

SWIFT and SWIFT Data Warehouse (OBIEE) Software and Hardware Requirements

Software Requirements for SWIFT:

Browsers

- Internet Explorer Releases 9, 10 or 11
- Firefox Release 24, 30, 38 or 42
- Apple Safari Releases 6, 7, 8 or 9
- Google Chrome Release 35 or 43
- Other web browsers may work: however, they may not be supported.

Operating Systems

- Apple Mac OS X (32-bit) Version 10.5
- Apple Mac OS X (64-bit) Versions 10.6, 10.7, 10.8 or 10.9
- Microsoft Windows (32-bit) Version 7, 8, 8.1 or 10
- Microsoft Windows (64-bit) Versions 7, 8, 8.1, or 10
- Other operating systems may work; however, they may not be supported.

Other

- Adobe Acrobat Reader 15.0 or higher (<http://get.adobe.com/reader/>)

Hardware Requirements for SWIFT:

- General end user workstation hardware requirements are as follows:
 - At least 200MB of free disk space.
 - While additional memory is generally beneficial, 512 MB is the minimum recommended
 - 1.6 GHz or higher Pentium or equivalent processor
- Display resolution of 1280 x 1024 or higher (for laptops a display resolution of 1280 x 800) for best display results.

Software Requirements for SWIFT Data Warehouse (OBIEE):

Browsers

- Internet Explorer Releases 7, 8, 9, 10 or 11
- Firefox Release 3.5 through 17
- Apple Safari Releases 4 or 5
- Google Chrome Release 12 through 30
- Other web browsers may work: however, they may not be supported.

Operating Systems

- Microsoft Windows (32-bit) Version 7
- Microsoft Windows (64-bit) Version 7
- Other operating systems may work; however, they may not be supported.

Other

- Adobe Acrobat Reader 11.0 or higher (<http://get.adobe.com/reader/>)
