

MnSAFE – Safety Accountability From Everyone

Workplace injuries and accidents interrupt our state workforce delivering services to Minnesotans. Injuries can and should be prevented through effective safety management and cultures valuing safety.

As Governor, I expect:

- State government will actively promote the safety and health of all while conducting its work.
- All managers, supervisors, and employees will be personally responsible and accountable for workplace safety and will ensure a safe workplace thereby reducing losses associated with accidents and injuries.

Tim Walz
Governor
September 2019

To meet the Governor’s expectations, we commit to creating safe and healthy workplaces by:

- Reducing the incidence of workplace injuries by 5% annually for fiscal years 2020-2023.
- Integrating safety and loss control into our daily operations.
- Communicating our safety commitment to our employees and partners.
- Establishing annual safety and loss control goals and objectives.
- Identifying and assigning resources to support our safety and loss control goals.
- Incorporating safety metrics into how we measure our effectiveness.
- Reviewing our progress towards our goals quarterly.
