## **Reporting Tools for Purchase Orders**

When there are questions about the status or details of purchase orders, SWIFT provides several tools to find up-to-the-minute information about them. You can find information about individual purchase orders or groups of purchase orders in various parts of the purchasing life cycle. You can determine if there are any errors so that you can correct them.

This guide introduces the terms and general steps for getting real-time information from SWIFT using purchasing reporting tools: inquiries, queries and searches.

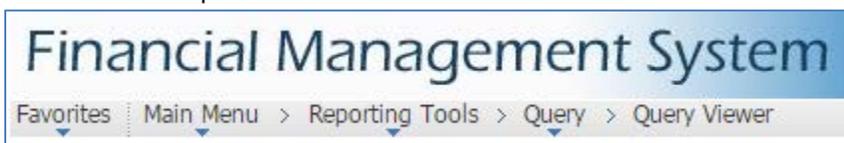

1. *Inquiry:*

An inquiry is an online data lookup that is geared to data in a specific SWIFT module. An inquiry features fields used to specify the needed data. SWIFT presents the results online as rows and columns of data. Use **Review PO Information** to access these inquiries.

2. *Query:*

A query is a customized data lookup in SWIFT using the Query Viewer under the Reporting Tools menu. The resulting data may be viewed online or downloaded to Excel. You will not be able to drill down using the data presented online.

3. *Searches:*

SWIFT offers a wide range of reporting possibilities. These reporting capabilities enable you to access the data you need and present it in the form that is most useful for you.

## **Inquiries:**

Many of the purchase order inquiries are accessible through the **Review PO Information** submenu. In general, they follow the same process steps:

- Step 1: Navigate to the Inquiry page using the **Review PO Information** page.
- Step 2: Use the Inquiry results to review and select purchase orders.
- Step 3: Review the appropriate purchase order for the information that you need.

The most common inquiries used for purchase orders are: Purchase Order Activity Summary, Document Status and Purchase Order Inquiry.

Inquiry Type	Purpose
<b>Document Status</b>	Displays all of the transactions associated to an individual purchase order (e.g., contracts, receipts, requisitions, payments, vouchers, or events).
<b>PO Accounting Entries</b>	Displays all transactions for a purchase order by distribution.
<b>Purchase Order Inquiry</b>	Used to inquire or view information on a previously created purchase order. You can view Vendor Details, purchase order header details, billing address details, comments and procurement documents.

**Note:** There are other “inquiries” available on the header of a purchase order.

Inquiry Type	Purpose
<b>Activity Summary</b>	Provides a summary of activities for an individual purchase order. You can also find details regarding the original purchase order, receipts, invoices and matching.
<b>Comments</b>	Allows you to view comments and attachments.
<b>Purchase Order Total Amount Details</b>	Click on the Freight/Tax/Misc field. View price adjustments broken down into individual amounts, such as freight, sales and use tax, miscellaneous charges, and value-added tax.
<b>Review Change Orders</b>	It states whether or not changes exist.

## Queries

A query is a customized data lookup in SWIFT using the **Query Viewer** under the **Reporting Tools** menu.

**Query Viewer** enables you to:

- Run queries and have results sent to a separate browser window.
- Download and format the data in an Excel worksheet and/or in XML format.
- Schedule queries to run at predefined times or on recurring schedules (e.g., first thing in the morning). The results of these scheduled queries are routed to your Report Manager in SWIFT.

**Query Viewer** provides several fields that can be used to locate queries. You can search for a query using the basic or advanced search options.

- **Basic Search Option:** Search using only the “begins with” condition.
- **Advanced Search Option:** Search using one or more search criteria and selecting from a choice of conditions for each criterion (e.g., “contains”).

## Query Naming Conventions

To use a query to retrieve data from SWIFT, you will need to know its name or a part of its name. The naming convention for SWIFT is: **M\_XX\_GBL...**

- M is for Minnesota
- XX represents the two-letter SWIFT module abbreviation (e.g., PO for Purchase Orders)
- GBL is for Global. It displays if all users have access to this query
- Characters that appear after XX or GBL describe the kind of data the query will locate. For example, the query M\_PO\_DEFAULTS\_BY\_VENDOR will show information associated with the Vendor.
- Use capital letters and the underscore symbol.
- Wildcards (%) can be used in any of the fields to refine or broaden a search.

## Common Queries used for Purchase Orders

Query Name	Purpose
<b>M_CG_GBL_CAT_VNDR1</b>	Finds vendors by UNSPSC code.
<b>M_PO_GBL_DBA_NAME</b>	Find the correct vendor and location for businesses who may be conducting business under various names (e.g., Doing Business As).
<b>M_PO_GBL_OPEN_ORDERS_BY_BUYER</b>	Find open purchase orders by buyer.
<b>M_PO_GBL_PO_LINE_ASSET_RELATED</b>	Find purchase order lines with asset information.
<b>M_PO_OPEN_ENCUM_BALANCE</b>	Find open encumbrances based on a budget date range. You can search by Fund, Fin Dept ID and Approp ID.
<b>M_SS_GBL_ACTIVE_REG_VNDR</b>	The list of Vendor IDs that are active in SWIFT.
<b>M_VENDOR_INQUIRY</b>	Find all locations and addresses by vendor
<b>M_VND_CAT_INCTV_LIST</b>	Finds vendors with locations that are inactive.
<b>M_CATEGORY_LOOKUP</b>	Look up category codes (e.g., UNSPCS)
<b>M_AP_GBL_PYMTS_BY_PO</b>	Lists vouchers against a purchase order.
<b>M_PO_GBL_PO_DETAILS_BY_PO_DATE</b>	Lists the details of a purchase order. Some agencies run this report every quarter per buyer for large purchases.
<b>M_PO_GBL_PO_DETAILS_BY_VENDOR</b>	List of purchase orders for a particular vendor.

## Process Steps for Using the Query Viewer

**Navigation:** Reporting Tools, Query, Query Viewer

### 1. Enter information into the Query Viewer.

- **Navigation:** Reporting Tools, Query, Query Viewer
- Enter the Query Name in the basic search. **Note:** It must follow the naming conventions. Click **Search**.

**Query Viewer**

Enter any information you have and click Search. Leave fields blank for a list of all values.

\***Search By**  begins with

[Advanced Search](#)

- Or, click on the Advanced Search link and enter information (e.g., PURCHASE ORDER) in the *Description* field.

**Query Viewer**

Enter any information you have and click Search. Leave fields blank for a list of all values.

Query Name

**Description**

Uses Record Name

Uses Field Name

Access Group Name

Folder Name

\*Query Type =

Owner =

When using the IN or BETWEEN operators, enter comma separated values without quotes. i.e. JOB,EMPLOYEE,JRNL\_LN.

[Basic Search](#)

## 2. Look at the Search Results to find the individual query.

On the **Run to** section, choose a **Run to** method (e.g., HTML, Excel or XML). If you select “Excel”, you will get a spreadsheet that you can filter the results. SWIFT opens up a separate window or report with your data.

**Search Results**

\*Folder View

Query Name	Description	Owner	Folder	Run to HTML	Run to Excel	Run to XML	Schedule	Add to Favorites
BTF_PURCHASE_ORDER	Purchase Order	Public		<a href="#">HTML</a>	<a href="#">Excel</a>	<a href="#">XML</a>	<a href="#">Schedule</a>	<a href="#">Favorite</a>
FINQA_AP_PO_HDR	Purchase Order Header	Public		<a href="#">HTML</a>	<a href="#">Excel</a>	<a href="#">XML</a>	<a href="#">Schedule</a>	<a href="#">Favorite</a>
FINQA_AP_PO_LINE	Purchase Order Line	Public		<a href="#">HTML</a>	<a href="#">Excel</a>	<a href="#">XML</a>	<a href="#">Schedule</a>	<a href="#">Favorite</a>
M_PO_GBL_POS_ON_HOLD	Purchase Orders on Hold	Public	PURCHASE ORDER	<a href="#">HTML</a>	<a href="#">Excel</a>	<a href="#">XML</a>	<a href="#">Schedule</a>	<a href="#">Favorite</a>
M_PO_GBL_PO_DETAILS_BY_VENDOR	Purchase Order Details by Vndr	Public	PURCHASE ORDER	<a href="#">HTML</a>	<a href="#">Excel</a>	<a href="#">XML</a>	<a href="#">Schedule</a>	<a href="#">Favorite</a>

## 3. Enter information into the query you selected.

Each query will have different parameters. Most require the *Business Unit*. You can see the fields that will be populated. Enter in the required information. Click on **View Results**.

**M\_PO\_GBL\_PO\_DTLS\_BY\_BUDGET\_DT - Purchase Order Dtls by Bdgt Dt**

PO Bus Unit (% for all BUs):

Budget From Date:

Budget Thru Date:

PO Bus Unit	Bus Unit Descr	PO ID	Doc Type	Origin	Origin Descr	PO Status	Budget Status	Hold Status	Receipt Status	Match Status	Dispatch Mthd	PO Date	Agency Ref	PO Ref	Vend ID
-------------	----------------	-------	----------	--------	--------------	-----------	---------------	-------------	----------------	--------------	---------------	---------	------------	--------	---------

#### 4. View the report from the query.

Depending upon which **Run to** method you chose, you will get a report.

## Searches

SWIFT provides many ways for purchasing staff to get the information they need. For example, there is the magnifying glass on fields throughout SWIFT. You can use the magnifying glass to access tables that hold allowable values. The fields with the magnifying glass will bring up search criteria to find what to enter.

Two common searches are:

- Amount encumbered on a single purchase order
- Multiple encumbrances by ChartFields

### Amount Encumbered on a Single Purchase Order

When a purchase order is budget checked, the dollar amount is encumbered to hold the funds for it. You may need to determine how much of the original encumbrance remains.

1. Access the purchase order using the **Purchase Order Find an Existing Value** page.
  - **Navigation:** Purchasing, Purchase Orders, Add/Update, Find an Existing Value
  - Search for the purchase order by entering search criteria such as the *Business Unit* and the *PO ID*.

**Purchase Order**

Enter any information you have and click Search. Leave fields blank for a list of all values.

**Search Criteria**

Business Unit:

PO ID:

Origin:

Purchase Order Date:

PO Status:

Short Vendor Name:

Vendor ID:

Vendor Name:

Buyer:

Buyer Name:

PO Type:

Purchase Order Reference:

Case Sensitive

**Search Results**

View All

Business Unit	PO ID	Origin	Purchase Order Date	PO Status	Short Vendor Name	Vendor ID	Vendor Name	Buyer	Buyer Name	PO Type	Purchase Order Reference	Hold
G1001	800003255	F14	08/18/2015	Dispatched	VERIZON WI-001	0000254225	VERIZON WIRELESS	B 01136301	Savino, Diane M	General	FY 16 Wireless Services	N

2. On the purchase order, look at the **Amount Summary** located on the right side of the Header.

There are four lines to pay attention to in the Amount Summary:

- **Merchandise:** The total dollar amount of all lines.
- **Freight/Tax/Misc.:** The total of all taxes and other non-line item charges.
- **Total Amount:** The total of the Merchandise and Freight/Tax/Misc lines.
- **Encumbrance Balance:** The total remaining encumbrance for the purchase order.

The screenshot shows a purchase order header with various fields. On the right side, there is an **Amount Summary** table. The table contains the following data:

Merchandise:	5,700.00	
Freight/Tax/Misc.:	0.00	<input type="button" value="Calculate"/>
Total Amount:	5,700.00	USD
Encumbrance Balance:	4,859.76	USD

As vouchers are processed against the purchase order, the encumbrance balance will be reduced. You can use the Document Status Inquiry to get details about the vouchers or other related transactions.

### Multiple Encumbrances by ChartFields.

1. Access the purchase orders using the **Budget Details** page.

- **Navigation:** Commitment Control, Review Budget Activities, Budget Details
- Search for the purchase orders by entering ChartField criteria.
  - *Business Unit:* MN001 (for all state agencies)
  - *Ledger Group:* KK EXP BUD (Use "Expense Budget Ledger Group" for Encumbrances)
  - *ChartFields or ChartField String:* Specify
  - *Budget Period:* Specify

The screenshot shows the **Budget Details** search criteria form. The form includes a search bar and a list of search criteria. The following criteria are highlighted with red boxes:

- Business Unit:** MN001
- Ledger Group:** KK\_EXP\_BUD
- Budget Period:** 2014

At the bottom of the form, there are buttons for **Search**, **Clear**, **Basic Search**, and **Save Search Criteria**.

2. The **Commitment Control Budget Details** page is displayed.

### Commitment Control Budget Details

Business Unit	Ledger Group	Budget Period	Fund	Fin DeptID	Appropriation	Account
MN001	KK_EXP_BUD	2014	5100	G0237200	G021903	41300

Fund: Fleet Service      Fin DeptID: Fleet Services      Appropriation: Fleet Services  
Account: Supplies

[Display Chart](#)

**Ledger Amounts**

Budget:	5,524,179.00 USD			<b>Max Rows:</b> <input type="text" value="100"/>
Expense:	5,010,681.98 USD			<a href="#">Attributes</a>
Encumbrance:	0.00 USD			<a href="#">Parent / Children</a>
Pre-Encumbrance:	0.00 USD			<a href="#">Associated Budgets</a>

Associate Revenue: 0.00 USD

**Available Budget**

With Tolerance:	513,497.02	USD	Percent:	(9.3%)

**Budget Exceptions**

Exception Errors:	0	Exception Warnings:	10	<a href="#">Budget Exceptions</a>
-------------------	---	---------------------	----	-----------------------------------

The total encumbrance amount is shown on the first page in the **Ledger Amounts** section. There are four values to be aware of in this section.

- *Budget*: The total budgeted dollar amount for the ChartField combination.
- *Expense*: The total budgeted expenses for the ChartField string.
- *Encumbrance*: The total encumbrances designated for the ChartField string.
- *Pre-Encumbrance*: The total pre-encumbrances designated for the ChartField string.

3. **Drill to Activity Log** icon:

To find details of the specific transactions this amount encompasses, click the **Drill to Activity Log** button. Scroll to the right to see all of the fields. The Activity Log displays the following information:

- Transaction Type
- Document ID
- Document Line
- ChartField information
- Budget information

#### Activity Log
