Attachment C-1 – Performance-based Agreement (PBA) for Placement and Retention Services

Vocational Rehabilitation Services (VRS) purchases job placement services exclusively through this agreement for eligible persons from a qualified provider that complies with the provisions of the contract. Job placement services are intended for individuals who require assistance finding competitive employment (with or without ongoing employment support services) consistent with their strengths, resources, priorities, concerns, abilities, capabilities, interests and informed choice. VRS also purchases other services on a fee-for-service basis as identified as Attachment B – Fee for Service Rate Schedule.

Scope of Placement and Retention Services

Placement services assist persons served to obtain employment in a competitive job consistent with the *Individual Employment Plan* (IEP) developed by the person served and the VRS counselor. Frequent verbal communication is necessary among all parties. The community rehabilitation provider (CRP) is required to meet with the person served and the VRS counselor for the completion of the placement plan and at 90-day intervals to review the progress of the person served until the PBA is closed. The CRP must contact VRS when the person served has achieved job stabilization in supported employment outcomes as it is at stabilization that Vocational Rehabilitation Services can consider the consumer has moved out of training and into employment and the 90-day follow-up period starts. CRPs will not be paid until 90 days after stabilization has occurred and VRS will not close the case at 90 days past the job hire in supported employment cases. During this 90-day period, VRS will provide follow-up to ensure that the long-term supports are adequately meeting the consumer's needs. Placement services may not result in center-based employment or participation in a work crew or enclave. Nor can a CRP hire the person served as an employee and receive the PBA milestone payment as there would be an implicit and explicit conflict of interest between the role of service provider and the role of employer. PBA service is intended to pay for the CRP's efforts in seeking and securing employment with another employer. Any party can discontinue the relationship if job placement and retention plan objectives are not being met or progress is not being achieved. The party who wishes to discontinue the relationship must contact the other parties involved.

Placement services may include:

- **Intake** - community rehabilitation providers and consumers must agree that there is a "good fit," a provider may wish to review referral information or interview a potential consumer. These activities are considered "intake" and are included in the PBA fee. The community rehabilitation provider is not committed to working with a consumer until the provider signs the job placement and job retention plan.
- **Job Development** – using community resources and contacting employers to identify current job opportunities; assessing the characteristics of persons served and job tasks to focus efforts on jobs most likely to result in satisfying job matches; educating employers about the benefits of hiring people with disabilities; etc.
- **Job Seeking Skills** - assisting persons served to develop the skills necessary to successfully complete activities leading to employment, such as: completing an application, developing a

resume, conducting online job searches, writing cover letters, interviewing, writing thank you letters/following up after interviews, etc.

- **Job Site Training** – Before the person served accepts a job offer, to assist persons served become knowledgeable about potential job duties, personnel benefits, rates of pay, employment policies and practices, transportation to work, etc. to enable the person served in making an informed decision, and to assist potential employers identify, modify, or eliminate architectural, procedural, instructional, attitudinal, or communication barriers to achieve the employment and advancement of persons with disabilities etc.

Retention services may include:

- **Job Site Training** - Job coaching to promote adequate job adjustment and ensure satisfaction of the person served and the employer to perform work duties, training and assistance with work behaviors, development and facilitation of natural supports and assistance to the employer and coworkers to assist the person served to retain or advance in employment. Job coaching, in this context, is time limited to promote job retention for persons who are competitively employed.
- **Job Supports** – Job coaching to maintain contact, or follow-up, with the person served and employer to ensure ongoing satisfaction of both parties. May include providing group or individual training and/or “refresher” training on techniques for maintaining employment, including: dealing with conflict, changes or personal issues affecting job performance, asking for a raise, career development, or a new job, etc. May include providing routine on-site job analysis, consultation, and recommendations for work site and job modification, when appropriate. Job coaching, in this context, is not time-limited and may be referred to as supported employment or extended services for persons with the most significant disabilities.

Milestone Payments

The 1st and 2nd milestone authorization will be completed by the counselor in advance of the initial placement plan meeting. The 3rd milestone authorization will be entered following the counselor being notified of the completion of the first full shift of work. CRPs must provide written reports on all services when they invoice for milestone payments. Payment of a milestone will constitute payment in full for all services delivered during that phase of the program. The provider is required to meet with the person served and VRS counselor to develop the placement plan, and at 90 day intervals until the final milestone is achieved. If the placement and job retention plan is amended significantly (e.g., the employment goal or services change substantially, or there is a significant time when the consumer is unavailable for services) a new PBA can be started. A maximum of \$3,800 will be paid, in the following increments, as milestone events are achieved and the required documentation is received by the State: Signed Placement Plan \$1,000; Job Hire \$1,300; Successful Placement \$1,500.

Milestone Events and Required Documentation

Signed Placement Plan. A signed *Placement and Retention Plan* is developed at a face-to-face meeting involving the person served, the community rehabilitation provider and the VRS counselor. The plan identifies the job goal, defines the roles and responsibilities of each of the three parties, and creates a consensus about the desired outcome. The plan must be signed by all three parties. The

required documentation for each placement plan shall include: date; person served and telephone number(s); employment goal(s); expected employment outcome including number of hours per week, benefits, wages, and any special considerations such as physical limitations and/or job accommodations, days of the week, transportation needs, geographic limitations, child care or therapy needs, etc.; and the responsibilities of each party, the person served, VRS counselor, and service provider.

Job Hire. Job hire is the first complete, paid shift worked by the person served in the integrated labor market. If the person served loses his or her job prior to achieving the final milestone, the consumer is re-placed by the provider with no additional payment. The required documentation for each placement plan shall include: date, person served, date of first day of work, job title, job responsibilities, wage, benefits, number of hours per week, work schedule, employer and address, and any accommodations made to enable the person served to perform the job. The documentation shall be signed by Contractor's assigned placement staff or communicated via email whereby no signature is required.

Successful Placement. The person served has achieved the employment outcome that is described in the individual's IPE, consistent with the individual's strengths, resources, priorities, concerns, abilities, capabilities, interests and informed choice, and is in the most integrated setting possible consistent with the person's informed choice. The person served has maintained the employment outcome for an appropriate period of time, but not less than 90 days, necessary to ensure the stability of the employment outcome, and the person served no longer needs vocational rehabilitation services. At the end of the appropriate period, the individual and the VRS counselor consider the employment outcome to be satisfactory and agree that the individual is performing well in the employment. The following documentation shall be provided by Contractor before Contractor shall be entitled to claim the successful placement milestone event and payment: date; employer and address; hire date; job title; job responsibilities; wage; benefits; number of hours per week; work schedule; accommodations; ongoing employment support needs; employer comments on job performance; person served comments on job satisfaction; and the signature of Contractor's assigned placement personnel.
