August 19, 2016

Dear Stakeholders in Minnesota Natural Resources:

The Minnesota Forest Resources Council (MFRC) is seeking your input.

Because of your interest in, and contribution to the natural resources of the state, you are being asked to complete a survey pertaining to the MFRC and its functions.

As you may know, the MFRC is a 17-member board created to develop policy recommendations to the governor and federal, state, and local governments and to encourage the adoption of sustainable forest management policies and practices.

The MFRC is committed to a strategic planning process this year with the intent to ensure it is poised to face both the challenges and opportunities of this decade.

Attached is a survey comprised of eight questions pertaining to the role(s) and function of the MFRC. Your attention to this survey is requested and needed.

Your responses are anonymous; your input is extremely valuable.

Our thanks in advance for submitting your survey response no later than Friday, September 2.

Respectfully,

Kathleen Preece, Chair
Minnesota Forest Resources Council
