of James Kruger Regarding  
Northern States Power Company's  
Charges for Residential Service  
Extension

ISSUE DATE: May 24, 1991

DOCKET NO. E-002/C-90-531

ORDER EXTENDING FILING DEADLINE

**PROCEDURAL HISTORY**

On April 30, 1991 the Commission issued its ORDER APPROVING REVISED TARIFF in this case. Among other things, that Order required Northern States Power Company to develop a standard form for calculating excess installation charges. The new form was to be filed within 20 days of the date of the Order.

On May 10 the Company requested that the Commission extend this filing deadline to June 11. The Company cited resource constraints resulting from the need to train field personnel in calculating service extension charges during the construction season. Since service extension charges are much more common than excess installation charges, the Company believed it should complete this training before developing the standard form. The Department of Public Service agreed.

The matter came before the Commission on May 21, 1991.

**FINDINGS AND CONCLUSIONS**

The Commission finds that the request to extend the filing deadline is reasonable and should be granted. The reasons for requesting an extension are sound. No party opposes the request. Neither the public interest nor any party's interests will be prejudiced by the delay. The Commission will therefore grant the requested extension.

ORDER

1. Northern States Power Company is granted an extension until June 11, 1991 to file the standard form for calculating excess installation charges, required under the Commission's April 30, 1991 Order in this case.
2. This Order shall become effective immediately.
