Subject: Cannon Falls proposed electric plant

Bill, You may not be the appropriate person to receive this comment, but I am deeply troubled by giving a property tax break to a business to make it more feasible to proceed. I am the chair of the Cannon Falls school board, and the small amount of money from this project that the school district would get is quite unfair. Schools have had a very difficult time as it is with the state taking over general fund resources without us giving more breaks to businesses. Thank you for this chance to comment on the project. Sincerely, Dick Peterson
