

Information and Opportunities

About the Bureau of Mediation Services:

The mission of the BMS is to promote stable and constructive labor-management relations and the use of alternative dispute resolution and collaborative processes in the labor-management relationship, primarily within the public sector. This mission is accomplished within three programmatic areas: mediation, representation, and labor management programs. BMS staff service mostly public, but some private sector, employers, and unions, across the state of Minnesota. This includes employees of the state, counties, cities, school districts, public utilities, etc.
