## Search for Honey Bee Locations

The Honey Bee Location search page allows you to search for hives by county or by township.

Please select either a County or a Township. (For example, if you select Aitkin county and Aitkin township, you will receive results for all of Aitkin county, not just Aitkin township.)

You can choose more than one county or township by holding down the Ctrl key while making your selection. To choose consecutive items, hold down the Shift key instead.
