

Minnesota Statutes 16C.137, subdivision 1, and the Federal Energy Policy Act (EPA) directs public agencies to implement purchasing practices that can be used to positively impact the environment. Executive Order 19-27 directs State Agencies to take steps that include reducing greenhouse gas emissions and a reduction in petroleum consumption by state vehicles. The Department of Administration, Fleet Services is committed to this effort by working with State Agencies to replace fleet vehicles with "Greener" vehicles throughout the State Fleet. We recommend that State Agencies choose a vehicle with the Green Fleet Choice logo whenever possible. Through these fuel efficiencies, state government will have a substantial impact on the environment and economic efficiency.

*Note: Rates include insurance, maintenance, and interest. Fuel estimates are based on current fuel prices as of 10/04/2023. Prices and vehicle details are subject to change.*
