

# SNAPSHOT | Investing in Roads and Bridges

*2016 Budget for a Better Minnesota*

Modern roads, bridges, and transit are the foundation of an economy that works for all Minnesotans – everywhere in Minnesota. Our businesses need reliable roads and bridges to export their ideas and innovations to consumers around the globe. To attract and retain the best workers, Minnesota needs roadways and transit systems that make it easy to get to work – safely, affordably, and on-time. Governor Dayton and Lt. Governor Smith’s 21<sup>st</sup> Century transportation plan would make the sustainable, long-term investments necessary to build a better transportation network, spur Minnesota’s innovation economy forward, and generate the great jobs of the future.

Under their proposal, communities across Minnesota would receive a transportation funding increase of 30 percent, increasing Municipal State Aid and County State Aid funds that are constitutionally-dedicated for repairing our roads and bridges. This snapshot demonstrates what 2019 would look like, for every county and major city across Minnesota, under the Governor and Lt. Governor’s transportation plan – and continuing on into the future.
