

Hospital Faribault State School & Hospital

Date 7-10-64

April, May, June

INSTRUCTIONS

I. Wards - open or closed? See page 2.

As of date in question simply check one and only one box for each ward of your hospital according to this definition:

1. Open. At least the front door is open (i.e., unlocked) eight hours a day or more. Implies a home-like atmosphere: reasonable freedom of movement within ward, i.e., to day rooms, sleeping areas, dining room, bathrooms, etc., and access to leisure-time equipment.
2. Partially open. One or more locked areas within building containing patients in a group, even though front door is open.
3. Closed. Front door locked. N.B. A ward with locked door is closed, be there ever so many patients on ground privileges.

For predominating patient type use Reitmann classification:

- | | |
|--------------------------|--|
| I. Geriatric Infirm | VI. -A Psychiatric Acute Intensive Treatment |
| II. Geriatric Ambulatory | VI. -B Comprehensive Continued Treatment Group |
| III. Receiving Ward | VI. -C Psychiatric Convalescent |
| IV. Isolation | VI. -D Chronic Regressed |
| V. Medical-Surgical | |

II. Voluntary Admissions. For three-month period just completed indicate total first and re-admissions (not transfer) Excluding sexual psychopath: _____

Senile. Total Adm. _____	No. Voluntary _____	% Voluntary _____
Inebriate. Total Adm. _____	No. Voluntary _____	% Voluntary _____
Mentally ill. Total Adm. _____	No. Voluntary _____	% Voluntary _____

III. Therapy. During calendar month just completed:

No. unduplicated patients in individual psychotherapy 327

Total No. man-hours individual psychotherapy 1181

No. unduplicated patients in group therapy (including Psychodrama, Remotivation, _____)

Total No. man-hours group therapy 4167 1750
