About the Department of Employment and Economic Development (DEED)

DEED's mission is to empower the growth of the Minnesota economy, for everyone. To meet this mission, we partner with organizations and communities across the state to tackle the challenges our economy faces, focusing on investments that catalyze equitable economic growth. We are Minnesota's primary economic development and workforce development agency. We work to attract, retain, and expand businesses and create jobs for all Minnesotans. We connect workers to jobs, prepare individuals for careers in high-demand industries, help grow family-sustainable career pathways and help people who face barriers to employment find success and enjoy financial independence.
