

Minnesota State Government Libraries

Capitol Area Library Consortium (CALCO) libraries work cooperatively to promote and enhance library services in state government through unique and diverse collections of resources. CALCO strives for easy access to state government library services and resources by state employees, local government officials, Minnesota citizens, and other libraries nationwide.

Library catalogs and more information:

CALCO Libraries:

*** offer unique resources**

Specialized collections are designed to support state government agencies and services. Over one million items in CALCO libraries include unique state government resources not available elsewhere.

*** have a variety of formats and topics**

Collections include books, journals, AVs, newspapers, microforms, and electronic materials. The libraries include publications on diverse topics including the arts, business and economics, environment and natural resources, fire, health, history, law and legislation, public policy, and transportation.

*** have professional library staff**

Experts can assist with finding information; give library and Web resource advice and guidance; and provide referrals to other libraries, individuals, or agencies.

*** provide access to the public**

CALCO library collections are available to the public. Visit the libraries, use the online library catalogs, or borrow materials through inter-library loan from your local library.

(Note: Some libraries are open by appointment. Please contact the library for policies and hours before visiting.)

Your Guide to Minnesota State Government Information Resources
