**RE: Phase I Environmental Site Assessment
Vacant 4.86 Acre Lot-Centennial Industrial Park
(Property ID: 16.128.0020)
NW Quadrant of Isanti Parkway and East Dual Blvd NE
Isanti, Minnesota
Pinnacle Project Number: R011981.000**

Dear Mr. Bittner:

Pinnacle Engineering, Inc. (Pinnacle) has performed a Phase I Environmental Site Assessment, in conformance with the scope and limitations of ASTM Practice E 1527-05, of the vacant 4.86 acre lot (Property ID: 16.128.0020) located in the northwest quadrant of Isanti Parkway NW and East Dual Boulevard NE in Isanti, Isanti County, Minnesota (Site). Our assessment has revealed no ASTM recognized environmental conditions in connection with the Site.

If you have any questions or wish to discuss any particular aspect of the project, please feel free to contact me at (763) 277-8436. We look forward to being of continued service to you.

Sincerely,

PINNACLE ENGINEERING, INC.

A handwritten signature in black ink, appearing to read "Mary Rivard", is written over a horizontal line.

Mary Rivard, PG
Senior Project Manager

1.0 INTRODUCTION

1.1 Purpose

Mr. Kevin Bittner of Bolton & Menk retained Pinnacle Engineering, Inc. (Pinnacle) to conduct a Phase I Environmental Site Assessment (Phase I) of the vacant 4.86 acre industrial lot located in the northwest quadrant of Isanti Parkway NW and East Dual Boulevard NE in Isanti, Isanti County, Minnesota (Site). We understand that Bolton & Menk is working with the City of Isanti and the property is for sale. This assessment was performed in accordance with Pinnacle's proposal dated June 29, 2011, which was authorized by Mr. Bittner.

The purpose of this assessment is to evaluate the potential for ASTM recognized environmental conditions, as defined in Section 1.2, at the Site.

1.2 Scope of Work

Pinnacle's scope of work for this Phase I conforms to the American Society for Testing and Materials (ASTM) Practice E 1527-05: Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process. The purpose of this standard practice is to define good commercial and customary practice for conducting a Phase I of a parcel of commercial real estate with respect to the range of contaminants within the scope of Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and petroleum products. As such, this practice is intended to permit a user to satisfy one of the requirements for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on CERCLA liability, i.e. landowner liability protections. The ASTM standard is designed to meet the criteria mandated by CERCLA for "all appropriate inquiry" into the previous ownership and uses of the property consistent with good commercial or customary practice.

In defining a standard of good commercial and customary practice for conducting a Phase I of a parcel of property, the goal of the ASTM practice is to identify *recognized environmental conditions*. The term *recognized environmental conditions* means the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water of the property. The term includes hazardous substances or petroleum products even under conditions in compliance with laws. The term is not intended to include de minimus conditions that generally do not present a material risk of harm to public health or the environment and

that generally would not be the subject of an enforcement action if brought to the attention of appropriate government agencies.

The specific scope of work for this Phase I involved the following:

- A review of the readily available topographic, geological, and hydrogeological information relating to the Site and the surrounding area.
- A review of the readily available historical land use information, including topographic maps, Sanborn fire insurance maps, aerial photographs and title information relating to the Site and surrounding area.
- A limited review of the federal, state, and local regulatory information for potential environmental hazards on and within a one-mile radius of the Site.
- Interviews of the current property owner and other persons that have or might have knowledge of the current or past uses of the Site.
- Visual characterization and observation of the Site and adjacent properties, to the extent practical, to determine the presence of potential environmental hazards.
- Preparation and submittal of a written report summarizing the findings of the Phase I Environmental Site Assessment.

1.3 Limitations and Exceptions

There were no deviations from the ASTM standard practice during the preparation of this report. The ASTM standard practice does not include an evaluation of asbestos-containing materials, radon, lead-based paint, lead in drinking water, building conditions, or a determination of whether the facility is in compliance with environmental or health and safety rules and regulations.

1.4 Standard of Care

This report has been prepared for the exclusive use of Bolton & Menk, Inc. and the City of Isanti. No other parties may rely on the contents of this report unless authorization is obtained from Bolton & Menk and the City of Isanti. Environmental services performed by Pinnacle scientists and engineers for the project have been conducted in a manner consistent with the degree of care and technical skill appropriately exercised by environmental professionals currently practicing in this area. Recommendations or

opinions contained in this report represent our professional judgment and are generally based upon available information and currently accepted practices for environmental professionals. Other than this, no warranty is expressed, nor is it implied. Information in this report obtained during interviews was accepted in good faith. Information obtained through databases is limited to the accuracy of those databases.

2.0 SITE DESCRIPTION

2.1 Site Location

The Site is located east of a Burlington Northern Santa Fe railroad track in the northwest quadrant of Isanti Parkway NW and East Dual Boulevard NE in Isanti, Isanti County, Minnesota. The Site is within the $\text{GW } \frac{1}{4}$ of the $\text{GW } \frac{1}{4}$ of Section 28, Township 35 North, Range 23 West, as reviewed on the Isanti, MN 7.5' Quadrangle Map (Figure 1).

2.2 Current Use

The Site is currently consists of 4.86 acres of undeveloped land within the Centennial Industrial Park. The layout of the Site is shown on Figure 2.

2.3 Adjoining Properties

Properties adjacent to the Site are as listed below. It is noted that the adjacent property observations were restricted to lines of sight from the Site and/or public streets, sidewalks, and/or alleys.

North:	Light industrial facilities.
South:	A light industrial facility, beyond which is Isanti Parkway NW.
East:	East Dual Boulevard NE, beyond which are light industrial facilities and a wetland.
West:	A BNSF Railroad track, beyond which is vacant land

3.0 USER PROVIDED INFORMATION

Pinnacle received a completed ASTM User Questionnaire from Mr. Kevin Bittner, who is defined as the user of the Phase I under the ASTM standard. Mr. Bittner reported that he is unaware of any engineering controls, land use restrictions, or institutional controls that are in place at the Site or recorded in a registry under federal, tribal, state or local law. Mr. Bittner also reported that the price being paid for the property reflects

fair market value and the last use of the property was agricultural. Mr. Bittner did not know of any specific chemical usage, spills, or environmental cleanups that have occurred at the Site. A copy of the User Questionnaire is included in Appendix A.

4.0 PHYSICAL RECORDS REVIEW

Published information that was reviewed included United States Geological Survey (USGS) 7.5' Quadrangle maps, hydrogeological maps, geologic atlases, and the Minnesota Geological Survey (MGS) County Well Index (CWI).

4.1 Topographic Review

The Site is located on relatively level ground with an elevation of approximately 950 feet above mean sea level (MSL), as reviewed on the Isanti, MN USGS quadrangle map. Based on our Site observations, surficial drainage is to the local storm sewer system.

4.2 Geological Review

According to published information, surficial geology of the area consists of surficial outwash deposits comprised primarily of sand and gravel (Ericson, D.W. et. al). The uppermost bedrock beneath the Site likely consists of the Ironton and Galesville formations (Ericson, D.W. et. al.). The Ironton formation consists of white to gray, medium-grained, moderately well to poorly sorted, commonly silty sandstone (Ericson, D.W. et. al.). The Galesville consists of white to gray, predominately medium-grained and well sorted sandstone (Ericson, D.W. et. al.). Bedrock occurs at an approximate elevation of 550 feet MSL, or about 100 feet below the ground surface (BGS) (Ericson, D.W. et. al.).

4.3 Hydrogeological Review

Published hydrogeological maps indicate the groundwater in the area flows in a westerly direction toward the Rum River, subject to local variations. The groundwater occurs at approximately 925 feet above mean sea level (approximately 25 feet BGS). (Ericson, D.W. et. al.). Site-specific groundwater flow conditions may be influenced by a variety of factors including, but not limited to, local topography, geologic anomalies, utilities, nearby wells or sumps, and local drainage patterns. Site-specific groundwater flow information would require a groundwater investigation, which is beyond the scope of this Phase I Environmental Assessment.

4.4 Wells

Pinnacle reviewed well records in the CWI for the area of the Site. These well records were compiled by the MGS from drilling contractor records and well log records submitted to the Minnesota Department of Health (MDH). No wells were identified at the Site in the CWI.

5.0 HISTORICAL RECORDS REVIEW

Historical resources were examined to determine the past land usage of the Site and to identify land uses on nearby properties that could have had an environmental impact on the Site. Available sources of historical information that were researched during preparation of this report included historical topographic maps, Sanborn fire insurance maps, City directories, aerial photographs, and information available on the internet.

The ASTM standard requires that all obvious uses of the property be identified back to the property's obvious first developed use (including agricultural use), or to 1940, whichever is earlier, through a review of potentially useful, reasonably ascertainable, standard historical sources. The earliest, potentially useful, reasonably ascertainable, standard historical source available for the Site dated to 1938.

5.1 Historical Topographic Maps

The USGS Isanti and Cambridge, Minnesota quadrangle maps dated 1974 depicted the Site as vacant land situated east of a BNSF railroad track, west of a wetland and State Highway 65 on the north side of the City of Isanti.

5.2 Aerial Photograph Review

Aerial photos of the Site and surrounding area for the years 1938, 1953, 1957, 1965, 1973 and 1991 were obtained from the University of Minnesota and were reviewed by Pinnacle. A more recent 2006 aerial photo was also obtained from Google Earth™. The reviewed photos are included in Appendix B.

All of the reviewed photos were generally similar and depicted the Site as vacant agricultural land situated east of a railroad track, west of a wetland and State Highway 65. An unimproved road appeared in the general area of the Site in all of the reviewed photos and a north/south oriented tree row/wind break appeared in the eastern portion of the Site in the 1991 and 2006 photo.

6.0 REGULATORY RECORDS REVIEW

EDR was commissioned to compile federal and state database information regarding potential environmental concerns at or within specified distances of the Site. Unless stated otherwise in this section, the scope of Pinnacle's review includes regulatory agency files pertaining to specific sites that may have been identified. In addition, the EDR report listed several other locations, called "orphans", facilities that could not be precisely located due to inadequate address information. During the Site visit, Pinnacle observed the Site and the surrounding area to determine if any of these listings correspond to the Site or adjacent properties. Any facilities identified by Pinnacle within the immediate vicinity of the Site are discussed in the appropriate database section. The number of listings identified on each database searched, and their appropriate locations with respect to the Site, are located as shown on Figure 3. A copy of the EDR Report is included in Appendix C. Refer to the executive summary of the EDR Report for a detailed description of each database that is searched in their evaluation, as well as additional information about the individual listings and a full listing of all databases searched.

NOTES:

TP = Target Property

NR = Not Requested at this Search Distance

Sites may be listed in more than one database

Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS)

The Comprehensive Environmental Response, Compensation and Liability Information System contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

- A review of the CERCLIS list, as provided by EDR, has revealed one CERCLIS listing within a ½-mile radius of the Site.

RCRA-CESQG

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

- A review of the RCRA-CESQG list, as provided by EDR, has revealed four RCRA-CESQG listings within a ¼-mile radius of the Site.

Leaking Underground Storage Tank (LUST)

The Leaking Underground Storage Tank (LUST) Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Minnesota Pollution Control Agency's Leak Sites list.

- A review of the LUST list, as provided by EDR, has revealed one LUST listing within a ½-mile radius of the Site.

RCRA-NonGen

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

- A review of the RCRA-NonGen list, as provided by EDR, has revealed three RCRA-NonGen listings within a ¼-mile radius of the Site.

MN LS

The List of Sites (MN LS) includes: Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS), No Further Remedial Action Planned (NFRAP), National Priorities List (NPL), Permanent List of Priorities (PLP), Sites delisted from the Permanent List of Priorities (DPLP), Hazardous Waste Permit Unit Project Facilities (HW PERM), List of Permitted Solid Waste Facilities (NW PERM), 1980 Metropolitan Area Waste Disposal Site Inventory, 1980 Statewide Outstate Dump Inventory (ODI), Voluntary and Investigation Program (VIC), and Closed Landfill Sites Undergoing Cleanup (LCP). The List of Sites comes from the Minnesota Pollution Control Agency.

- A review of the MN LS list, as provided by EDR, has revealed one MN LS listing within a ½-mile radius of the Site.

WIMN

Since 2003, the MPCA's "What's in My Neighborhood (WIMN)?" database has provided information about air quality, hazardous waste, remediation, solid waste, tanks and leaks, and water quality around Minnesota.

- A review of the WIMN list, as provided by EDR, has revealed twenty-two WIMN listing within ½ mile of the Site.

7.0 INTERVIEWS

Pinnacle received a completed Phase I interview from Mr. Sean Sullivan, the Economic Development Director for the City of Isanti, and Mr. Kevin Bittner, Assistant City Engineer, for information pertaining to the Site. A copy of the interview form is included in Appendix D. In addition, Pinnacle interviewed Mr. Sullivan during the Site reconnaissance. Mr. Sullivan and Mr. Bittner reported that the City of Isanti has owned the Site since the early 1990s. To the best of their knowledge, the Site had always been vacant agricultural land prior to the development of the Centennial Industrial Park in approximately 1999. When the industrial park was developed, municipal sanitary sewer and water services were stubbed to the Site. According to Mr. Sullivan, the entire industrial park was owned by the same family, who farmed the land. The associated farmstead was situated west of the Site on the west side of the BNSF railroad tracks.

Mr. Sullivan and Mr. Bittner stated that, to the best of their knowledge there have never been any structures, septic systems, aboveground or underground storage tanks, chemical storage/spills, or other potential environmental concerns associated with the Site. They did report the presence of storage tanks on the Ever Cat Fuels Site located south of the Site and at Feedstock and storage.

8.0 SITE VISIT

On July 12, 2011, Matt Bartus of Pinnacle performed a Site visit. The Site visit is designed to identify potential and actual environmental concerns on and adjacent to the Site. Observations made during the Site visit were recorded in the Site Survey Form; a copy is retained at our office. Pinnacle visited the Site at 9:15 AM, it was sunny, and the temperature was approximately 85 degrees Fahrenheit. Mr. Bartus was accompanied by Mr. Sean Sullivan during the Site visit. Photographs of the Site, taken during the visit, are included in Appendix D.

8.1 Site Observation

The Site is situated in the northwest quadrant of Isanti Parkway NW and East Dual Boulevard NE, north of Ever Cat Fuels, and consists entirely of vacant undeveloped land. A north/south orientated windbreak/tree row is present in the eastern portion of the Site. A BNSF railroad track forms the western boundary, East Dual Boulevard NE the eastern boundary, and light industrial facilities are present on the north and south sides of the Site.

8.2 Chemical Storage

Observations were conducted to evaluate the presence of chemical or petroleum product storage. No evidence of such materials was observed during the Site reconnaissance.

8.3 Storage Tanks

Observations were made to evaluate the presence of underground or aboveground storage tanks at the Site. No evidence of ASTs, or evidence of USTs, such as vent or fill pipes, were observed during the Site reconnaissance. Several large ASTs were observed on the Ever Cat Fuels property located immediately adjacent to the south. The ASTs were situated in a concrete secondary containment basin and appeared to be in excellent condition.

8.4 Polychlorinated Biphenyls (PCBs)

Observations were made to identify equipment that may contain polychlorinated biphenyls (PCBs). No such equipment was observed during the Site reconnaissance.

8.5 Waste

No evidence of improper waste disposal (e.g. on-Site burial, dumping, etc.) was observed on the Site. No evidence of foundations indicative of prior development or former structures was observed during the Site reconnaissance.

9.0 FINDINGS

A review of records reasonably obtainable for the Site, visual observations of the Site, and interviews with the Site contact, identified the following potential environmental concerns associated with current and past land usage of the Site and surrounding area:

- A railroad track forms the Site's western boundary.
- Large ASTs containing biofuel were observed on the Ever Cat Fuels property adjacent to the south.
- An underground natural gas pipeline was observed on the Site.

A review of regulatory records, as provided by EDR, revealed the following potential environmental concerns within one mile of the Site:

- One CERCLIS listing within an approximate one-mile radius of the Site.
- Four RCRA-CESQG listings within an approximate 1/4-mile radius of the Site.
- One LUST listing within an approximate 1/2-mile radius of the Site.
- Three RCRA-Non Gen listings within an approximate 1/4-mile radius of the Site.
- One MN LS listing within an approximate 1/2-mile radius of the Site.
- Twenty-two WIMN listings within an approximate 1/2-mile radius of the Site.

10.0 OPINIONS

10.1 Opinions Regarding Findings

Railroad tracks are common point sources of contamination from releases that occur when transferring cargo. Historical aerial photo evidence revealed that there have

never been any railroad sidings onto the Site; therefore, they has likely never been any transferring of cargo conducted at the Site, which limits the potential for chemical spills/releases to have occurred. It is our opinion that the railroad track forming the Site's western boundary poses a minimal environmental threat to the Site and would not be considered an ASTM recognized environmental condition to the Site.

The ASTs observed on the Ever Cat Fuels property adjacent to the south appeared to be in excellent condition and were situated in a secondary containment basin. Ever Cat Fuels was not listed on the Leaking Aboveground Storage Tank (LAST) or Leaking Underground Storage Tank (LUST) databases, which would indicate a past release. In addition, if a release were to occur, Ever Cat Fuels would be considered the responsible party and would be responsible for the cleanup. Under the ASTM standard, these ASTs would be considered an ASTM recognized environmental condition to the Site based on the material threat of a release that could impact the Site. However, based on the condition of the ASTs, location within a secondary containment basin, and lack of inclusion on the LAST or LUST databases, it is our opinion that the storage tanks on the Ever Cat Fuels property adjacent to the south pose a minimal environmental threat to the Site and would be considered a *deminimis* condition.

A natural gas pipeline was observed in the eastern portion of the Site. If a release were to occur from the pipeline the gas would dissipate into the atmosphere. In addition, if any impacts occurred, it would be the responsibility of the gas company to remediate impacts. It is our opinion that the presence of the natural gas pipeline poses a minimal environmental threat to the Site and would not be considered an ASTM recognized environmental condition to the Site.

The Isanti Farmers Creamery is listed on the CERCLIS and MN LS databases. This facility is situated over ½-mile south/southwest of the Site. According to information supplied in the EDR regulatory report, this facility was removed from the CERCLIS list and moved to the No Further Remedial Action Planned (NFRAP). Based on the distance to the Site, published westerly groundwater moved in the area of the Site, and the regulatory status of the listing, it is our opinion that the CERCLIS and NFRAP listings pose a minimal environmental threat to the Site and would not be considered an ASTM recognized environmental condition to the Site.

Inclusion on the RCRA-CESQG and RCRA-NonGen databases does not imply that a release or mis-handling of a hazardous material has occurred. None of the reported listings are located adjacent to the Site. Based on the distance to the RCRA listings, it is our opinion that they pose a minimal environmental threat to the Site and would not be considered ASTM recognized environmental conditions to the Site.

The reported LUST listing is situated nearly ½-mile southeast of the Site and has a closed status with the Minnesota Pollution Control Agency (MPCA). Closure of a LUST listing by the MPCA means the release was investigated and remediated to the satisfaction of the agency, who no longer considers it a significant threat to public health or the environment. Based on the distance to the Site, published westerly groundwater moved in the area of the Site, and the closed regulatory status of the listing, it is our opinion that the LUST listing poses a minimal environmental threat to the Site and would not be considered an ASTM recognized environmental condition to the Site.

Twenty-two WIMN listings were identified within an approximate ½-mile radius of the Site; however, only two of the listings are located within a ¼-mile of the Site. Inclusion on this database does not imply that a release or mis-handling of a hazardous material has occurred. Based on the distance to the Site and the nature of this database, it is our opinion that the WIMN listings pose a minimal environmental threat to the Site and would not be considered ASTM recognized environmental condition to the Site.

10.2 Data Gaps

The ASTM standard defines a data gap as a lack of or inability to obtain information required by the standard despite good faith efforts by the environmental professional. Typically, aerial photograph coverage is limited prior to 1938, and aerial photographs are not available at the five-year intervals recommended by the standard. Sanborn maps, when available, provide coverage from the late 1800s to the 1960s. Sanborn maps, however, are typically only available for urban areas that have been developed for long periods of time, and coverage for agricultural or rural areas is often not available. City directories, when available, provide a year by year listing of property occupants by street address, and coverage for agricultural or rural areas is often not available. Sanborn maps and city directories were not available for this location. Although data gaps are present, sufficient historical information exists to adequately define the history of the Site as undeveloped, agricultural land. Therefore, the data gaps for this historical review were not sufficient to cause data failure.

11.0 CONCLUSIONS

Pinnacle has performed a Phase I Environmental Site Assessment, in conformance with the scope and limitations of ASTM Practice E 1527-05, of the 4.86 acre parcel of vacant land (Property ID# 16.128.0020) located in the northwest quadrant of Isanti Parkway NW and E Dual Boulevard NE in Isanti, Isanti County, Minnesota (Site). Any

exceptions to, or deletions from this practice are described in Section 1.3 of this report. Our assessment has revealed no ASTM recognized environmental conditions in connection with the Site.

12.0 RECOMMENDATIONS

Based on the absence of ASTM Recognized Environmental Conditions identified, Pinnacle does not recommend additional environmental assessment for the Site.

14.0 PREPARER INFORMATION

To the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in 40 CFR 312.10 of this part. We have the specific qualifications based on education, training, and experience to assess a subject property of the nature, history, and setting of the Site.

This report has been prepared by Matt Bartus, a Senior Project Scientist at Pinnacle. He has a Bachelor of Science in Biology, combined with over eleven years of professional experience. Mary Rivard, Senior Project Manager has reviewed this report. Ms. Rivard is a Geological Engineer and Professional Geologist with over 23 years of professional experience.

APPENDIX A
ASTM User Questionnaire

X3.USER QUESTIONNAIRE

INTRODUCTION

In order to qualify for one of the *Landowner Liability Protections (LLPs)*³⁵ offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the “*Brownfields Amendments*”),³⁶ the *user* must provide the following information if available) to the *environmental professional*. Failure to provide this information could result in a determination that “*all appropriate inquiry*” is not complete.

(1.) Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25).

Are you aware of any environmental cleanup liens against the *property* that are filed or recorded under federal, tribal, state or local law?

No

Do you have current title work for the property?

Yes

(2.) Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).

Are you aware of any AULs, such as *engineering controls*, land use restrictions or *institutional controls* that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?

No

(3.) Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).

As the *user* of this *ESA* do you have any specialized knowledge or experience related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former *occupants* of the *property* or an adjoining *property* so that you would have specialized knowledge of the chemicals and processes used by this type of business?

No specialized knowledge. The property is vacant.

(4.) Relationship of the purchase price to the fair market value of the *property* if it were not contaminated (40 CFR 312.29).

Does the purchase price being paid for this *property* reasonably reflect the fair market value of the *property*?

The property is currently owned by the City of Isanti and is being marketed for development.

If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the *property*?

Not applicable.

(5.) Commonly known or *reasonably ascertainable* information about the *property* (40 CFR 312.30).

Are you aware of commonly known or *reasonably ascertainable* information about the *property* that would help the *environmental professional* to identify conditions indicative of releases or threatened releases? For example, as *user*,

(a.) Do you know the past uses of the *property*?

To the best of our knowledge, the property has been vacant and undeveloped and was likely used for agricultural crops prior to City ownership.

(b.) Do you know of specific chemicals that are present or once were present at the *property*?

No

(c.) Do you know of spills or other chemical releases that have taken place at the *property*?

No

(d.) Do you know of any environmental cleanups that have taken place at the *property*?

No

(6.) The degree of obviousness of the presence of likely presence of contamination at the *property*, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).

As the *user* of this *ESA*, based on your knowledge and experience related to the *property* are there any *obvious* indicators that point to the presence or likely presence of contamination at the *property*?

No

(7.) Please provide name and phone number of person(s) who may be contacted to schedule a property walkover with a Pinnacle representative.

Sean Sullivan, Economic Development Director, 763-444-5512

Kevin Bittner, Asst. City Engineer, Bolton & Menk, Inc., 763-433-2851

(8.) Please provide name and phone number of **current** and **former** owner(s) of the property who may be contacted concerning past usage of the property.

City of Isanti, Sean Sullivan, Economic Development Director, 763-444-5512
Marlys Wickstrom, (763) 473-0133

(9.) Please provide name phone number of **other** person(s) who may be contacted concerning past usage of the property.

Clark Joslin, City Attorney, 763-689-4101

(10.) Please provide name phone number of person(s) who may be contacted concerning past and current usage of **adjoining** properties.

Clark Joslin, City Attorney, 763-689-4101

³⁵ *Landowner Liability Protections, or LLPs*, is the term used to describe the three types of potential defenses to Superfund liability in EPA's *Interim Guidance Regarding Criteria Landowners Must Meet in Order to Qualify for Bona Fide Prospective Purchaser, Contiguous Property Owner, or Innocent Landowner Limitations on CERCLA Liability ("Common Elements" Guide)* issued on March 6, 2003.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Federal CERCLIS list

CERCLIS: The Comprehensive Environmental Response, Compensation and Liability Information System contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the CERCLIS list, as provided by EDR, and dated 02/25/2011 has revealed that there is 1 CERCLIS site within approximately 0.625 miles of the target property.

<i>ISANTI FARMERS CREAMERY</i>	<i>NORTHWEST COR OF MAIN & SSW 1/2 - 1 (0.613 mi.)</i>		<i>F24</i>	<i>69</i>

Federal RCRA generators list

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 03/11/2011 has revealed that there are 4 RCRA-CESQG sites within approximately 0.375 miles of the target property.

State and tribal leaking storage tank lists

LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Minnesota Pollution Control Agency's Leak Sites list.

A review of the LUST list, as provided by EDR, and dated 05/01/2011 has revealed that there is 1 LUST site within approximately 0.625 miles of the target property.

EXECUTIVE SUMMARY

ADDITIONAL ENVIRONMENTAL RECORDS

Other Ascertainable Records

RCRA-NonGen: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA-NonGen list, as provided by EDR, and dated 03/11/2011 has revealed that there are 3 RCRA-NonGen sites within approximately 0.375 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

Hazardous Waste Summary:

Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

MN-DELTA (Minnesota - Permitting, Compliance, And Enforcement Information Management System) facilitates the issuance of permits and manages compliance.

Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Waste code: D008
Waste name: LEAD

Waste code: D018
Waste name: BENZENE

Waste code: D039
Waste name: TETRACHLOROETHYLENE

Violation Status: No violations found

Evaluation Action Summary:

Evaluation date: 10/17/2002
Evaluation: FOCUSED COMPLIANCE INSPECTION
Area of violation: Not reported
Date achieved compliance: Not reported
Evaluation lead agency: State

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 03/31/2011	Source: EPA
Date Data Arrived at EDR: 04/13/2011	Telephone: N/A
Date Made Active in Reports: 06/14/2011	Last EDR Contact: 04/13/2011
Number of Days to Update: 62	Next Scheduled EDR Contact: 07/25/2011
	Data Release Frequency: Quarterly

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 03/31/2011	Source: EPA
Date Data Arrived at EDR: 04/13/2011	Telephone: N/A

Number of Days to Update: 62	Next Scheduled EDR Contact: 07/25/2011
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991	Source: EPA
Date Data Arrived at EDR: 02/02/1994	Telephone: 202-564-4267

	Data Release Frequency: No Update Planned

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 03/31/2011	Source: EPA
Date Data Arrived at EDR: 04/13/2011	Telephone: N/A
Date Made Active in Reports: 06/14/2011	Last EDR Contact: 04/13/2011
Number of Days to Update: 62	Next Scheduled EDR Contact: 07/25/2011
	Data Release Frequency: Quarterly

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 02/25/2011	Source: EPA
Date Data Arrived at EDR: 03/01/2011	Telephone: 703-412-9810

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

LCP: Closed Landfills Priority List

The Minnesota Legislature enacted a law to manage and clean up the state's closed Mixed Municipal Solid Waste Landfills. Under that law, the MPCA is required to create and periodically revise a priority list of qualified landfills, based on the relative health and environmental risks they present. The MPCA established the first such priority list in December, 1994.

State and tribal Brownfields sites

BROWNFIELDS: Petroleum Brownfields Program Sites

Purchasing, selling, or developing property can present a special set of obstacles if the property is contaminated with chemicals. The Petroleum Brownfields Program is one of several programs within the Minnesota Pollution Control Agency (MPCA) designed to help people address these obstacles. The purpose of the Petroleum Brownfields Program is to provide the technical assistance and liability assurance needed to expedite and facilitate the development, transfer, investigation and/or cleanup of property that is contaminated with petroleum.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

DEBRIS REGION 9: Torres Martinez Reservation Illegal Dump Site Locations

A listing of illegal dump sites location on the Torres Martinez Indian Reservation located in eastern Riverside County and northern Imperial County, California.

Date of Government Version: 01/12/2009	Source: EPA, Region 9
Date Data Arrived at EDR: 05/07/2009	Telephone: 415-947-4219
Date Made Active in Reports: 09/21/2009	Last EDR Contact: 06/27/2011
Number of Days to Update: 137	Next Scheduled EDR Contact: 10/10/2011
	Data Release Frequency: No Update Planned

SWRCY: Recycling Facilities

A listing of companies that accept commercial quantities of recyclable materials.

Date of Government Version: 05/17/2011	Source: Pollution Control Agency
Date Data Arrived at EDR: 05/20/2011	Telephone: 651-296-6300
Date Made Active in Reports: 06/27/2011	Last EDR Contact: 05/17/2011
Number of Days to Update: 38	Next Scheduled EDR Contact: 08/29/2011
	Data Release Frequency: Varies

INDIAN ODI: Report on the Status of Open Dumps on Indian Lands

Location of open dumps on Indian land.

Date of Government Version: 12/31/1998	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/03/2007	Telephone: 703-308-8245
Date Made Active in Reports: 01/24/2008	Last EDR Contact: 05/09/2011
Number of Days to Update: 52	Next Scheduled EDR Contact: 08/22/2011
	Data Release Frequency: Varies

Local Lists of Hazardous waste / Contaminated Sites

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 02/02/2011	Source: Drug Enforcement Administration
Date Data Arrived at EDR: 03/17/2011	Telephone: 202-307-1000
Date Made Active in Reports: 05/02/2011	Last EDR Contact: 06/07/2011
Number of Days to Update: 46	Next Scheduled EDR Contact: 09/19/2011
	Data Release Frequency: Quarterly

SRS: Site Remediation Section Database

The database contains site information for sites monitored by the Site Remediation Section.

Date of Government Version: 04/15/2011	Source: Pollution Control Agency
Date Data Arrived at EDR: 04/22/2011	Telephone: 651-282-5988
Date Made Active in Reports: 05/13/2011	Last EDR Contact: 04/22/2011
Number of Days to Update: 21	Next Scheduled EDR Contact: 06/27/2011
	Data Release Frequency: Quarterly

MN DEL PLP: Delisted Permanent List of Priorities

This generally means that either no more cleanup at a site is needed or that no state superfund funding is needed for long term monitoring activities.

Date of Government Version: 11/04/2010	Source: Pollution Control Agency
Date Data Arrived at EDR: 06/01/2011	Telephone: 651-296-6139
Date Made Active in Reports: 06/27/2011	Last EDR Contact: 05/16/2011
Number of Days to Update: 26	Next Scheduled EDR Contact: 08/29/2011
	Data Release Frequency: Annually

CDL: Clandestine Drug Labs

This data was passively gathered. That is, the DOH asks law enforcement and other agencies to notify them of Clandestine Drug Labs (CDLs). They do not require reporting of events. Therefore the data represents only a subset of all CDLs. This data has not been verified. The DOH has made no attempt to verify that reported CDLs actually occurred. They have no knowledge if the CDL was involved in cooking or just consisted of chemicals associated with Meth production. The reports they receive are that a suspected CDL was seized.

Date of Government Version: 04/11/2011	Source: Department of Health
Date Data Arrived at EDR: 04/13/2011	Telephone: 651-215-5800
Date Made Active in Reports: 05/13/2011	Last EDR Contact: 04/11/2011
Number of Days to Update: 30	Next Scheduled EDR Contact: 07/25/2011
	Data Release Frequency: Varies

US HIST CDL: National Clandestine Laboratory Register

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Records of Emergency Release Reports

HMIRS: Hazardous Materials Information Reporting System

Hazardous Materials Incident Report System. HMIRS contains hazardous material spill incidents reported to DOT.

Date of Government Version: 12/31/2010	Source: U.S. Department of Transportation
Date Data Arrived at EDR: 01/05/2011	Telephone: 202-366-4555
Date Made Active in Reports: 02/25/2011	Last EDR Contact: 07/05/2011
Number of Days to Update: 51	Next Scheduled EDR Contact: 10/17/2011
	Data Release Frequency: Annually

SPILLS: Spills Database

Spills reported to the Pollution Control Agency.

Date of Government Version: 05/01/2011	Source: Minnesota Pollution Control Agency
Date Data Arrived at EDR: 05/17/2011	Telephone: 651-649-5451
Date Made Active in Reports: 06/23/2011	Last EDR Contact: 05/17/2011
Number of Days to Update: 37	Next Scheduled EDR Contact: 08/29/2011
	Data Release Frequency: Quarterly

AG SPILLS: Department of Agriculture Spills

This data is a list of pesticide/fertilizer incidents reported to have occurred in Minnesota.

Date of Government Version: 05/17/2011	Source: Department of Agriculture
Date Data Arrived at EDR: 05/19/2011	Telephone: 651-297-3997
Date Made Active in Reports: 06/30/2011	Last EDR Contact: 05/16/2011
Number of Days to Update: 42	Next Scheduled EDR Contact: 08/29/2011
	Data Release Frequency: Semi-Annually

Other Ascertainable Records

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RCRA-NonGen: RCRA - Non Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

Date of Government Version: 03/11/2011	Source: Environmental Protection Agency
Date Data Arrived at EDR: 04/05/2011	Telephone: 312-886-6186
Date Made Active in Reports: 05/02/2011	Last EDR Contact: 07/07/2011
Number of Days to Update: 27	Next Scheduled EDR Contact: 10/17/2011
	Data Release Frequency: Varies

DOT OPS: Incident and Accident Data

Department of Transportation, Office of Pipeline Safety Incident and Accident data.

Date of Government Version: 01/12/2011	Source: Department of Transportation, Office of Pipeline Safety
Date Data Arrived at EDR: 02/11/2011	Telephone: 202-366-4595
Date Made Active in Reports: 05/02/2011	Last EDR Contact: 05/11/2011
Number of Days to Update: 80	Next Scheduled EDR Contact: 08/22/2011
	Data Release Frequency: Varies

DOD: Department of Defense Sites

This data set consists of federally owned or administered lands, administered by the Department of Defense, that have any area equal to or greater than 640 acres of the United States, Puerto Rico, and the U.S. Virgin Islands.

Date of Government Version: 12/31/2005	Source: USGS
Date Data Arrived at EDR: 11/10/2006	Telephone: 888-275-8747
Date Made Active in Reports: 01/11/2007	Last EDR Contact: 04/21/2011
Number of Days to Update: 62	Next Scheduled EDR Contact: 08/01/2011
	Data Release Frequency: Semi-Annually

FUDS: Formerly Used Defense Sites

The listing includes locations of Formerly Used Defense Sites properties where the US Army Corps of Engineers is actively working or will take necessary cleanup actions.

Date of Government Version: 12/31/2009	Source: U.S. Army Corps of Engineers
Date Data Arrived at EDR: 08/12/2010	Telephone: 202-528-4285
Date Made Active in Reports: 12/02/2010	Last EDR Contact: 06/14/2011
Number of Days to Update: 112	Next Scheduled EDR Contact: 09/26/2011
	Data Release Frequency: Varies

CONSENT: Superfund (CERCLA) Consent Decrees

Major legal settlements that establish responsibility and standards for cleanup at NPL (Superfund) sites. Released periodically by United States District Courts after settlement by parties to litigation matters.

Date of Government Version: 12/31/2010	Source: Department of Justice, Consent Decree Library
Date Data Arrived at EDR: 04/05/2011	Telephone: Varies
Date Made Active in Reports: 06/14/2011	Last EDR Contact: 07/01/2011
Number of Days to Update: 70	Next Scheduled EDR Contact: 10/17/2011
	Data Release Frequency: Varies

ROD: Records Of Decision

Record of Decision. ROD documents mandate a permanent remedy at an NPL (Superfund) site containing technical and health information to aid in the cleanup.

Date of Government Version: 02/25/2011	Source: EPA
Date Data Arrived at EDR: 03/16/2011	Telephone: 703-416-0223
Date Made Active in Reports: 03/21/2011	Last EDR Contact: 06/15/2011
Number of Days to Update: 5	Next Scheduled EDR Contact: 09/26/2011
	Data Release Frequency: Annually

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

Date of Government Version: 09/14/2010	Source: Department of Energy
Date Data Arrived at EDR: 10/21/2010	Telephone: 505-845-0011
Date Made Active in Reports: 01/28/2011	Last EDR Contact: 06/02/2011
Number of Days to Update: 99	Next Scheduled EDR Contact: 09/12/2011
	Data Release Frequency: Varies

MINES: Mines Master Index File

Contains all mine identification numbers issued for mines active or opened since 1971. The data also includes violation information.

Date of Government Version: 02/08/2011	Source: Department of Labor, Mine Safety and Health Administration
Date Data Arrived at EDR: 03/09/2011	Telephone: 303-231-5959
Date Made Active in Reports: 05/02/2011	Last EDR Contact: 06/08/2011
Number of Days to Update: 54	Next Scheduled EDR Contact: 09/19/2011
	Data Release Frequency: Semi-Annually

TRIS: Toxic Chemical Release Inventory System

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

Date of Government Version: 12/31/2009	Source: EPA
Date Data Arrived at EDR: 12/17/2010	Telephone: 202-566-0250
Date Made Active in Reports: 03/21/2011	Last EDR Contact: 05/27/2011
Number of Days to Update: 94	Next Scheduled EDR Contact: 09/12/2011
	Data Release Frequency: Annually

TSCA: Toxic Substances Control Act

Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/2006	Source: EPA
Date Data Arrived at EDR: 09/29/2010	Telephone: 202-260-5521
Date Made Active in Reports: 12/02/2010	Last EDR Contact: 06/30/2011
Number of Days to Update: 64	Next Scheduled EDR Contact: 10/10/2011
	Data Release Frequency: Every 4 Years

FTTS: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)

FTTS tracks administrative cases and pesticide enforcement actions and compliance activities related to FIFRA, TSCA and EPCRA (Emergency Planning and Community Right-to-Know Act). To maintain currency, EDR contacts the Agency on a quarterly basis.

Date of Government Version: 04/09/2009	Source: EPA/Office of Prevention, Pesticides and Toxic Substances
Date Data Arrived at EDR: 04/16/2009	Telephone: 202-566-1667
Date Made Active in Reports: 05/11/2009	Last EDR Contact: 05/27/2011
Number of Days to Update: 25	Next Scheduled EDR Contact: 09/12/2011
	Data Release Frequency: Quarterly

FTTS INSP: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act) A listing of FIFRA/TSCA Tracking System (FTTS) inspections and enforcements.

Date of Government Version: 04/09/2009	Source: EPA
Date Data Arrived at EDR: 04/16/2009	Telephone: 202-566-1667
Date Made Active in Reports: 05/11/2009	Last EDR Contact: 05/27/2011
Number of Days to Update: 25	Next Scheduled EDR Contact: 09/12/2011
	Data Release Frequency: Quarterly

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/01/2007	Telephone: 202-564-2501
Date Made Active in Reports: 04/10/2007	Last EDR Contact: 12/17/2007
Number of Days to Update: 40	Next Scheduled EDR Contact: 03/17/2008
	Data Release Frequency: No Update Planned

HIST FTTS INSP: FIFRA/TSCA Tracking System Inspection & Enforcement Case Listing

A complete inspection and enforcement case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Number of Days to Update: 40	Next Scheduled EDR Contact: 03/17/2008
	Data Release Frequency: No Update Planned

SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

Date of Government Version: 12/31/2009	Source: EPA
Date Data Arrived at EDR: 12/10/2010	Telephone: 202-564-4203
Date Made Active in Reports: 02/25/2011	Last EDR Contact: 05/02/2011
Number of Days to Update: 77	Next Scheduled EDR Contact: 08/15/2011
	Data Release Frequency: Annually

ICIS: Integrated Compliance Information System

The Integrated Compliance Information System (ICIS) supports the information needs of the national enforcement and compliance program as well as the unique needs of the National Pollutant Discharge Elimination System (NPDES) program.

Date of Government Version: 01/07/2011	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/21/2011	Telephone: 202-564-5088
Date Made Active in Reports: 03/21/2011	Last EDR Contact: 06/27/2011
Number of Days to Update: 59	Next Scheduled EDR Contact: 10/10/2011
	Data Release Frequency: Quarterly

PADS: PCB Activity Database System

PCB Activity Database. PADS Identifies generators, transporters, commercial storers and/or brokers and disposers of PCB's who are required to notify the EPA of such activities.

Date of Government Version: 11/01/2010	Source: EPA
Date Data Arrived at EDR: 11/10/2010	Telephone: 202-566-0500
Date Made Active in Reports: 02/16/2011	Last EDR Contact: 04/22/2011
Number of Days to Update: 98	Next Scheduled EDR Contact: 08/01/2011
	Data Release Frequency: Annually

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

MLTS: Material Licensing Tracking System

MLTS is maintained by the Nuclear Regulatory Commission and contains a list of approximately 8,100 sites which possess or use radioactive materials and which are subject to NRC licensing requirements. To maintain currency, EDR contacts the Agency on a quarterly basis.

Date of Government Version: 03/18/2010	Source: Nuclear Regulatory Commission
Date Data Arrived at EDR: 04/06/2010	Telephone: 301-415-7169
Date Made Active in Reports: 05/27/2010	Last EDR Contact: 06/13/2011
Number of Days to Update: 51	Next Scheduled EDR Contact: 09/26/2011
	Data Release Frequency: Quarterly

RADINFO: Radiation Information Database

The Radiation Information Database (RADINFO) contains information about facilities that are regulated by U.S. Environmental Protection Agency (EPA) regulations for radiation and radioactivity.

Date of Government Version: 01/11/2011	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/13/2011	Telephone: 202-343-9775
Date Made Active in Reports: 02/16/2011	Last EDR Contact: 04/13/2011
Number of Days to Update: 34	Next Scheduled EDR Contact: 07/25/2011
	Data Release Frequency: Quarterly

FINDS: Facility Index System/Facility Registry System

Facility Index System. FINDS contains both facility information and 'pointers' to other sources that contain more detail. EDR includes the following FINDS databases in this report: PCS (Permit Compliance System), AIRS (Aerometric Information Retrieval System), DOCKET (Enforcement Docket used to manage and track information on civil judicial enforcement cases for all environmental statutes), FURS (Federal Underground Injection Control), C-DOCKET (Criminal Docket System used to track criminal enforcement actions for all environmental statutes), FFIS (Federal Facilities Information System), STATE (State Environmental Laws and Statutes), and PADS (PCB Activity Data System).

Date of Government Version: 04/14/2010	Source: EPA
Date Data Arrived at EDR: 04/16/2010	Telephone: (312) 353-2000
Date Made Active in Reports: 05/27/2010	Last EDR Contact: 06/14/2011
Number of Days to Update: 41	Next Scheduled EDR Contact: 09/26/2011
	Data Release Frequency: Quarterly

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995	Source: EPA
Date Data Arrived at EDR: 07/03/1995	Telephone: 202-564-4104

EDR PROPRIETARY RECORDS

EDR Proprietary Records

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data

Source: Rextag Strategies Corp.

Telephone: (281) 769-2247

U.S. Electric Transmission and Power Plants Systems Digital GIS Data

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Child Care Centers

Source: Department of Human Services

Telephone: 651-296-3971

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

APPENDIX C
Interview Form

PHASE I ENVIRONMENTAL SITE ASSESSMENT QUESTIONNAIRE
VACANT OR FARM LAND

Description of Site: Vacant acreage on West side of East Dual Blvd NE

Address: 800 Block of East Dual Blvd NE (P.I.D. 16.128.0020)

Kevin Bittner, Asst. City Engineer, Bolton & Menk.

Person Completing this Survey: Sean Sullivan, Economic Development Director

Phone Number: 763-433-2851

Relationship to Site (owner, occupant, etc.): Consultant/Staff

For how long? 2 Years

1. How large is the Site? 4.86 acres

2. To the best of your knowledge, have there ever been any buildings or structures on the Site? If yes, describe buildings, approximate age, and what they were used for. Attach additional pages if necessary. Yes No

3. Has the site been farmed?
If yes, for approximately how long?

Yes No
 Unknown

4. To the best of your knowledge, has the following occurred on the property?

- 4a. Illegal dumping? Yes No
- 4b. Fill from a contaminated source? Yes No
- 4c. Fill from an unknown source? Yes No
- 4d. Damaged or discarded automotive or industrial batteries? Yes No
- 4e. Spills of more than one-half gallon of any chemical? Yes No
- 4f. Paint storage or use? Yes No
- 4g. Automotive repair or salvage? Yes No
- 4h. Manufacturing or commercial production? Yes No
- 4i. Uncontrolled or unplanned fires? Yes No
- 4j. Fires to burn materials other than wood? Yes No

Please provide additional information on any yes answers. Attach additional pages if necessary.

5a. Have there ever been tanks, above or underground, at the Site?
 (This includes fuel oil, gas, diesel, fertilizers/pesticides, and any other tanks)

Yes No
 Unknown

If yes, please complete the following table. Use one line per tank that has been or is present. Add additional pages if necessary.

If unknown, do you think there are likely to have been tanks present? Why or why not?

Tank Size (Approx. if unknown) in gallons	Under or above ground?	What was stored in the tank?	Location of tank on Site	Years present (approx. if unknown)	Any testing or upgrade records?	Any leaks or problems you are aware of? If yes, elaborate

5b. Please provide additional information on any known leaks, spills or other tank-related problems. Attach additional pages if necessary.

10. Is there or has there been a septic system on the Site?
If yes, where?

Yes No
 Unknown

11. To the best of your knowledge, are there or has there been any other waste disposal pits, ponds, or lagoons? If yes, where?

Yes No

12. Are there any structures or pipes on the Site that you do not know the purpose for? If yes, describe item and location. Attach additional pages if necessary.

Yes No

13. Do you have any knowledge of environmental liens or governmental notification relating to violations of environmental laws on the Site? If yes, describe. Attach additional pages if necessary.

Yes No

14. What are the surrounding properties used for?
(Describe in detail. Attach additional pages if necessary.)

Biofuel Production
Manufacturing
Warehousing
Railroad Tracks
Storm Water Retention

15. Are you aware of any tanks on the surrounding properties? Yes No
If yes, which property and what are the tanks used for? Attach additional pages if necessary.

Ever Cat Fuels (South)
Feedstock and storage

16. Are you aware of any chemical use or storage on the surrounding properties? If yes, please provide additional information. Attach additional pages if necessary. Yes No

Biodiesel Storage

17. Are you aware of any spills on any of the surrounding properties? Yes No
If yes, which property and what happened? Attach additional pages if necessary.

18. Do you know of any previous environmental site assessments or investigations conducted at the Site? Yes No

If yes, provide report titles and a summary of the report findings or recommendations. Include date report was prepared and who conducted the assessment. Attach additional pages if necessary.

19. Are you aware of any other environmental concerns or issues associated with the Site? Yes No

If yes, describe. Attach additional pages if necessary.

I represent that to the best of my knowledge the above statements and facts are true and correct and no material facts have been suppressed or misstated.
