
 - o Is the alternative feasible and prudent?
 - o Does the alternative meet the described need and purpose for the project?
 4. Are there any alternatives to the project that should be considered? (Related to the *Certificate of Need*)
If proposing an alternative to the project, consider the following:
 - o Project size - can a smaller or larger sized project better meet the decision criteria?
 - o Project type - can a different method (for example, existing pipeline, rail, or truck) meet the need?
 - o Project timing - is the project needed now or in the future?
 - o Is the alternative feasible and prudent?
 - o Does the alternative meet the described need and purpose for the project?

Comment Period: Comments accepted through September 30, 2015
Please include the PUC Docket Numbers (above) in all communications.

St. Paul MN 55101

Fax: 651-539-0109

Important: Comments will be made available to the public via the Public Utilities Commission's and the Department of Commerce's websites, except in limited circumstances consistent with the Minnesota Government Data Practices Act. Personally identifying information is not edited or deleted from submissions.

Process Information

- Before the project can be built, the Public Utilities Commission (Commission) must approve both a certificate of need and a pipeline route permit.

- The certificate of need process determines the size, type and timing of the proposed pipeline and whether there is a better alternative for meeting Enbridge's stated need.
- The pipeline route permit process designates the route for the pipeline and associated facilities and conditions for right-of-way preparation, construction, clean-up, and restoration. This process studies alternative routes and route segments for the pipeline.
- At its July 1, 2015 meeting, the Commission determined Enbridge's certificate of need and pipeline route permit applications are complete. This means the company submitted all the information required to begin the review process. The Commission's decision-making process takes about twelve to fifteen months.
- Department of Commerce Energy Environmental Review and Analysis staff prepares an environmental analysis for the certificate of need and a comparative environmental analysis for the route permit.
- After the environmental review in each proceeding is completed, an Administrative Law Judge (ALJ) holds public hearings. You may speak at the hearings, ask questions, and submit written comments about the project.
- After the public hearings, the Commission reviews all the information in the record, including written comments and comments received at the public hearings. The Commission's final decisions on the Line 3 certificate of need and route permit are expected by October 2016.
- **Eminent Domain:** If issued a route permit by the Commission, Enbridge may use the power of eminent domain to take land for this project.
- Any new easement or right-of-way agreements reached between Enbridge and landowners before a pipeline route permit is issued will not be considered in the Commission's final decision.

NOTICE

NOTICE OF APPLICATION ACCEPTANCE - PUBLIC INFORMATION AND ENVIRONMENTAL ANALYSIS SCOPING MEETINGS

Issued: July 20, 2015

In the Matter of the Applications of Enbridge Energy, Limited Partnership for a Certificate of Need and a Pipeline Routing Permit for the Line 3 Pipeline Replacement Project in Minnesota from the North Dakota Border to the Wisconsin Border

Daniel P. Wolf, Executive Secretary
Public Utilities Commission

Public Utilities Commission (PUC) Docket Numbers: PL-9/CN-14-916 – Certificate of Need / PL-9/PPL-15-137 – Route Permit

Project Description

- Enbridge Energy, Limited Partnership (Enbridge) proposes to:
- Replace 282 miles of its existing 34-inch diameter Line 3 pipeline with 337 miles of 36-inch diameter pipeline
 - Follow the existing Line 3 from the Minnesota-North Dakota border to Clearbrook
 - Follow the same route proposed for the Sandpiper pipeline (PUC Docket Number 13-474) from Clearbrook to the Minnesota-Wisconsin border
 - Permanently deactivate the existing Line 3 in-place after the replacement pipeline is in service
 - Upgrade pump stations at Clearbrook, Donaldson, Plummer, and Viking
 - Build new pump stations at Backus, Cromwell, Palisade, and Two Inlets

The proposed project is located in Aitkin, Carlton, Cass, Clearwater, Crow Wing, Hubbard, Kittson, Marshall, Pennington, Polk, Red Lake, and Wadena counties.

Enbridge states the project is needed to address safety and integrity issues associated with the existing Line 3 pipeline.

Meeting Information

- Each meeting starts on time.
- Arrive a few minutes early so you have time to sign in, pick up materials, and find a seat.
- State agency staff members run the meetings.
- Public Utilities Commission, Department of Commerce, and Enbridge staff will be available to answer questions about the permitting process and the project.
- You may add verbal comments, written comments, or both into the record.
- The Department of Commerce uses comments received at the meeting and during the comment period to develop the environmental analysis for this project.

Submit Comments, Alternative Routes, Route Segments, Project Alternatives

- Topics Open for Public Comment:**
- Please focus your comments on information that will help answer the following questions.
 - In your comments, please state which question(s) you are addressing.
 1. What human and environmental impacts should be studied in the environmental analysis?
 2. Are there any specific methods to address these impacts that should be studied in the environmental analysis?
 3. Are there any alternative routes or route segments that should be considered? (Related to the *Route Permit*)
If proposing an alternative route or route segment, consider the following:
 - o Does the alternative address an unavoidable impact?
 - o Does the alternative offer significant environmental or socioeconomic benefits compared to the proposed project?
 - o Is the alternative feasible and prudent?
 - o Does the alternative meet the described need and purpose for the project?
 4. Are there any alternatives to the project that should be considered? (Related to the *Certificate of Need*)
If proposing an alternative to the project, consider the following:
 - o Project size – can a smaller or larger sized project better meet the decision criteria?
 - o Project type – can a different method (for example, existing pipeline, rail, or truck) meet the need?
 - o Project timing – is the project needed now or in the future?
 - o Is the alternative feasible and prudent?
 - o Does the alternative meet the described need and purpose for the project?

Comment Period: Comments accepted through September 30, 2015
Please include the PUC Docket Numbers (above) in all communications.

Important: Comments will be made available to the public via the Public Utilities Commission's and the Department of Commerce's websites, except in limited circumstances consistent with the Minnesota Government Data Practices Act. Personally identifying information is not edited or deleted from submissions.

Process Information

Before the project can be built, the Public Utilities Commission (Commission) must approve both a certificate of need and a pipeline route permit.

The certificate of need process determines the size, type and timing of the proposed pipeline and whether there is a better alternative for meeting Enbridge's stated need.

The pipeline route permit process designates the route for the pipeline and associated facilities and conditions for right-of-way preparation, construction, clean-up, and restoration. This process studies alternative routes and route segments for the pipeline.

At its July 1, 2015 meeting, the Commission determined Enbridge's certificate of need and pipeline route permit applications are complete. This means the company submitted all the information required to begin the review process. The Commission's decision-making process takes about twelve to fifteen months.

Department of Commerce Energy Environmental Review and Analysis staff prepares an environmental analysis for the certificate of need and a comparative environmental analysis for the route permit.

After the environmental review in each proceeding is completed, an Administrative Law Judge (ALJ) holds public hearings. You may speak at the hearings, ask questions, and submit written comments about the project.

After the public hearings, the Commission reviews all the information in the record, including written comments and comments received at the public hearings. The Commission's final decisions on the Line 3 certificate of need and route permit are expected by October 2016.

Eminent Domain: If issued a route permit by the Commission, Enbridge may use the power of eminent domain to take land for this project.

Any new easement or right-of-way agreements reached between Enbridge and landowners before a pipeline route permit is issued will not be considered in the Commission's final decision.

AFFIDAVIT OF PUBLICATION

STATE OF MINNESOTA)
COUNTY OF HENNEPIN)

650 3rd Ave. S. Suite 1300 | Minneapolis, MN | 55488

Toni Ferdelman, being first duly sworn, on oath states as follows:

1. She is and during all times herein stated has been an employee of the Star Tribune Media Company LLC, a Delaware limited liability company with offices at 650 Third Ave. S., Suite 1300, Minneapolis, Minnesota 55488, or the publisher's designated agent. I have personal knowledge of the facts stated in this Affidavit, which is made pursuant to Minnesota Statutes §331A.07.

2. The newspaper has complied with all of the requirements to constitute a qualified newspaper under Minnesota law, including those requirements found in Minnesota Statutes §331A.02.

3. The dates of the month and the year and day of the week upon which the public notice attached/copied below was published in the newspaper are as follows:

Friday, July 31, 2015.

4. The publisher's lowest classified rate paid by commercial users for comparable space, as determined pursuant to § 331A.06, is as follows:

5. Mortgage Foreclosure Notices. Pursuant to Minnesota Statutes §580.033 relating to the publication of mortgage foreclosure notices: The newspaper's known office of issue is located in Hennepin County. The newspaper complies with the conditions described in §580.033, subd. 1, clause (1) or (2). If the newspaper's known office of issue is located in a county adjoining the county where the mortgaged premises or some part of the mortgaged premises described in the notice are located, a substantial portion of the newspaper's circulation is in the latter county.

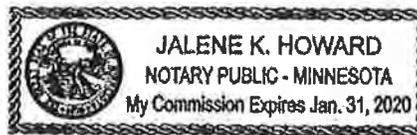

FURTHER YOUR AFFIANT SAITH NOT.

NOTICE

NOTICE OF APPLICATION ACCEPTANCE - PUBLIC INFORMATION AND ENVIRONMENTAL ANALYSIS SCOPING MEETINGS

Issued: July 20, 2015

Daniel P. Wolf, Executive Secretary
Public Utilities Commission

In the Matter of the Applications of Enbridge Energy, Limited Partnership for a Certificate of Need and a Pipeline Routing Permit for the Line 3 Pipeline Replacement Project in Minnesota from the North Dakota Border to the Wisconsin Border

Public Utilities Commission (PUC) Docket Numbers: PL-9/CN-14-916 – Certificate of Need / PL-9/PPL-15-137 – Route Permit

Project Description

- Enbridge Energy, Limited Partnership (Enbridge) proposes to:
- Replace 282 miles of its existing 34-inch diameter Line 3 pipeline with 337 miles of 36-inch diameter pipeline
 - Follow the existing Line 3 from the Minnesota-North Dakota border to Clearbrook
 - Follow the same route proposed for the Sandpiper pipeline (PUC Docket Number 13-474) from Clearbrook to the Minnesota-Wisconsin border
 - Permanently deactivate the existing Line 3 in-place after the replacement pipeline is in service
 - Upgrade pump stations at Clearbrook, Donaldson, Plummer, and Viking
 - Build new pump stations at Backus, Cromwell, Palisade, and Two Inlets

The proposed project is located in Aitkin, Carlton, Cass, Clearwater, Crow Wing, Hubbard, Kittson, Marshall, Pennington, Polk, Red Lake, and Wadena counties.

Enbridge states the project is needed to address safety and integrity issues associated with the existing Line 3 pipeline.

Meeting Information

- Each meeting starts on time.
- Arrive a few minutes early so you have time to sign in, pick up materials, and find a seat.
- State agency staff members run the meetings.
- Public Utilities Commission, Department of Commerce, and Enbridge staff will be available to answer questions about the permitting process and the project.
- You may add verbal comments, written comments, or both into the record.
- The Department of Commerce uses comments received at the meeting and during the comment period to develop the environmental analysis for this project.

Submit Comments, Alternative Routes, Route Segments, Project Alternatives Topics Open for Public Comment:

- Please focus your comments on information that will help answer the following questions.
- In your comments, please state which question(s) you are addressing.
 1. What human and environmental impacts should be studied in the environmental analysis?
 2. Are there any specific methods to address these impacts that should be studied in the environmental analysis?
 3. Are there any alternative routes or route segments that should be considered? (Related to the *Route Permit*)
If proposing an alternative route or route segment, consider the following:
 - o Does the alternative address an unavoidable impact?
 - o Does the alternative offer significant environmental or socioeconomic benefits compared to the proposed project?
 - o Is the alternative feasible and prudent?
 - o Does the alternative meet the described need and purpose for the project?
 4. Are there any alternatives to the project that should be considered? (Related to the *Certificate of Need*)
If proposing an alternative to the project, consider the following:
 - o Project size – can a smaller or larger sized project better meet the decision criteria?
 - o Project type – can a different method (for example, existing pipeline, rail, or truck) meet the need?
 - o Project timing – is the project needed now or in the future?
 - o Is the alternative feasible and prudent?
 - o Does the alternative meet the described need and purpose for the project?

Comment Period: Comments accepted through September 30, 2015
Please include the PUC Docket Numbers (above) in all communications.

Important: Comments will be made available to the public via the Public Utilities Commission's and the Department of Commerce's websites, except in limited circumstances consistent with the Minnesota Government Data Practices Act. Personally identifying information is not edited or deleted from submissions.

Process Information

Before the project can be built, the Public Utilities Commission (Commission) must approve both a certificate of need and a pipeline route permit.

The certificate of need process determines the size, type and timing of the proposed pipeline and whether there is a better alternative for meeting Enbridge's stated need.

The pipeline route permit process designates the route for the pipeline and associated facilities and conditions for right-of-way preparation, construction, clean-up, and restoration. This process studies alternative routes and route segments for the pipeline.

At its July 1, 2015 meeting, the Commission determined Enbridge's certificate of need and pipeline route permit applications are complete. This means the company submitted all the information required to begin the review process. The Commission's decision-making process takes about twelve to fifteen months.

Department of Commerce Energy Environmental Review and Analysis staff prepares an environmental analysis for the certificate of need and a comparative environmental analysis for the route permit.

After the environmental review in each proceeding is completed, an Administrative Law Judge (ALJ) holds public hearings. You may speak at the hearings, ask questions, and submit written comments about the project.

After the public hearings, the Commission reviews all the information in the record, including written comments and comments received at the public hearings. The Commission's final decisions on the Line 3 certificate of need and route permit are expected by October 2016.

Eminent Domain: If issued a route permit by the Commission, Enbridge may use the power of eminent domain to take land for this project.

Any new easement or right-of-way agreements reached between Enbridge and landowners before a pipeline route permit is issued will not be considered in the Commission's final decision.

Subject: Ad for August edition of Nahgahchiwanong Dibahjimowinnan

Zachary,

I spoke with you last week about running an ad on behalf of Enbridge in your August publication and you advised me that a copy of the ad needed to be submitted for approval to the council.

Attached please find a copy of the ad that we would respectfully ask that you run in your next edition regarding public meetings that will be taking place for the Line 3 Replacement project. The attached ad is formatted in two pages; if it is approved and you need adjusted sizing please let me know.

If you have any questions or need additional information please let me know. I can be reached at Julie.huber@nrg-llc.com or 612-215-6083.

Thank you for your consideration,
Julie Huber

Ms. Huber,

In some telephone and email conversations about advertising on Red Lake Nation News (www.redlakenationnews.com) we agreed on an advertising package for the Embridge Energy which would begin on or about July 26, 2015, and end at midnight on August 26, 2015. The size of the ads that would appear on www.redlakenationnews.com (Red Lake Nation News), would be 310x90 and 310x110 at a cost of \$200.00. This ad is currently up and running, and it will also be placed on my Facebook, where I have almost 4000 additional friends.

Red Lake Nation News thanks Embridge Energy for advertising with us. We will celebrate 12 years in September of this year and the average hits per month have increased to over 8,000,000 with the new and improved website which was re-launched in May 2011.

Upon your approval, payment is requested for \$200.00 for the one month contract.

Respectfully submitted,

Michael Barrett
RLNN

APPROVED

Walleye woes on Mille Lacs won't affect Minnesota diners
By Kristen Leigh Painter
Commercial walleye fishing is banned in Minnesota, so nearly all of the state's commercial walleye supply comes from Canada. Rest assured, Minnesota diners, you can still order walleye – blackened, fried or grilled. The Lake Mille Lacs walleye crisis has created a whirl of anxiety for resort owners, anglers and politicians. It has not, and

Jamin' at Little Elbow Lake Park

Photo by Rebecca Dallinger

The 3rd Annual Youth Seasonal Berry Camp was held July 21-23 at Little Elbow Lake Tribal Park. Seventy-five kids and adults from White Earth Boys and Girls Club and Leech Lake attended and picked berries, made strawberry jam, canoed, and got ready for ricing season by carving knockers.

The event was hosted by the White Earth Tribal and Community College Extension Service along with collaborative partners, White Earth Land Recovery Project and Leech Lake. This seasonal camp is sponsored by a Bush Foundation Community Innovation grant awarded to Leech Lake, White Earth, and Red Lake for the Minonjigewin (Someone is eating right) project; Revitalizing Traditional Anishinaabeg Connections Project.

Hill-Murray: Youth on a Mission

By Thomas Bement
White Earth Communications Manager

Situated in the northern St. Paul suburb of Maplewood is Hill-Murray Prep School. Home to over 720 students from grades 6-12, Hill-Murray prides itself in being an energetic community rich in tradition and grounded in their Lasallian and Benedictine values.

These values have shaped the lives of students both past and present, and are the building blocks for their mission to provide an excellent Catholic Benedictine education program for students of all faiths and races. Hill-Murray is committed to developing creative and responsible leaders who will provide effective moral leadership through Christian values, life-long learning, academic excellence, spiritual growth, and social development.

Hill-Murray also believes that strong communities intentionally care about their members, and approach community service and social justice with the teachings of the Catholic Church. Students are encouraged to share Jesus' mission by participating in community service.

These teachings, along with months of planning, brought a group of Hill-Murray students and staff to White Earth Nation from June 9-13. This partnership with White Earth Nation gave the mission group an opportunity to impact the lives of others while experiencing the rich history, traditions, and culture of the Ojibwe people. As our guests, the students immersed themselves into the communities of the reservation with the main goal of assisting our tribal elders and youth.

See Mission Page 25

Photos by Gary W. Padrta

Students from Hill-Murray Prep School spent a few days working at the Round House. They painted the interior and spruced up the landscape around the building and in the atrium.

White Earth member honors her grandmother

Marilyn Mitsch, a White Earth enrolled member, is dedicated to giving back in memory of her grandmother Anne Marie Fairbanks-Williams.

Anne Marie was born in 1893 in White Earth and attended St. Benedict's Mission School. She was known as an accomplished seamstress and that talent led to her being recruited to sew costumes for the Minneapolis Aquatennial and the Ice Capades.

Anne Marie lived to the age of 105 in St. Paul, Minnesota. Marilyn continues to honor the great influence her grandmother had on her life in many ways.

Thanks to Marilyn and Ron, the Anne Marie Fairbanks-Williams Scholarship Fund at Hamline University School of Law was created for Native American students.

Submitted photo

The Hill-Murray mission trip was made possible by Ron (left) and Marilyn Mitsch (right) who generously contributed not only their time and energy, but also were the main benefactors. Also, a special thank you to Sister Linda Soler (center) who served as the mission trip coordinator.

NOTICE

NOTICE OF APPLICATION ACCEPTANCE - PUBLIC INFORMATION AND ENVIRONMENTAL ANALYSIS SCOPING MEETINGS

Issued: July 20, 2015

In the Matter of the Applications of Enbridge Energy, Limited Partnership for a Certificate of Need and a Pipeline Routing Permit for the Line 3 Pipeline Replacement Project in Minnesota from the North Dakota Border to the Wisconsin Border
Public Utilities Commission (PUC) Docket Numbers: PL-9/CN-14-916 – Certificate of Need / PL-9/PPL-15-137 – Route Permit

Daniel P. Wolf, Executive Secretary
Public Utilities Commission

Project Description

- Enbridge Energy, Limited Partnership (Enbridge) proposes to:
- Replace 282 miles of its existing 34-inch diameter Line 3 pipeline with 337 miles of 36-inch diameter pipeline
 - Follow the existing Line 3 from the Minnesota-North Dakota border to Clearbrook
 - Follow the same route proposed for the Sandpiper pipeline (PUC Docket Number 13-474) from Clearbrook to the Minnesota-Wisconsin border
 - Permanently deactivate the existing Line 3 in-place after the replacement pipeline is in service
 - Upgrade pump stations at Clearbrook, Donaldson, Plummer, and Viking
 - Build new pump stations at Backus, Cromwell, Palisade, and Two Inlets

The proposed project is located in Aitkin, Carlton, Cass, Clearwater, Crow Wing, Hubbard, Kittson, Marshall, Pennington, Polk, Red Lake, and Wadena counties.

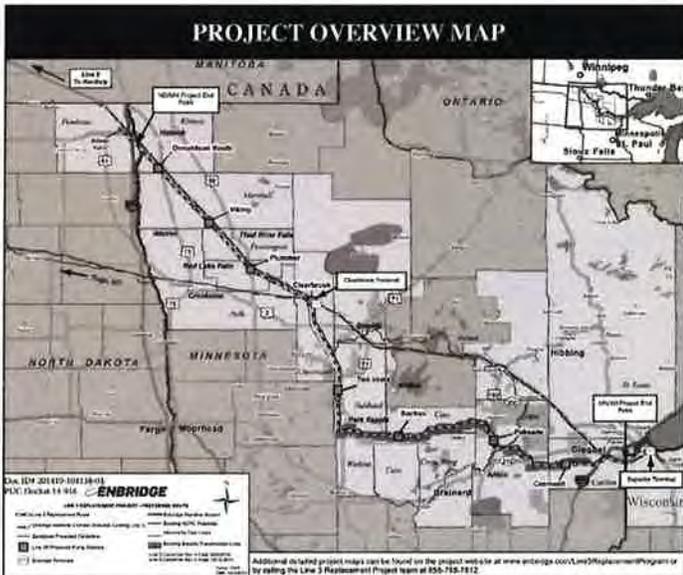

Enbridge states the project is needed to address safety and integrity issues associated with the existing Line 3 pipeline.

Meeting Information

- Each meeting starts on time.
- Arrive a few minutes early so you have time to sign in, pick up materials, and find a seat.
- State agency staff members run the meetings.
- Public Utilities Commission, Department of Commerce, and Enbridge staff will be available to answer questions about the permitting process and the project.
- You may add verbal comments, written comments, or both into the record.
- The Department of Commerce uses comments received at the meeting and during the comment period to develop the environmental analysis for this project.

Notice of Public Meetings on Proposed Pipeline

Minnesota communities along the route of the proposed Enbridge Energy oil pipeline will have an opportunity to weigh in on the debate during a series of public meetings that are being held this month. The public meetings will be held Aug. 11 through Aug. 26. Band members are strongly encouraged to attend the meetings.

Enbridge is required to obtain a route permit and certificate of need from the Minnesota Public Utilities Commission. The public meetings are a step in the state review, providing an opportunity for the public to share their views on the project.

Band members and others are welcome to share their concerns, suggestions, alternatives, or revisions regarding the proposed route. Written comments will be accepted through September 30; see below for instructions on submitting feedback.

The Calgary-based Enbridge Energy has proposed a \$7.5 billion pipeline project, including a 337-mile segment through Minnesota. The 36-inch diameter pipeline would stretch from Alberta, Canada to an Enbridge terminal in Superior, Wisconsin, North Dakota has approved its half of the 610-mile pipeline. Enbridge hopes the pipeline will be under construction in 2016 and finished the following year.

Meeting Information

- Each meeting begins on time.
- Attendees should arrive early to sign in, pick up materials, and find a seat.
- The meetings are led by state agency staff members.
- Public Utilities Commission, Department of Commerce, and Enbridge staff will be available to answer questions about the permitting process and the project.
- Both written and verbal comments will be added to the record.
- The Department of Commerce will use meeting comments and those offered during the comment period to develop the environmental analysis for this project.

11 a.m. Meeting Agenda

- 11 to 11:30 a.m. Formal presentations:
 - Public Utilities Commission
 - Enbridge Energy
 - Department of Commerce
- 11:30 a.m. to 12:30 p.m. Citizen Comments
- 12:30 to 12:45 p.m. Break
- 12:45 to 2:00 p.m. Citizen Comments
- 2 p.m. Meeting Adjourns

6 p.m. Meeting Agenda

- 6 to 6:30 p.m. Formal presentations:
 - Public Utilities Commission
 - Enbridge
 - Department of Commerce
- 6:30 to 7:30 p.m. Citizen Comments

- 7:30 to 7:45 p.m. Break
- 7:45 to 9 p.m. Citizen Comments
- 9 p.m. Meeting Adjourns

State May Shut Down Mille Lacs Walleye Harvest

The Minnesota Department of Natural Resources announced July 21 that state walleye anglers are nearing their harvest quota on Mille Lacs.

After the next creel report is received, Minnesota DNR Commissioner Tom Landwehr will take the necessary actions. If the state determines it has exceeded its harvest allotment, the commissioner will be legally required to suspend fishing for walleye on the lake.

At a meeting at the governor's residence on Monday, July 20, Gov. Mark Dayton informed Chief Executive Melanie Benjamin and Mille Lacs Band DNR Commissioner Susan Klapel of the news.

Gov. Dayton has directed the DNR to wait until after

the next creel survey, which will cover the period from July 16 to July 31, to see if the most recent numbers are an aberration. During that time, officials at the DNR, the Office of Tourism, and Department of Employment and Economic Development will meet with resort owners and other affected stakeholders on Mille Lacs to discuss the situation and seek recommendations.

Susan Klapel told Band members at the District III community meeting that the state's action will not affect Band members, who have not yet reached their walleye quota.

Despite the ongoing challenges with the walleye population, other fishing on the lake remains strong and near record highs. DNR Commissioner Landwehr stressed that anglers

should take advantage of the continuation of liberal northern pike and smallmouth bass regulations on the lake.

"Mille Lacs Lake remains one of the premiere fishing destinations in the state," Landwehr said. "Northern pike and smallmouth bass are at or near record highs. Anglers should take advantage of the liberal regulations for these species. DNR tagging studies also indicate that muskies larger than 50 inches have never been more abundant."

The Mille Lacs Area Tourism Council is also encouraging tourists and anglers to find other ways to "do the lake." State officials met with Mille Lacs business owners on Thursday, July 23, to discuss ways to help the business climate.

Notice of Public Meetings on Proposed Pipeline

By Mille Lacs Band of Ojibwe, July 30, 2015

Minnesota communities along the route of the proposed Enbridge Energy oil pipeline will have an opportunity to weigh in on the debate during a series of public meetings that are being held this month. The public meetings will be held Aug. 11 through Aug. 26. Band members are strongly encouraged to attend the meetings.

Enbridge is required to obtain a route permit and certificate of need from the Minnesota Public Utilities Commission. The public meetings are a step in the state review, providing an opportunity for the public to share their views on the project.

Band members and others are welcome to share their concerns, suggestions, alternatives, or revisions regarding the proposed route. Written comments will be accepted through September 30; see below for instructions on submitting feedback.

The Calgary-based Enbridge Energy has proposed a \$7.5 billion pipeline project, including a 337-mile segment through Minnesota. The 36-inch diameter pipeline would stretch from Alberta, Canada to an Enbridge terminal in Superior, Wisconsin. North Dakota has approved its half of the 610-mile pipeline. Enbridge hopes the pipeline will be under construction in 2016 and finished the following year.

Meeting Information

- Each meeting begins on time.
- Attendees should arrive early to sign in, pick up materials, and find a seat.
- The meetings are led by state agency staff members.
- Public Utilities Commission, Department of Commerce, and Enbridge staff will be available to answer questions about the permitting process and the project.
- Both written and verbal comments will be added to the record.
- The Department of Commerce will use meeting comments and those offered during the comment period to develop the environmental analysis for this project.

Affidavit of Publication

State of Minnesota)
) ss.
County of Aitkin)

John Grones, being duly sworn, on oath says that he/she is the publisher or authorized agent and employee of the publisher of the newspaper known as the Voyageur Press of McGregor, and has full knowledge of the facts which are stated below:

(A) The newspaper has complied with all of the requirements constituting qualifications as a qualified newspaper, as provided by Minnesota Statute 331A.02, 331A.07, and other applicable laws, as amended.

(B) The printed public notice that is attached was published in the newspaper on the following dates:

August 25, 2015

Printed below is a copy of the lower case alphabet from A to Z, both inclusive, which is hereby acknowledged as being the size of and type used in the composition and publication of the notice:

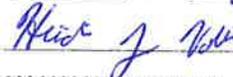

Humanist 521 BT, 8 point font, abcdefghijklmnopqrstuvwxyz

Pursuant to Minnesota Statutes 580.033 relating to publication of mortgage foreclosure notices: The newspaper's known office of issue is located in Aitkin County. The newspaper complies with the conditions described in statutes 580.033, subd. 1, clause (1) or (2). If the newspaper's known office of issue is located in a county adjoining the county where the mortgaged premises or some part of the mortgaged premises described in the notice are located, a substantial portion of the newspapers's circulation is in the latter county.

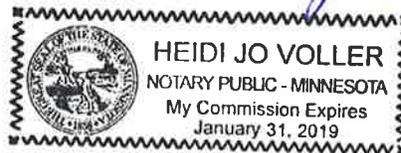

John Grones, Publisher
